Case No. 4:10-cv-00945-CW

6 The Court hereby orders as follows:

7 I. Selection of Court-Appointed Expert

8 Having considered the parties' submissions in response to the Opportunity to Show
9 Cause Why a Court-Appointed Expert Should Not Be Appointed, the Court will appoint the
10 expert selected to serve in the AMD case to serve in all the related cases, for reasons stated
11 in the Order of March 26, 2012. As indicated in that order, the Court will give the parties an
12 opportunity prior to trial to move to disallow the introduction of the appointed expert's
13 testimony to the jury on the ultimate issues of infringement and invalidity, should it become
14 apparent that the parties' experts have not provided confusing and conflicting evidence and
15 the expert's testimony is not needed.

16 If Dr. Reinhold Dauskardt consents, the Court will appoint him as its expert witness
17 in the above-captioned cases. See Fed. R. Evid. 706. The Court notes that, if Dr. Dauskardt
18 is so appointed, Tessera, Inc. has agreed that: (1) it will not retain him for any consulting
19 work during the pendency of this litigation, and (2) it will not object to Dr. Dauskardt's
20 taking on consulting engagements with the Defendants unrelated to the subject matter of the
21 patents-in-suit, provided that the fact and terms of any such engagement may be disclosed to
22 both Tessera, Inc. and the finder of fact.

23 II. Duties of the Court-Appointed Expert

24 As the court-appointed expert, Dr. Dauskardt shall serve as a neutral, independent
25 expert on behalf of the Court on the technology at issue in this litigation. His duties shall be
26 to provide expert analysis and opinions as to the technical issues in this case, including issues
27

1 concerning infringement/non-infringement and validity/invalidity of the asserted claims of
2 U.S. Patent Nos. 5,679,977; 5,852,326; 6,433,419; 6,465,893; 6,133,627; and 5,663,106
3 (collectively, “the Patents-in-Suit”). These issues may include whether the accused products
4 of any of the Defendants¹ have infringed any of the Patents-in-Suit literally or under the
5 doctrine of equivalents and/or whether any of the Patents-in-Suit is invalid.

6 III. Materials to be Provided to the Court-Appointed Expert

7 Dr. Dauskardt will be provided with various materials to use as resources when
8 forming his opinions. He is not limited to these materials, and may request additional
9 information if he believes that it is necessary. He may give these materials as much weight
10 and consideration as he believes in his professional judgment is required.

11 Copies of the following materials will be provided to Dr. Dauskardt within five days
12 of the entry of an order appointing him, in organized binders that are labeled and tabbed, as
13 well as in an electronic format:

- 14 (i) the model jury instructions for patent cases in the Northern District of
15 California;
- 16 (ii) all Patents-in-Suit;
- 17 (iii) the file histories of all Patents-in-Suit;
- 18 (iv) infringement contentions in the above-referenced cases served by Tessera
19 before the date of this Order;
- 20 (v) all product-related documents cited in the infringement contentions in the
21 above-referenced cases served by Tessera before the date of this Order;
- 22 (vi) invalidity contentions in the above-referenced cases served by any Defendant
23 before the date of this Order;
- 24 (vii) the prior art references cited in invalidity contentions in the above-referenced
25 cases served by any Defendant before the date of this Order;

26
27 ¹ As used herein, the term “Defendants” shall mean the parties other than Tessera, Inc.

- 1 (viii) the operative complaints in each of the above-referenced cases;
- 2 (ix) the operative answers and counterclaims in each of the above-referenced
- 3 cases;
- 4 (x) the operative responsive pleadings to the operative counterclaims in each of
- 5 the above-referenced cases.

6 The parties will provide additional materials to Dr. Dauskardt during the course of

7 the litigation. Those materials will include the following:

8 (i) any complaints, answers, counterclaims, and responses to counterclaims that

9 are served after the date of this Order, including any complaints, answers, counterclaims, or

10 responses to counterclaims that amend or supersede the complaints, answers, and

11 counterclaims previously provided to Dr. Dauskardt. These documents shall be provided

12 within five days of the entry of an order appointing him, or on or about the date they are

13 served, whichever is later.

14 (ii) any additional infringement contentions, and any product-related documents

15 cited therein to the extent not previously provided to Dr. Dauskardt, served in the above-

16 referenced cases after the date of this Order. These documents shall be provided within five

17 days of the entry of an order appointing him, or on or about the date they are served,

18 whichever is later.

19 (iii) any additional invalidity contentions, and any prior art references cited

20 therein to the extent not previously provided to Dr. Dauskardt, served in the above-

21 referenced cases after the date of this Order. These documents shall be provided within five

22 days of the entry of an order appointing him, or on or about the date they are served,

23 whichever is later.

24 (iv) the expert reports on infringement/non-infringement and validity/invalidity

25 prepared for, and exchanged in, any of the above-referenced cases. These materials shall be

26 provided on or about the day they are exchanged.

1 (v) transcripts of the expert depositions taken in any of the above-referenced
2 cases. These transcripts shall be provided on or about the day they become available to the
3 parties.

