Hi all,

Below is a copy of the "Freecycle Etiquette" text that my local groups send to members "upon joining group" and "every month". As we're always looking to improve, please send me comments and suggestions. Thanks!

FREECYCLE ETIQUETTE

Please read carefully. Then re-read.

Freecycling is all about Reduce, Reuse, Recycle. It's better for someone else to reuse your item than recycle the materials in it or have it end up as trash.

This also means finding people near you to minimize energy use and pollution.

The better we care for our planet, the better it takes care of us (and our kids).

1) Approach -- Keep it free, legal, and appropriate for all ages (no medicines, drugs, guns, adult material, etc). Also no services, only tangible goods.

NO POLITICS and NO SPAM. Two strikes and you're out for mild inappropriate behavior. 1 strike and your out for SPAM and gross misconduct.

No free advice--even if it's really good. If you have a local community public service announcement, contact the moderators first -- it might be allowed depending on what it is.

Also generally no discussion on the list, send questions to the "-owner" (moderator) address that you can find on the group's home page.

No trading or bartering. When in doubt check with the moderator first. If you have an ongoing need for something, please do not post more
