Northern District of California

This Order confirms the rulings of the Court with respect to the issues raised in these discovery letter briefs.

Plaintiff’s motion to compel documents responsive to Request for the Production of Documents No. 65 is denied. Defendants confirmed their position that any responsive documents are privileged and thus inadmissible and Defendants have produced a privilege log identifying these documents. To the extent that Plaintiff disputes the adequacy of the log and/or whether any particular documents identified on the log are in fact privileged, the parties shall meet and confer and file a joint discovery letter brief as necessary.

Defendants’ motion to compel Plaintiff’s further deposition is denied for the reasons stated on the record.

Defendants’ motion to compel production of Plaintiff’s cell phone is granted in part.
