

# EXHIBIT A

1 Plaintiff Petroliam Nasional Berhad (Petronas) submits this Appendix of Fed. R. Civ. P.  
2 56(c)(1)(A) Materials In Support Of Motion For Partial Summary Judgment to facilitate the  
3 placement of materials into the record that support its factual positions. Plaintiff is submitting  
4 this appendix voluntarily as contemplated by the Committee Notes accompanying the 2010  
5 Amendment to Fed. R. Civ. R. Civ. P. 56, Subdivision (c)(1)(A), and to make use of the  
6 suggestion therein that “[p]ointing to a specific location in an appendix satisfies the citation  
7 requirement” of Fed. R. Civ. P. 56(c).

8 The each page in this appendix has been number from APP001 to APP204 and Petronas  
9 cites to specific location in this appendix by use of these page numbers.

1 RONALD HERTZ

2 being duly sworn by the Certified Shorthand Reporter  
3 to tell the truth, the whole truth, and nothing but  
4 the truth, testified as follows:

5 EXAMINATION BY MR. CLARK

6 Q. Okay. Good afternoon. My name is Perry  
7 Clark. I'm a lawyer for the plaintiff in this case,  
8 Petroliam Nasional Berhad who I will refer to as  
9 Petronas.

10 MS. KLAUSNER: And I'm Tonia Klausner.  
11 I'm here on behalf of Go Daddy.

12 BY MR. CLARK:

13 Q. Okay. Could you please state your name  
14 for the record, please?

15 A. Ronald Hertz.

16 Q. Okay. And you work for Go Daddy?

17 A. I do.

18 Q. What is your current job title?

19 A. Vice President and Corporate Controller.

20 Q. How long have you had that title?

21 A. Approximately two years.

22 Q. And were you working for Go Daddy before  
23 you were Vice President?

24 A. I was.

25 Q. And what was your job title then?

1 A. Corporate Controller.

2 Q. How long have you worked for Go Daddy?

3 A. Little over nine years.

4 Q. All right. So we have a pile of exhibits  
5 in front of you. Could you go ahead and take a look  
6 at Exhibit 1, please. If you could turn to page 9,  
7 there's a numbered paragraph 18 towards the top of  
8 that page. Do you see paragraph 18?

9 A. Yes.

10 Q. It says, "Go Daddy's business operations  
11 and financial information to which Go Daddy refers in  
12 its initial disclosure is dated July 15, 2010." Do  
13 you see that?

14 A. Yes.

15 Q. And do you understand you have been  
16 designated as Go Daddy's representative to testify on  
17 that topic?

18 A. Yes.

19 Q. Okay. So can you tell me I guess in  
20 general -- okay. When were you first informed that  
21 you might be giving a deposition in this case?

22 A. Approximately two weeks ago.

23 Q. Okay. And who was it? Who informed you?

24 A. Nima Kelly.

25 Q. Okay. And what have you done to prepare

1 for your deposition?

2 MS. KLAUSNER: And I'll caution the  
3 witness not to disclose any conversations you might  
4 have had with attorneys.

5 THE WITNESS: I met with counsel and  
6 reviewed a couple of documents.

7 BY MR. CLARK:

8 Q. When did you meet with counsel?

9 A. With outside counsel yesterday.

10 Q. Okay. Did you do anything else to  
11 prepare for your deposition?

12 A. I did not.

13 Q. Okay. You said you reviewed some  
14 documents. Did you review all the documents that you  
15 reviewed during your meeting with outside counsel?

16 A. No, I did not.

17 Q. Okay. You reviewed some documents  
18 outside of the time that you met with your counsel,  
19 correct?

20 A. That is correct.

21 Q. All right. Do you recall what documents  
22 you reviewed outside of your meeting with counsel?

23 A. Yes. I reviewed the Registrar-Registry  
24 Agreement with VeriSign.

25 Q. Any others?

1           A.    To the best of my knowledge, yes.

2           Q.    Do you know if this Registry-Registrar  
3 relates in any way to Go Daddy's domain name  
4 forwarding service?

5                   MS. KLAUSNER:   Object to the form.

6                   THE WITNESS:   Can you explain what you  
7 mean by "relates in any way"?

8 BY MR. CLARK:

9           Q.    Does Go Daddy have any obligations  
10 arising from the .NET Registry-Registrar that relate  
11 to the conduct of its domain name forwarding service?

