## Security Event Response Policy

[Security Advisory List](#)[Report a Potential Vulnerability](#)[Security Event Response Policy](#)

In case of a security vulnerability event emergency, proceed directly to "Suspected Security Vulnerability Support and Reporting."

### Summary of Policy

[Summary of Policy](#)[Product Security Event Response](#)[Suspected Security Vulnerability Support and Reporting](#)[Security Event Response Team Support Information](#)[General Security-Related Questions](#)[Customer Care Contact Points](#)[Tracking Security Vulnerability Information from D-Link](#)[Direct Internet Contact](#)[Public Relations Contacts for Security Vulnerability Information](#)[Public Relations Contacts](#)[D-Link's Commitment to Product Security](#)

### Product Security Event Response

D-Link's response to security issues for D-Link products is a distributed responsibility among all of its regional business units. Coordinated security response is managed by our security event response teams located D-Link US, D-Link Europe, and D-Link Corporate Headquarters. The D-Link security event response team is the global team that is responsible for the gathering, investigation, and public reporting of potential security vulnerability issues related to D-Link products. With our global team, our intent is to work with and respond as quickly as possible to D-Link customers, vendors, partners, consultants, security researchers, industry organizations, and others to identify potential security issues in our products and network deployments.

### Suspected Security Vulnerability Support and Reporting

It is highly recommended that anyone suspecting a product security issue contact our security event response team. D-Link encourages reports from any source, including but not limited to customers, vendors, partners, independent researchers, industry organizations, and other sources. If contact is made through other channels, methods, regional offices, customer care there is a strong risk issues may not get the urgency necessary for these reports. The team uses English as a common language but we accept local languages and will translate as needed.

#### Security Event Response Team Support Information

**E-mail:** [security@dlink.com](mailto:security@dlink.com)

**Hours:** Support requests received via e-mail are monitored 24/7/365 and are not subject to business and Customer Care hours.

Recognized Event Reports are listed on <http://securityadvisories.dlink.com/security/>

Reports are typically acknowledged within 24 hours on the above site. Plan of actions are typically offered within 48 hours of a recognition and posting of a report. All communication to the public will be done thru the report posted above.

## General Security-Related Questions

The D-Link Customer Care center can provide assistance for all technical and configuration issues related to security matters, as well as with non-sensitive security events including security bug fixes and software upgrades.

## Customer Care Contact Points

### Phone:

- For US Consumer Retail Products +1 (877) 453-5465 / For US Business Products +1 (877) 354-6555 – Business Hours
- For EU Products 0871 873 3000\* 9.00 am - 7.00 pm, M- F
- For Canadian Products 1-800-361-5265 English (9am-8pm EST) & French (12pm-9pm EST) M-F

## D-Link's Commitment to Product Security

D-Link prohibits at all times, including during product development by D-Link or its affiliates, any intentional product features or behaviors which allow unauthorized access to the device or network, including but not limited to undocumented account credentials, covert communication channels, "backdoors" or undocumented traffic diversion. All such features and behaviors are considered serious and will be given the highest priority.

## Speed and Range<sup>1</sup>

wireless G

wireless N 150

wireless N 300

## WIRELESS N 300 ROUTER

Powerful Wireless N 300 technology outperforms Wireless G<sup>1</sup>

Parental controls to supervise Internet activity

Built-in QoS engine enhances Internet experience

### UPGRADE YOUR NETWORK

The D-Link Wireless N 300 Router (DIR-615) provides a better wireless signal for your network than previous-generation Wireless G technology. Upgrading your home network to Wireless N 300 provides an excellent solution for sharing an Internet connection and files such as video, music, photos, and documents. D-Link Wireless N 300 products use Intelligent Antenna technology to transmit multiple streams of data which enables you to receive wireless signals in the farthest corners of your home. Not only does the D-Link Wireless N 300 technology extend your wireless range, it also works with previous-generation wireless devices. The DIR-615 also includes QoS (Quality of Service) Prioritization Technology that analyzes and separates multiple data streams based on sensitivity to delay, enabling multiple applications to stream smoothly across your network<sup>2</sup>.

