Howdy, Fellow Mods!

Here's the fourth of our Special Notices that feature spammers, scammers, and the people who send pornographic links -- in other words, the folks most of us would like to ban from our groups. All praise goes to Linnie Jones, who continues to make it so easy for us to cut, paste, and ban these lovely creatures!

If you can't see complete email addresses below, they appear in all their glory on the "Spammers, Scammers and Porno Pushers List" in the Files section of the ModSquad.