12                   MS. KLAUSNER:   Object to the form.

13                   THE WITNESS:   Can you restate the  
14 question please?

15 BY MR. CLARK:

16           Q.    Sure.  I'm just getting at, does the .NET  
17 Registry-Registrar Agreement govern any of Go Daddy's  
18 conduct with respect to providing its domain name  
19 forwarding service to Go Daddy's customers?

20           A.    I'm not sure what you mean by governing  
21 its conduct.

22           Q.    So can you explain in general what Go  
23 Daddy's obligations are under the .NET  
24 Registrar-Registry Agreement?

25           A.    My understanding of the agreement is it

1 sets out the guidelines between Go Daddy and VeriSign  
2 in registering .NET domain names.

3 Q. Does Go Daddy's domain name forwarding  
4 service relate to the registration of .NET domain  
5 names?

6 A. I'm not sure I understand the question.

7 Q. Is Go Daddy's domain name forwarding  
8 service part of its activity with respect to  
9 registering .NET domain names?

10 A. I don't believe the forwarding service  
11 relates at all to the registration of the domain  
12 name.

13 Q. Okay. Just changing gears a little bit,  
14 topic 20 relates to an insurance agreement, and you  
15 mentioned an E and O insurance agreement. Is that an  
16 agreement made in connection with the Hiscox  
17 insurance agency?

18 A. Hiscox is the insurance provider.

19 Q. Okay. Is that agreement still in effect?  
20 Or I'm sorry, is that policy still in effect?

21 A. It is not.

22 Q. Has Go Daddy made a claim related to this  
23 case under any insurance policy other than the Hiscox  
24 insurance policy?

25 A. Not that I'm aware of.

Attorneys for Defendant / Counterclaimant  
GODADDY.COM, INC.

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA

PETROLIAM NASIONAL BERHAD,

Plaintiff,

vs.

GODADDY.COM, INC.,

Defendant.

CASE NO.: 09-CV-5939 PJH

**GO DADDY'S RESPONSE TO  
PLAINTIFF'S THIRD SET OF  
INTERROGATORIES (NOS. 21-25)**

GODADDY.COM, INC.,

Counterclaimant,

vs.

PETROLIAM NASIONAL BERHAD,

Counterclaim Defendant.

Pursuant to Federal Rule of Civil Procedure 33, Defendant / Counterclaimant GoDaddy.com, Inc. ("Go Daddy"), by and through its undersigned counsel, hereby responds to the Third Set of Interrogatories ("Requests") by Plaintiff / Counterclaim Defendant Petroliam Nasional Berhad ("Plaintiff" or "Petronas").

No admissions of any nature whatsoever are implied by, or should be inferred from, these Responses. Each of these Responses is based on Go Daddy's understanding of each individual interrogatory and, to the extent that Plaintiff asserts an interpretation of any interrogatory that is inconsistent with that understanding, Go Daddy reserves the right to supplement these Responses.

### **GENERAL OBJECTIONS**

Go Daddy makes the following general objections, whether or not separately set forth in response to each interrogatory. Although Go Daddy may repeat some of these general objections in a specific response because they are particularly applicable, such specific citations are not to be construed as a waiver of any other general objections applicable to the interrogatory. These general objections are incorporated in each response to each interrogatory as if fully set forth in each of the individual responses below.

#### **GENERAL OBJECTION NO. 1:**

Go Daddy objects to the Requests, and to each and every individual interrogatory, to the extent they seek information protected by the attorney-client privilege, work product doctrine, and/or any other applicable privilege or protection. Without prejudice to this objection, Go Daddy will provide responses to the Requests to the extent that such responses do not waive such privileges or protections.

#### **GENERAL OBJECTION NO. 2:**

All responses to the Requests are based upon the information presently known to Go Daddy and are given without prejudice to Go Daddy's right to adduce evidence discovered or analyzed subsequent to the date of these responses. Go Daddy expressly reserves the right to revise and supplement its responses to the Requests.

**GENERAL OBJECTION NO. 3:**

Go Daddy objects to the Requests, and to each and every individual interrogatory, to the extent they seek information outside of Go Daddy's possession, custody, or control, on the grounds that any such request is overbroad and unduly burdensome, seeks to impose discovery obligations in excess of those imposed by the Federal Rules of Civil Procedure, and would subject Go Daddy to unreasonable annoyance, burden, and expense.