### EASY TO SET UP

The D-Link Quick Router Setup Wizard quickly configures your new Wireless N 300 Router to get you up and running in minutes. Our Setup Wizard walks you step by step through the installation process to configure your Internet connection, wireless network settings and security, and everything else you need to get your network up and running so that you don't have to be a networking expert to get it set up.

### EASY TO SECURE

The DIR-615 supports the latest wireless security features to help prevent unauthorized access, be it from over a wireless network or from the Internet. Support for WPA™ and WPA2™ standards ensure that you will be able to use the best possible encryption, regardless of your client devices. In addition, the Wireless N 300 Router utilizes dual active firewalls (SPI and NAT) to prevent potential attacks from across the Internet.

Delivering great wireless performance, network security and coverage, the D-Link Wireless N 300 Router (DIR-615) is ideal for upgrading your existing wireless home network.

### WHAT THIS PRODUCT DOES

Create a wireless network to share high-speed Internet access with computers, game consoles, and media players from greater distances around your home.

### BENEFITS OF A WIRELESS N 300 ROUTER

This Wireless N 300 Router uses powerful 802.11n technology with multiple intelligent antennas to maximize the speed and range of your wireless signal to significantly outperform previous-generation Wireless G MIMO devices<sup>1</sup>. The antennas on the Wireless N 300 Router make use of your home's environment by bouncing multiple wireless signals off walls and ceilings to work around obstructions and help eliminate dead spots.

### YOUR NETWORK SETUP

### TECHNICAL SPECIFICATIONS

#### STANDARDS

- + IEEE 802.11n
- + IEEE 802.11g
- + IEEE 802.3
- + IEEE 802.3u

#### DEVICE INTERFACE

- + 4 10/100 LAN Ports
- + 1 10/100 WAN Port

#### SECURITY

- + Wi-Fi Protected Access (WPA, WPA2)<sup>6</sup>

#### ADVANCED FIREWALL FEATURES

- + Network Address Translation (NAT)
- + Stateful Packet Inspection (SPI)
- + VPN Pass-through / Multi-sessions PPTP / L2TP / IPSec

#### DEVICE MANAGEMENT

- + Internet Explorer<sup>®</sup> v7 or Later; Mozilla Firefox<sup>®</sup> v3.0 or Later; or other Java-enabled Browsers

#### RECOMMENDED SYSTEM REQUIREMENTS

- For Optimal Wireless Performance, use with:
- + Wireless N 300 Adapter (DWA-130)

#### MINIMUM SYSTEM REQUIREMENTS

- Computer with:
- + Windows<sup>®</sup> 7<sup>1</sup>, Windows Vista<sup>®</sup>4, Windows<sup>®</sup> XP SP3, or Mac OS<sup>®</sup> X (v10.4)<sup>5</sup>
- + Internet Explorer v7 or Mozilla Firefox v3.0
- + CD-ROM Drive
- + Network Interface Card
- For Internet Access:
- + Cable or DSL Modem
- + Subscription with an Internet Service Provider (ISP)

#### PACKAGE CONTENTS

- + Wireless N 300 Router
- + CAT5 Ethernet Cable
- + Power Adapter
- + CD-ROM<sup>6</sup> with
- Installation Wizard
- Product Documentation

#### LEDs

- + Power
- + WLAN (Wireless Connection)
- + LAN (10/100)
- + Internet Status

#### CERTIFICATIONS

- + FCC Class B
- + IC
- + Wi-Fi<sup>®</sup>

#### DIMENSIONS

- + Item (WxDxH): 7.8" x 5" x 1.2" (198.1mm x 127mm x 30.5mm)
- + Packaging (WxDxH): 10.9" x 2.6" x 8.1" (276.9mm x 66mm x 205.8mm)

#### WEIGHT

- + Item: 0.6 lbs (272.2 grams)
- + Packaging: 1.4 lbs (635 grams)

#### WARRANTY

- + 1-Year Limited<sup>3</sup>

<sup>1</sup> Maximum wireless signal rate derived from IEEE Standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link Wireless N devices.

