1 Proposed Order and request the Court adopt it as a Supplemental Case Management Order in this
2 case.

3 DESCRIPTION OF SUBSEQUENT CASE DEVELOPMENTS

4 1. The following progress or changes have occurred since the last case management
5 statement filed by the parties:

6 Pursuant to Order of this Court signed January 8, 2008, the Court ordered that (1) the
7 parties are ordered to arbitrate this matter pursuant to the terms from North Bay Construction's
8 ("NBC") Purchase Order 3102, attached as Exhibit D to the Declaration of Steve Geney in
9 Support of NBC's Motion to Compel, (2) this action shall be stayed until completion of
10 arbitration proceedings, and (3) before engaging in arbitration, the parties shall first make a good-
11 faith effort to mediate the matter before a private mediator agreed upon by the parties. The
12 following discussion if not intended to be a waiver of any mediation privileges, but is intended to
13 communicate to the Court what has happened since the last case management conference:

14 Since the last case management conference, North Bay Construction, Inc. and ISCO
15 Industries, LLC have engaged in an ongoing mediation with mediator Bruce Edwards, Esq. This
16 process has involved the development by experts of a testing protocol by which to determine how
17 best to construct and repair the leachate pipeline, at issue in the case. That testing protocol is now
18 in the process of being fine-tuned by the County of Sonoma, for whom the leachate pipeline was
19 constructed. Once the testing protocol is complete, testing will occur and the parties anticipate
20 that repairs will be conducted soon thereafter. Until such repairs are conducted, however, the
21 parties do not have the information necessary to have a meaningful discussion regarding the
22 damages at issue in this case. The parties anticipate that completion of the testing protocol and
23 subsequent repairs should take three to four months and respectfully requests that the Court return
24 to this matter at that time to determine the status of the case.

25 2. The parties jointly request that the Court make the following Supplemental Case
26 Management Order:

1 The parties request the Court set this matter for a further case management conference for
2 approximately ninety (90) days from now.