**GENERAL OBJECTION NO. 4:**

Go Daddy objects to the Requests, and to each and every individual interrogatory, as unduly burdensome, oppressive and in violation of the Federal Rules of Civil Procedure to the extent they purport to require Go Daddy to respond on behalf of, or conduct any inquiry or investigation with respect to, any party other than Go Daddy. Go Daddy will only answer the request on its own behalf.

**GENERAL OBJECTION NO. 5:**

Go Daddy objects to the Requests to the extent that they seek information that is neither relevant, admissible, nor reasonably calculated to lead to the discovery of admissible evidence, and to the extent that they require Go Daddy to make legal conclusions.

**GENERAL OBJECTION NO. 6:**

Go Daddy objects to the Requests, and to each and every individual interrogatory, as overbroad and unduly burdensome to the extent they do not include a limitation or proposed definition of a relevant time period.

**GENERAL OBJECTION NO. 7:**

Go Daddy objects to the Requests, and to each and every individual interrogatory, to the extent they are not consistent with or do not meet the requirements of Federal Rules of Civil Procedure. Go Daddy's agreement to endeavor to answer the Requests, and each and every individual interrogatory, is not, and should not be construed as, Go Daddy's waiver of its right to object to these or any other requests as violative of the Federal Rules of Civil Procedure.

**GENERAL OBJECTION NO. 8:**

Go Daddy objects to the Requests, and to each and every individual interrogatory

1 contained therein, to the extent they seek information related to experts. Go Daddy will provide  
 2 information related to experts consistent with the Court's schedule for expert discovery.

3 **GENERAL OBJECTION NO. 9:**

4 Go Daddy specifically reserves all objections as to the competence, relevancy, materiality,  
 5 and admissibility of its documents and interrogatory responses or the subject matter thereof, and  
 6 all rights to object on any ground to the use of any document or interrogatory response, or the  
 7 subject matter thereof, in any subsequent proceeding, including without limitation the trial of this  
 8 or any action. Go Daddy's Responses are made expressly subject to, and without in any manner  
 9 waiving, any and all objections to the competency, relevance, materiality and/or admissibility of  
 10 any of the matters encompassed in the following Responses.

11 **SPECIFIC RESPONSES AND OBJECTIONS**

12 Go Daddy expressly incorporates the above General Objections as though set forth fully in  
 13 response to each of the following individual interrogatories and, to the extent they are not raised in  
 14 any particular response, Go Daddy does not waive those objections. An answer to an  
 15 interrogatory shall not be deemed a waiver of any applicable specific or general objection.  
 16 Likewise, an answer to an interrogatory shall not be deemed an admission of any assertions  
 17 contained in that interrogatory.

18 **INTERROGATORY NO. 21:**

19 Please describe in detail the services provided by GoDaddy related to the disputed  
 20 domain names, including technical aspects of routing/forwarding the disputed domain names.

21 **RESPONSE TO INTERROGATORY NO. 21:**

22 In addition to the General Objections, Go Daddy objects to this interrogatory on the  
 23 grounds that it is cumulative, overbroad and harassing, vague, ambiguous and unintelligible,  
 24 particularly with respect to the phrase "services provided by GoDaddy related to the disputed  
 25 domain names...".

26 Subject to and without waving the foregoing objections, Go Daddy responds as follows:

27 Since April 1, 2007, Go Daddy has served as the registrar for the domain names  
 28 "petronastower.net" and "petronastowers.net." As part of its registrar services, Go Daddy

provided routing services, pointing the domain names to the name servers or websites of the registrant's choosing. At times, Go Daddy routed or "forwarded" the domain names to a pre-existing website, automatically at the request of the domain name registrant. Further information concerning the services provided by Go Daddy to the domain names can be found at GD-000293; GD-000298; GD-000361—GD-000362; GD-000366; GD-000384—GD-000392; GD-000560—GD-000563 of Go Daddy's production. Go Daddy transferred the petronastower.net domain name to counsel for Petronas, Perry Clark, on May 18, 2010. Go Daddy transferred the petronastowers.net domain name to Clark on August 30, 2010. For additional details regarding the technical aspects of the services provided, see the Expert Report of Michael Palage, served on Petronas on October 3, 2011.

**INTERROGATORY NO. 22:**

Please describe in detail the information GoDaddy has in its possession regarding David Daash and the "registration and use of the disputed domain names; hosting of destination website; destination website content," to which GoDaddy refers in its supplemental initial disclosures dated June 29, 2011, including when GoDaddy became aware that David Daash was the registrant of one or both of the disputed domain names and any changes to the Whois record related thereto.