<sup>2</sup> QoS feature available in hardware version B1 and above.

<sup>3</sup> 1-Year Limited Warranty available only in the USA and Canada.

<sup>4</sup> Computer must adhere to Microsoft's recommended System Requirements.

<sup>5</sup> The software included with this product is not Mac-compatible.

<sup>6</sup> Latest software and documentation are available at <http://support.dlink.com>.

<sup>7</sup> Hardware version C1 and above are equipped with non-detachable antennas.

All references to speed and range are for comparison purposes only. Product specifications, size, and shape are subject to change without notice, and actual product appearance may differ from that depicted herein.

Hardware Version 11

## MOBILE WIRELESS ROUTER

Create a reliable mobile high-speed wireless network wherever you go<sup>1</sup>

Attach your mobile adapter to the router's USB port to enjoy Internet service with your family or colleagues

Use your mobile connection as a backup for your ADSL/cable Internet service

### MAXIMUM PORTABILITY

The D-Link® Mobile Wireless Router (DIR-412) allows users to access worldwide mobile broadband<sup>1</sup>. Simply insert a compatible mobile broadband USB adapter into the DIR-412 to share your mobile broadband Internet connection through a secure, high-speed 802.11n wireless network. A 10/100 Ethernet WAN port allows you to access a DSL/Cable modem as the primary backup connection. Auto-failover ensures an uninterrupted connection by automatically connecting to your mobile broadband network whenever your Ethernet network goes down.

### ADVANCED NETWORK SECURITY

The DIR-412 ensures a secure Wi-Fi network through the use of WPA/WPA2 wireless encryption. Simply press the WPS button to quickly establish a secure connection to new devices. The DIR-412 also utilizes dual-active firewalls (SPI and NAT) to prevent potential attacks and intrusions from across the Internet.

### SIMPLE TO INSTALL AND USE

The Mobile Wireless Router can be installed quickly and easily almost anywhere. This router is great for situations where an impromptu wireless network must be set up, or wherever conventional network access is available. The DIR-412 can be installed on RVs, trains, or boats, allowing passengers to check e-mail or chat online while commuting.

### WHAT THIS PRODUCT DOES

The DIR-412 allows you to connect a mobile broadband adapter for mobile broadband connectivity. The incoming connection is then shared via a 802.11n wireless network. The standard Ethernet port on the back can be used as a primary or backup connection.

### WIRELESS N 150 TECHNOLOGY

Using Wireless N technology, the DIR-412 provides optimal wireless performance and faster file transfers, enabling you to receive better reception across your home. Not only does the D-Link Wireless N 150 technology extend your wireless range, it is also compatible with previous-generation Wireless G devices<sup>1</sup>.

### MOBILE WIRELESS ROUTER BENEFITS

- + Provides high-speed connectivity in areas without conventional 802.11 wireless access
- + Compatible with EV-DO/CDMA/HSUPA/HSDPA/UMTS networks
- + Supports WAN failover for persistent connections

### YOUR NETWORK SETUP

PX 4

Dual-band performance -  
Up to 600Mbps speed

Simultaneous 2.4GHz and  
5GHz wireless bands for HD  
video and everyday use

Create a faster Wi-Fi  
network with superior  
home coverage

## Wireless N Dual Band Router

### Product Highlights

Delivers faster speeds and farther range than previous-generation Wireless G

Award-winning QoS Engine prioritizes Internet traffic to enable enhanced gaming and phone calling (VoIP) experience

Easy to install and use with the included Quick Router Setup Wizard

### What this product does

The D-Link® Wireless N Dual Band Router (DIR-815) features simultaneous wireless bands for faster wireless network speeds up to 600Mbps, enabling you to create a faster Wi-Fi network with superior home coverage.

### Dual Band Advantage

Dual Band is two Wi-Fi networks in one router. The dual band technology in the DIR-815 supports both 2.4GHz and 5GHz wireless signals simultaneously. You can check e-mail and browse the Internet using the 2.4GHz band while playing lag-free games and streaming HD movies on the clearer 5GHz band.