4 (vi) the parties' Joint Claim Construction and Prehearing Statement, and their
5 briefs, declarations and other supporting evidence on their motions for claim construction
6 and summary judgment. These documents shall be provided on or about the same day they
7 are filed with the Court.

8 (vii) the up-to-date and all continuing correspondence to and from the United
9 States Patent and Trademark Office regarding reexaminations of any of the Patents-in-Suit.
10 These materials shall be provided within five days of the entry of an order appointing Dr.
11 Dauskardt, and any additional correspondence thereafter shall be provided as it becomes
12 available.

13 The foregoing list of items is not intended to be exhaustive. The parties may later
14 specify additional information relevant to Dr. Dauskardt's analysis and/or report, including
15 without limitation, materials from prior actions involving the same Patents-in-Suit or accused
16 products. The parties will send the documents to Dr. Dauskardt jointly. If the parties
17 disagree about the propriety of providing a certain document or thing to Dr. Dauskardt, the
18 parties will seek the Special Master's assistance and neither party shall provide that document
19 or thing to Dr. Dauskardt unless and until the Special Master has resolved the issue.

20 If any of the materials to be provided to Dr. Dauskardt contain confidential
21 information of third parties and the third parties have not consented to the production of
22 their materials by the deadlines set forth above, the materials will be provided as soon as
23 practicable after the parties obtain the necessary approval from the third parties.

24 IV. Instructions to the Court-Appointed Expert

25 Among other things, Dr. Dauskardt may look to the reports and the deposition
26 transcripts of the parties' experts for guidance as to what the experts and the parties believe
27

1 are the key issues to be addressed in this case. However, it is not his role merely to critique
2 the parties' experts. His opinions are to be his own independent opinions.

3 Dr. Dauskardt should follow the basic rules of patent law as set forth in the model
4 jury instructions for patent cases in the Northern District of California, including the
5 requirement that he must follow prior court orders interpreting the meaning of certain
6 patent claim terms. He is not required to provide a detailed analysis of patent law. If Dr.
7 Dauskardt requires further guidance regarding patent law terminology, or the relevant legal
8 standards, he can direct inquiries to the parties or the Court with respect thereto, as
9 described below.

10 After reviewing the materials provided to him, and conducting his own independent
11 analysis, Dr. Dauskardt will prepare an expert report, containing a statement of his opinions
12 and the reasons for his opinions. Dr. Dauskardt may want to attach the claim charts
13 described below as exhibits to his report. The Court and the parties are looking for a basic
14 statement of Dr. Dauskardt's opinions in this case. Although he may look to other expert
15 reports for guidance as to formatting and standard content, no specific format is required.
16 The Court grants the parties' stipulation to reset the due date for the court-appointed
17 expert's report to August 20, 2013. Accordingly, Dr. Dauskardt's report should be sent to
18 the parties and the Court in an electronic format and by express mail no later than August
19 20, 2013, or another date to be agreed upon by Dr. Dauskardt and the parties with the
20 Court's approval. To provide Dr. Dauskardt with a complete record for preparation of his
21 report, the parties shall conclude all depositions of the parties' experts at least one month
22 prior to the due date of Dr. Dauskardt's report.

23 In his expert report:

24 (i) Dr. Dauskardt will offer his opinion on infringement by determining whether
25 each and every element of the asserted claims can be found in Defendants' accused
26 products. Tessera's infringement contention charts should set out its infringement theory on
27 an element-by-element basis. Similarly, the parties' expert reports should track this element-

1 by-element analysis, including Defendants' responses to Tessera's infringement claims. Dr.
2 Dauskardt should conduct his own independent analysis in the same manner as the parties in
3 this case. The parties will provide him with blank versions of these claim charts in electronic
4 format for his convenience.

5 (ii) Dr. Dauskardt will offer his opinion on patent invalidity due to anticipation
6 by determining whether or not each and every element of one or more of the asserted claims
7 can be found in any one item of prior art. Defendants' invalidity contention charts should
8 set out their invalidity-due-to-anticipation theories on an element-by-element basis.
9 Similarly, the parties' expert reports should track this element-by-element analysis, including
10 Tessera's response to Defendants' anticipation claim. Dr. Dauskardt should conduct his
11 own independent analysis on anticipation in the same manner as the parties in this case. The
12 parties will provide him with blank versions of these claim charts in electronic format for his
13 convenience.

14 (iii) Dr. Dauskardt will offer his opinion on invalidity due to obviousness by
15 determining whether or not it would have been obvious to combine the teachings of certain
16 references to achieve the claimed invention. Defendants' invalidity contention charts should
17 set out their invalidity-due-to-obviousness theories on an element-by-element basis.
18 Similarly, the parties' expert reports should track this element-by-element analysis, including
19 Tessera's response to Defendants' obviousness claim. Dr. Dauskardt should conduct his
20 own independent analysis on obviousness in the same manner as the parties in this case.
21 The parties will provide him with blank versions of these claim charts in electronic format
22 for his convenience.