**RESPONSE TO INTERROGATORY NO. 22:**

Subject to and without waving the foregoing objections, Go Daddy responds as follows:

The contact audit history possessed by Go Daddy for domain name "petronastower.net" indicates that at the time petronastower.net was transferred to Go Daddy on April 1, 2007, Heiko Schoenekess was the registrant. The registrant of petronastower.net was changed by the account holder to David Daash on April 1, 2007. On July 2, 2009 the registrant was changed by the account holder back to Heiko Schoenekess. On December 12, 2009, the registrant of "petronastower.net" was changed by the account holder to David Daash, and again back to Heiko Schoenekess on the very same date. The contact audit history relating to David Daash and petronastower.net, including Daash's listed registrant contact information, can be found at GD-000151—GD-000152 of Go Daddy's production. A copy of the results of a Whois search for

1 petronastower.net from December 21, 2009—listing David Daash as the registrant—can also be  
2 found at GD-000618—GD-000619 of Go Daddy’s production.

3 The contact audit history possessed by Go Daddy for domain name “petronastowers.net”  
4 indicates that at the time petronastowers.net was transferred to Go Daddy on April 1, 2007,  
5 Heiko Schoenekess was the registrant. The registrant of petronastowers.net was changed by the  
6 account holder to David Daash on April 1, 2007. On July 2, 2009 the registrant was changed by  
7 the account holder back to Heiko Schoenekess. The contact audit history relating to David  
8 Daash and petronastowers.net, including Daash’s listed registrant contact information, can be  
9 found at GD-000109—GD-000110 of Go Daddy’s production.

10 **INTERROGATORY NO. 23:**

11 Please describe in detail the information GoDaddy has in its possession regarding Bruno  
12 Zehnder and the “hosting of destination website and destination website content” to which  
13 GoDaddy refers in its supplemental initial disclosures dated June 29, 2011.

14 **RESPONSE TO INTERROGATORY NO. 23:**

15 Subject to and without waving the foregoing objections, Go Daddy responds as follows:

16 On December 21, 2009, a search was performed in the Whois database to determine the  
17 domain name and contact information for the registrant of the domain name “visit-x.net”—the  
18 “destination website” to which “petronastower.net” had been directed as of December 21, 2009.  
19 The Whois search results indicate Bruno Zehnder to be the registrant of “visit-x.net.” Further  
20 information concerning this search, as well as a copy of the search results, can be found at GD-  
21 001593—GD-001603 of Go Daddy’s production.

22 **INTERROGATORY NO. 24:**

23 Please describe in detail GoDaddy’s services for “External Domains” to which GoDaddy  
24 refers in the document produced with production PET GD 2469 (attached hereto as Exhibit A),  
25 including the technical aspects of such services and the differences, if any, between those  
26 services and the “routing/forwarding the disputed domain names” to which GoDaddy refers in its  
27 supplemental initial disclosures dated June 29, 2011 and by identifying all persons with  
28 knowledge of the foregoing and by describing all documents related to the foregoing.

**RESPONSE TO INTERROGATORY NO. 24:**

In addition to the General Objections, Go Daddy objects to this interrogatory on the grounds that it is cumulative, overbroad and harassing, vague, ambiguous and unintelligible, particularly with respect to the phrase “services provided by GoDaddy related to the disputed domain names...”.

Subject to and without waving the foregoing objections, Go Daddy responds as follows:

The reference to “External Domains” in the document Bates-numbered PET GD 2469 indicates that Go Daddy hosting customers can have traffic routed to Go Daddy-hosted websites from domains registered elsewhere (not with Go Daddy) (“external domains”). Such routing is the same as “routing/forwarding” as referenced in Go Daddy’s supplemental initial disclosures. Go Daddy does not provide any services for the external domains themselves.

Persons with relevant knowledge include Jeff Munson and John Roling.

**INTERROGATORY NO. 25:**

Please state when GoDaddy first began providing the domain name forwarding service to which it refers in Paragraph 29 of its Amended Answer June 20, 2011 to any customer and identify all persons with knowledge of the foregoing and describe all documents related to the foregoing.

**RESPONSE TO INTERROGATORY NO. 25:**

In addition to the General Objections, Go Daddy objects to this interrogatory on the grounds that it is overbroad and harassing.