### Exceptional Performance

The D-Link® Wireless N Dual Band Router (DIR-815) is a Wireless N compliant device that delivers faster speeds<sup>1</sup> and farther range<sup>1</sup> than previous-generation Wireless G devices. Connect the Wireless N Dual Band Router to a cable or DSL modem and provide high-speed Internet access to multiple computers, game consoles, and media players. Create a secure wireless network to share photos, files, music, printers, and more, from greater distances throughout your entire home or office. With D-Link's award-winning QoS engine that prioritizes time-sensitive online traffic, this router enables smooth Internet phone calls (VoIP) and responsive gaming.

### Advanced Network Security

The Wireless N Dual Band Router supports the latest wireless security features to help prevent unauthorized access, be it from over a wireless network or from the Internet. Support for WPA™ and WPA2™ standards ensure that you will be able to use the best possible encryption method. In addition, this Wireless N Dual Band Router utilizes Stateful Packet Inspection firewalls (SPI) to help prevent potential attacks from across the Internet.

### Package Contents

- Wireless N Dual Band Router (DIR-815)
- Ethernet Cable
- Power Adapter
- CD-ROM<sup>2</sup>
- Quick Install Guide<sup>2</sup>

### Minimum System Requirements

#### Computer with:

- Windows® 7<sup>3</sup>, Windows Vista®<sup>3</sup> or Windows® XP SP2<sup>3</sup> or Mac OS® X (v10.4)<sup>4</sup>
- Internet Explorer® v6 or Mozilla® Firefox® v3.0
- CD-ROM Drive
- Network Interface Card

#### For Internet Access:

- Cable or DSL Modem
- Subscription to an Internet Service Provider (ISP)

#### Suggested Products:

- D-Link Xtreme N® Dual Band USB Adapter (DWA-160)

### Features

- IEEE 802.11n, 802.11g, and 802.11a Compliant
- Dual Band Technology for Superior Wireless Performance<sup>1</sup>
- Wi-Fi® Protected Setup™ (WPS) for Simple Push-Button Wireless Network Configuration
- Built-in QoS Engine Enhances Internet Experience
- 4 Fast Ethernet Ports
- Supports Secure Wireless Encryption Using WPA™ or WPA2™
- 24/7 Basic Installation Support<sup>5</sup>
- 1-Year Limited Warranty<sup>6</sup>

Wi-Fi coverage to the farthest corners of your home

DIR-645

### Whole Home Router 1000

The D-Link Whole Home Router 1000 is designed to enhance your wireless signal and extend coverage. SmartBeam™ technology provides wireless signals to every corner of your house<sup>1</sup> by directly beaming bandwidth to your wireless devices. Since SmartBeam works in real time, you're free to move around with your laptop or iPad® without losing this superior signal.

Patented sectorized antenna design for superior SmartBeam™ performance

**USB Port**  
Connect a USB Printer or Storage Device

**4 Gigabit Ports**  
Connect up to 4 devices

**Internet Port**  
Plug your Internet cable in here

## Give your wireless devices the bandwidth they crave. Give them SmartBeam.

Build a wireless home network capable of delivering the bandwidth to handle HD video streams, large media file downloads, and online gaming to multiple devices, simultaneously. SmartBeam uses 6 multi-directional antennas to find and track individual devices, then focus beams of bandwidth to those devices, ensuring a seamless connection anywhere in the home. Ideal for large homes or small offices where concrete walls, successive floors in multi-storied buildings, or other architectural impediments can weaken a wireless signal, SmartBeam is designed to handle large home networks and can even power devices across large backyards. What's more, this tracks mobile devices in real-time so the Whole Home Router 1000 supplies this boosted bandwidth to your iPad or smartphones as you move around. Eliminate wireless dead spots and unleash comprehensive whole-home coverage on all your devices, all at once – the Whole Home Router 1000 provides uninterrupted connectivity to any device, anywhere in your home or small office.