23 (iv) Dr. Dauskardt will offer his opinion on invalidity based on any other
24 invalidity theories involving technical matters presented by Defendants, including, without
25 limitation, failure to comply with any of the statutory requirements defined in 35 U.S.C.
26 § 112.

1 The parties will depose Dr. Dauskardt on or before September 1, 2013, or another
2 date to be agreed upon by Dr. Dauskardt and the parties, at a location that is convenient to
3 him. At the deposition, the parties may ask him questions, and he will be given the
4 opportunity to explain his opinions in greater detail prior to his testimony at trial. Each side
5 may depose Dr. Dauskardt for up to 7 hours.

6 Dr. Dauskardt shall attend the claim construction and summary judgment oral
7 hearing on December 5, 2013. Dr. Dauskardt shall review the parties' claim construction
8 briefs prior to the hearing. Additionally, Dr. Dauskardt shall provide the Court and the
9 parties with his advisory opinion on claim construction on or before November 25, 2013.
10 The advisory opinion shall include Dr. Dauskardt's proposed constructions of the disputed
11 claim terms and his reasoning for arriving at those constructions.

12 If the Court's claim construction order causes Dr. Dauskardt to change any opinions
13 rendered in his expert report, he should so indicate in a supplemental report to be sent
14 within 14 days of the issuance of the Court's claim construction order, in which case the
15 parties will be permitted to depose him on those issues.

16 Lastly, Dr. Dauskardt will testify at trial on his opinions. The trial is scheduled to
17 begin on April 7, 2014, and will continue for approximately 15 trial days. The Court and the
18 parties will attempt to accommodate Dr. Dauskardt's schedule and to give him as much
19 advance notice as possible as to what day (or days) he will be needed to testify. Trials are
20 complex matters, however, involving many witnesses, so flexibility will be required. The
21 parties will pay for all of Dr. Dauskardt's reasonable hotel and travel expenses.

22 Dr. Dauskardt may contact the Court by calling its clerk at (510) 637-3542 if
23 questions come up or if he encounters difficulty in accomplishing his assigned tasks. The
24 clerk will arrange a conference call with the attorneys. He may also contact the Court by
25 letter, with a copy to the parties, or by emailing the clerk and "cc"-ing the parties. The
26 clerk's email address is cwcrd@cand.uscourts.gov. In addition, Dr. Dauskardt may contact
27 the parties directly, by using the e-mail addresses that they will provide to him, if he needs
28

1 additional documents or other information. Dr. Dauskardt, however, shall not contact only
2 one party, as it is important that all parties be given the chance to communicate with him
3 jointly if needed. The parties will set up a conference call if necessary. Defendants shall
4 select a single attorney to serve as Defendants' liaison to Dr. Dauskardt and the Court to
5 arrange communications with the expert, and shall file a stipulation and proposed order
6 with the Court within five days of the date of this Order providing the identity and contact
7 information for that attorney.

8 In order to accept this appointment, Dr. Dauskardt must give his consent to serve as
9 the Court-appointed expert in this case, and must acknowledge his responsibility to
10 discharge his duties in accordance with the instructions set forth in this order, by signing
11 below and returning the signed original to the Court in the enclosed envelope.

12 Dr. Dauskardt must also confirm that he has no conflict of interest, with respect to
13 the parties and attorneys on the attached list, that has not already been disclosed to the
14 parties.

15 Tessera shall pay for half of Dr. Dauskardt's fees and expenses, and Defendants will
16 share equally the other half. Each side will deposit a retainer of \$20,000 in one of its
17 counsel's trust account. The parties shall disclose to Dr. Dauskardt the hourly rates they are
18 paying to their experts. Dr. Dauskardt may bill at his usual hourly rate or at an agreed rate
19 commensurate with the rates paid to the parties' expert witnesses.

20 This Order terminates Docket No. 980 in 05-4063, Docket No. 67 in 08-3667,
21 Docket No. 63 in 08-3827, Docket No. 60 in 08-3726, Docket No. 50 in 10-4954, Docket
22 No. 118 in 12-692, Docket No. 64 in 11-6121 and Docket No. 118 in 10-945.

23
24 IT IS SO ORDERED.

25 Dated: April 9, 2012

CONSENT

I consent to serve as the Court's expert in the above-captioned cases and will discharge my duties in accordance with the instructions provided to me by the Court. I affirm that I have disclosed truthfully to the parties all potential conflicts of interest that I may have to the best of my knowledge, with respect to the parties and attorneys on the attached list. I agree that, during the pendency of this litigation, I will not engage in any consulting work with Tessera, Inc., that I will not take on consulting engagements with the Defendants that are related to the subject matter of the patents-in-suit, and that I am permitted to take on consulting engagements with the Defendants if they are unrelated to the subject matter of the patents-in-suit and if I disclose the fact and terms of any such engagement to both Tessera, Inc. and the finder of fact.

Dated: _____

Dr. Reinhold Dauskardt