Subject to and without waving the foregoing objections, Go Daddy responds as follows:

Go Daddy first began providing domain name forwarding services on April 3, 2001.

Persons with relevant knowledge include George Kearns

EXAMINATION BY:

MR. CLARK

::: INDEX OF REQUESTS :::

PAGE	LINE	REQUEST
------	------	---------

32        15        Mark the transcript as 30(b)(6)  
                     deposition

1                               LAURIE ANDERSON,  
2   being duly sworn by the Certified Shorthand Reporter  
3   to tell the truth, the whole truth, and nothing but  
4   the truth, testified as follows:

5                               EXAMINATION BY MR. CLARK

6               Q.   All right. Good morning. My name is  
7   Perry Clark. I'm a lawyer. I represent the  
8   plaintiff in this case, Petroliam Nasional Berhad  
9   also known as Petronas, and I think counsel probably  
10   wants to make an appearance as well.

11              MR. LANSKY: Yeah, this is David Lansky  
12   of Wilson Sonsini Goodrich & Rosati on behalf of the  
13   deponent.

14   BY MR. CLARK:

15              Q.   Now, do you understand that the oath you  
16   took today, that means that the testimony you're  
17   giving today is under penalty of perjury the same as  
18   it would be in a court of law?

19              A.   Yes.

20              Q.   And can I ask that if you don't  
21   understand any of my questions or need clarification  
22   of anything I'm asking, that you ask me to clarify  
23   the question?

24              A.   Yes.

25              MR. CLARK: Okay, great. All right. I'd

1 like to have the court reporter mark as Exhibit  
2 number 1 the 30(b)(6) deposition notice that we  
3 served in this case.

4 (DEPOSITION EXHIBIT 1 WAS MARKED.)

5 BY MR. CLARK:

6 Q. So I'm handing the witness what's been  
7 marked as deposition Exhibit Anderson 1, and have you  
8 seen this document before?

9 A. I have.

10 Q. And so I'd like to begin by taking your  
11 deposition as a Rule 30(b)(6) deponent, and we'll  
12 have this part of the transcript marked as the  
13 30(b)(6) deposition.

14 Now, you have been designated to testify  
15 on a number of topics in this notice. Do you  
16 understand that?

17 A. Yes.

18 Q. Okay. And if you could turn to page 8 of  
19 the deposition notice, you'll see there there's  
20 number 5 -- topic number 5.

21 A. Okay.

22 Q. And do you understand that you've been  
23 designated to testify on that topic which is the  
24 domain name forwarding service to which Go Daddy  
25 refers in paragraph 29 of its amended answer, June

1 20, 2011, including when Go Daddy began to provide  
2 that service to any customer?

3 A. Yes.

4 Q. Okay. Now, when did Go Daddy first  
5 provide domain name forwarding services to any  
6 customer?

7 A. I believe it was April of 2001.

8 Q. Okay. And when did Go Daddy first begin  
9 providing domain name registration for customers?

10 A. I think it was November of 2000.

11 Q. Go Daddy was able to provide domain name  
12 registrations without providing domain name  
13 forwarding services from November 2000 to April 2001?

14 A. I didn't work there at that time so I  
15 really can't say.

16 Q. Okay. Can you describe -- actually,  
17 referring back to topic number 5, the domain name  
18 forwarding service to which Go Daddy refers in  
19 paragraph 29 of its amended answer, is that the  
20 domain name forwarding service it provided for the  
21 registrant of the domain names Petronas Tower and  
22 petronastowers.net?

23 A. Yes.

24 Q. Can you describe that domain name  
25 forwarding service for me?

1           A.     Domain name forwarding directs a domain  
2 name to a specific URL. It's a type of routing.

3           Q.     Are ICANN accredited registrars required  
4 to provide domain name forwarding to their registrant  
5 customers?

6           A.     I don't know.

7           Q.     Are ICANN accredited registrars required  
8 to provide any sort of routing services to their  
9 registrant customers?

10          A.     I don't know whether that's required or  
11 not.

12          Q.     Do you know if Go Daddy was an ICANN  
13 accredited registrar between November 2000 and April  
14 2001?

15          A.     I believe they became a registrar -- an  
16 ICANN accredited registrar in November of 2000.

17          Q.     So ICANN stands for the Internet  
18 Corporation for Assigned Names and Numbers; is that  
19 correct?