## Now Playing: Everything

The Whole Home Router 1000 has not only been engineered to deliver seamless connectivity to your favorite wireless devices, but comes equipped with 4 high-performance Gigabit Ethernet ports to power your digital entertainment system as well. HDTVs, the Boxee Box by D-Link, Blu-Ray Players, xBox 360®, Playstation 3 – Connect your favorite performance devices and give them the 300 Mbps speed and advanced QoS bandwidth prioritization they need for seamless iPad® HD video streams, high-performance gaming, and VOIP calls without annoying glitches or lags. Connect printers, NAS servers - even security cameras - Shareport Plus USB 2.0 lets you stream from any USB device. There's even a SharePort App for Android® and iPhone® OS for online gaming support like OnLive.

## Advanced Home Networking. Simple Setup

High-performance entertainment devices. Wireless signals anywhere in your home. Multiple laptops. Network storage systems. iPads, iPhones – It used to be that designing a home network capable of handling so many devices required some serious hardware and some seriously messy installation. Not with Amplifi™- the Whole Home Router 1000 has not only been engineered with the power to handle all of your digital demands, but with the smarts to put it at the tip of your fingers. Whole Home Routers offer Wireless G backwards-compatibility and Wi-PnP technology for simple wireless connections through a USB drive. IPv6 allows for intelligent self-detect and router setup.

## 128-bit Security Encryption

The Whole Home Router 1000 protects your network with 128-bit AES data security encryption – the same technology used in E-commerce or online banking. Create your own network name and password or put it at the tip of your fingers with 'Push Button Security' standard on every Amplifi device. With hassle-free plug and play installation, and advanced Wi-Fi protected setup, the Whole Home Router 1000 is not only one of the fastest routers available, its also one of the safest.

## Get Ready for the Future - IPv6 Equipped

With the growing number of Internet-enabled applications requiring IP addresses, the supply of IP addresses under the current Internet Protocol version 4 (IPv4) system has already been exhausted. The IPv6 protocol solves this network addressing exhaustion by creating more IP addresses, but migration from IPv4 to IPv6 is not necessarily automatic. No worries - This D-Link product is IPv6 Certified and ready for the future.

## The Whole Home Router is great for:

Large Homes

Homes or offices with cold or dead spots

Mobile devices like iPads and tablets

Outdoor wireless connectivity¹

**Features**

- + 4 Gigabit Ethernet Ports<sup>1</sup>
- + IEEE 802.11n and 802.11g Compliant
- + WPS (Wi-Fi® Protected Setup™) for simple Push-Button Wireless Network Configuration
- + Supports Secure Wireless Encryption Using WPA™ or WPA2™
- + Parental Controls powered by OpenDNS
- + UPnP® Support
- + 24/7 Basic Installation Support<sup>2</sup>
- + 1-Year Limited Warranty<sup>3</sup>

**Think Green**

While this may look like your average router, it's not. This is a D-Link Green router, which is as good for your wallet as it is for the environment. The Whole Home Router 1000 is designed to conserve energy, protect our environment from harmful substances and reduce waste by using recyclable packaging. D-Link Green devices provide eco-friendly alternatives without compromising performance. To learn more, visit [www.dlinkgreen.com](http://www.dlinkgreen.com).

**D-Link Green™ Technology<sup>2</sup>**

- + Power saving by link status
- + Power saving by cable length
- + Power saving by wireless LAN scheduling
- + Complies with the EU RoHS directive that restricts the use of certain hazardous materials
- + Uses soy ink and recyclable packaging to reduce harmful environmental waste

**WARRANTY**

- + 1-Year Limited<sup>3</sup>

<sup>1</sup> Maximum wireless signal rate derived from IEEE Standard 802.11 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, buildings materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range. Wireless range and speed rates are D-Link RELATIVE performance measurements based on the wireless range and speed rates of a standard Wireless G product from D-Link. Maximum throughput based on D-Link draft Wireless N devices.

<sup>2</sup> D-Link Green references contained herein apply to Hardware version A3 or later. SharePort references contained herein apply to Firmware version 1.21 or later.

