DESCRIPTION OF CASE DEVELOPMENTS

1. The following progress or changes have occurred since the last case management statement filed by the parties:

Pursuant to Order of this Court signed June 18, 2009, this matter is stayed pending completion of the leachate pipeline which is the subject matter of this litigation. Physical repair on the pipeline is completed, final testing of the pipeline is currently underway and approval of the pipeline will occur in the next 30 days, with leachate flowing thereafter.

2. The parties have agreed to a mediation following approval of the repaired pipeline with mediator Randall Wulff, at which time we will be able to assess if damages are set.

3. The parties jointly request the Court to make the following Order:

The parties request the Court set this matter for a further case management conference for not less than ninety (90) days from now, on April 19, 2011.
