hello pastor ken and mel,

i'm in the process of meeting with a major corporate foundation who would like to present the webpage to the president and would like to have the new york times and teh people magazine and any other major articles on the webpage to strenghten his hand viewable on the webpage. I can't tell you how important this is. they want to solely fund the whole shishkebab. Most importantly, he wants to show his board that we cross all segments of the population and that we are getting incredible prss.

Any way we can do this? you're working on requesting permission right with some now? perhaps could you please post these babies for now and I shall assume any responsibility for not having a final yay or nay yet from them. Oh and what is the status on requesting this?

I'll note or attach those articles that occur first to me...

Let me know if this looks doable. I have audio and video recordings for some of these on cd, etc.