<sup>3</sup> 1-Year Limited Warranty available only in the USA and Canada.

<sup>4</sup> Computer must adhere to Microsoft's recommended System Requirements.

<sup>5</sup> The software included with this product is not Mac-compatible.

<sup>6</sup> Latest software and documentation are available at <http://support.dlink.com>.

All references to speed and range are for comparison purposes only. Product specifications, size, and shape are subject to change without notice, and actual product appearance may differ from that depicted herein.

DIR-645

**Package Contents**

- + Whole Home Router 1000 (DIR-645)
- + CAT5 Ethernet Cable
- + CD-ROM<sup>6</sup>
- + Power Adapter
- + Quick Install Guide

**Minimum Requirements**

- Computer with:**
- + Windows® 7<sup>4</sup>, Windows Vista®<sup>4</sup>, Windows® XP SP2<sup>4</sup>, Windows® 2000<sup>4</sup>, or Mac OS® X (v10.4)<sup>5</sup>
  - + Internet Explorer® v6 or Mozilla® Firefox® v3.0
  - + CD-ROM Drive
  - + Network Interface Card

**For Internet Access:**

- + Cable or DSL Modem
- + Subscription with an Internet Service Provider (ISP)

For optimal wireless performance, use with D-Link Xtreme N® Desktop PCI Adapter (DWA-552), D-Link Xtreme N® Desktop PCI Express Adapter (DWA-556), or D-Link Wireless N Nano USB Adapter (DWA-131).

## Wireless N Network Camera

### Compact Size, Easy Installation

The mydlink-enabled Wireless N Network Camera (DCS-930L) comes with everything you need to quickly add a surveillance camera to your home or small office network. It works right out of the box. Simply connect the cables, plug in the camera, run the short installation wizard and setup is complete. To view what the camera is seeing, simply log on to mydlink.com, choose your device, and start viewing – there is no need to configure your router to open up ports or remember hard-to-memorize Internet addresses.

### Benefits Of mydlink™

mydlink products are created for people who long to embrace a world connected through the Internet, but are afraid they lack the technical expertise to do so. mydlink products remove the learning curve that is typically associated with today's high-tech devices because they are truly plug-and-play with zero or extremely easy configuration. mydlink provides you easy and straightforward access to your digital life all from our intuitive, convenient website ([www.mydlink.com](http://www.mydlink.com)). mydlink makes it easy to get the most from your digital lifestyle without the learning curve.

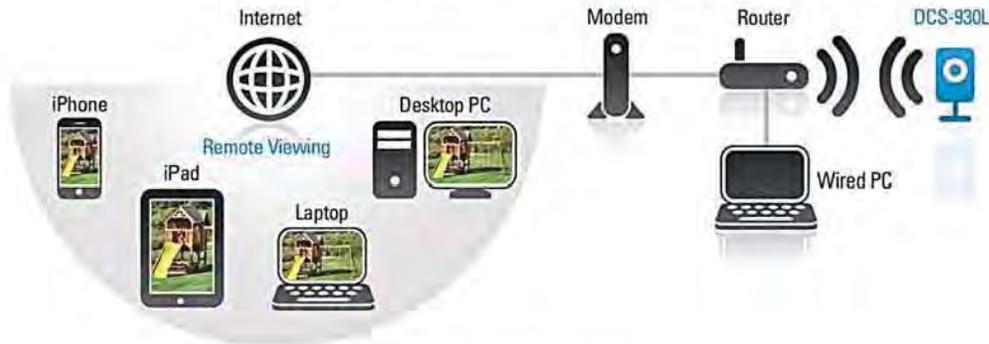

### Convenient Access, Anywhere, Anytime

As a mydlink-enabled device, you can access the DCS-930L anytime, anywhere you have Internet access. Get peace of mind by keeping an eye on your kids, pets, home or office from almost anywhere by simply logging on to the mydlink website and selecting your camera or download the free mydlink™ app from the App store™ or Android™ market for on-the-go Live video viewing. Since the DCS-930L comes with a built-in microphone, you can see and hear for yourself that everything is well at home.

### Camera Management

For advanced users that want more out of their camera, the DCS-930L also comes with D-Link D-ViewCam™ management software. D-ViewCam comes with a host of features including the ability to record directly from the camera to a local hard drive, trigger motion detection, set recording schedules, set e-mail alert notifications, and even support for up to 32 cameras. D-ViewCam also allows you to upload a floor plan of your home or small business and create a realistic layout of where your cameras are located, providing you with better access to your camera. For even greater recording flexibility, you can record video directly to a Network Attached Storage (NAS) device, eliminating the need for a dedicated computer to store video.

### Various Viewing Applications

### Technical Specifications

#### Network Protocol

- + IPv4, ARP, TCP, UDP, ICMP
- + DHCP Client
- + NTP Client (D-link)
- + DNS Client
- + DDNS Client (Dyns and D-link)
- + SMTP Client
- + FTP Client
- + HTTP server
- + PPPoE
- + UPnP Port Forwarding
- + LLTD

#### Built-in Network Interface

- + 10/100Base-TX Fast Ethernet
- + 802.11b/g/n WLAN

#### Wireless Connectivity

- + 802.11b/g/n Wireless with WEP/WPA/WPA2 security

#### Wireless Transmit Output Power

- + 16 dbm for 11b, 12 dbm for 11g, 12 dbm for 11n (typical)

#### SDRAM

- + 32 MB

#### Flash Memory

- + 4 MB

#### Reset Button

- + Reset to factory default

#### Video Codecs

- + MJPEG
- + JPEG for still images

#### Video Features

- + Adjustable image size and quality
- + Time stamp and text overlay
- + Flip and Mirror

#### Resolution

- + 640 x 480 at up to 20 fps
- + 320 x 240 at up to 30 fps
- + 160 x 120 at up to 30 fps

#### Lens

- + Focal length: 5.01 mm, F2.8

#### Sensor

- + VGA 1/5 inch CMOS Sensor

#### Minimum Illumination

- + 1 Lux @ F2.8

#### View Angle

- + Horizontal: 45.3°
- + Vertical: 34.5°
- + Diagonal: 54.9°

#### Digital Zoom

- + Up to 4x

#### 3A Control

- + AGC (Auto Gain Control)
- + AWB (Auto White Balance)
- + AES (Auto Electronic Shutter)

#### Power

- + Input: 100-249 V AC, 50/60Hz
- + Output: 5 V DC, 1.2A
- + External AC-to-DC switching power adapter

#### Max Power Consumption

- + 4.5W

#### Operation Temperature

- + 32°F to 140°F (0°C to 40°C)

#### Storage Temperature

- + -4°F to 158°F (-20°C to 70°C)

#### Humidity

- + 20-80% RH Non-Condensing

#### Dimensions (W x D x H)

- + Including the bracket and stand:  
2.6" x 2.6" x 5" (65.8mm x 65mm x 126mm)

#### Camera only

- + 1.1" x 2.4" x 3.8" (27.2mm x 60mm x 96mm)

#### Certifications

- + FCC Class B
- + IC
- + C-Tick
- + CE

#### Support

- + 24/7 Basic Installation Support<sup>1</sup>

#### Warranty

- + 1-Year Limited<sup>1</sup>

### Package Contents

- 1 Digital Baby Monitor (DCS-9321L)
- 1 Ethernet Cable
- 1 Power Adapter
- 1 Camera Base and Mounting Kit
- 1 3.5mm Headset

### Maximum Requirements

- Minimum 1024x768 resolution on Windows (800 x 600) or 1024 x 768 on Mac OS X
- Internet connection with minimum 1 Mbps upload and download speed
- Compatible with:
  - 2.9GHz Processor
  - 1GB RAM
  - Windows 7, Windows Vista™ and Windows XP™
  - Mac OS X 10.6 or later (Intel Processor)
  - Internet Explorer™ 8, Microsoft® Firefox™, Google™ Chrome™ or Safari™
- For Maximum Security:
  - 2. Camera must be in range
  - 2. Network must be secured with WPA2