20          A.     Correct.

21          Q.     Okay. Does ICANN require accredited  
22 registrars like Go Daddy to provide the function of  
23 routing Internet traffic to websites of registrant's  
24 choices?

25          A.     I don't know whether they require it, but

1 Q. So these would include instructions for  
2 Go Daddy customers as to how to use Go Daddy's  
3 services?

4 A. Yes.

5 Q. Could you please turn to the page marked  
6 with Bates number GD-002453. Now, could you read the  
7 second full paragraph on that page, please?

8 A. "If you registered your domain name with  
9 another provider, you can still purchase a hosting  
10 account with us. These are off-site DNS services or  
11 use our CashParking or Quick Content services. If  
12 you do any of those, you must view your nameservers  
13 and your account with us and then set the nameservers  
14 with your domain name registrar."

15 Q. So can a customer of Go Daddy's who's  
16 registered their domain name with another provider  
17 purchase a hosting account and use Go Daddy's  
18 off-site DNS services?

19 A. I believe so.

20 Q. Could -- and if a customer who registered  
21 -- if a Go Daddy customer who registered their domain  
22 name with another provider and had purchased a  
23 hosting account with Go Daddy and used Go Daddy's  
24 off-site DNS services, would that customer have to  
25 use Go Daddy's nameservers?

1 Q. Okay. So as Go Daddy's designated  
2 representative for topic number 5 in the Rule  
3 30(b)(6) deposition notice which is the domain name  
4 forwarding service to which Go Daddy refers in  
5 paragraph 29 of its amended answer, you don't know if  
6 Go Daddy could have performed the registration and  
7 maintenance of the domain names petronastower.net and  
8 petronastowers.net without providing that domain name  
9 forwarding service?

10 MR. LANSKY: Object to the form of the  
11 question.

12 THE WITNESS: Can you repeat?

13 BY MR. CLARK:

14 Q. So you understand that you're Go Daddy's  
15 designated representative for topic 5 in Petronas'  
16 Rule 30(b)(6) deposition notice, correct?

17 A. Yes.

18 Q. And topic number 5 is the domain name  
19 forwarding service to which Go Daddy refers in  
20 paragraph 29 of its amended answer dated June 20,  
21 2011, correct?

22 A. Yes.

23 Q. Do you know if Go Daddy would have been  
24 able to perform the registration and maintenance of  
25 the domain names Petronas Towers -- petronastower.net

1 and petronastowers.net without providing that domain  
2 name forwarding service?

3 MR. LANSKY: Object to the form.

4 THE WITNESS: I believe that's -- I  
5 believe that they could depending on what the  
6 customer requires or wants to do with the domain  
7 name.

8 BY MR. CLARK:

9 Q. So you believe that Go Daddy could have  
10 performed the registration and maintenance of the  
11 domain names Petronas Tower and petronastowers.net  
12 without providing its domain name forwarding service,  
13 correct?

14 MR. LANSKY: Object to the form.  
15 Misstates the entirety of her testimony and asked and  
16 answered.

17 THE WITNESS: If Petronas Towers domain  
18 names could have been pointed to another website by  
19 using the A record method, so I'm going to say yes.

20 BY MR. CLARK:

21 Q. Okay.

22 A. In other words, the same thing could have  
23 been accomplished using the A record method.

24 Q. Okay. So Go Daddy did not -- well, we've  
25 already covered that.

1 MR. LANSKY: Object to the form.

2 THE WITNESS: I don't know.

3 BY MR. CLARK:

4 Q. Do you know when Go Daddy first began  
5 providing domain name forwarding services for the  
6 domain name petronastower.net?

7 A. I don't recall.

8 Q. Do you know if Go Daddy provided domain  
9 name forwarding services for petronastower.net at the  
10 time it first became the registrar for that domain  
11 name?

12 A. I don't recall.

13 Q. If Go Daddy had not provided domain name  
14 forwarding services when it first became the  
15 registrar of petronastower.net, could it have  
16 performed the registration and maintenance of that  
17 domain name?

18 MR. LANSKY: Object to the form.

19 THE WITNESS: I believe so.

20 BY MR. CLARK:

21 Q. Is the same true for petronastowers.net?

22 MR. LANSKY: Object to the form.

23 THE WITNESS: I believe so.

24 MR. CLARK: I'm now going to have the  
25 court reporter mark as Anderson Exhibit 4 a document

1 Q. And in that box there it says, "Action  
2 taken. We received notification of pending court  
3 dispute. Lock name, set to status 10 and charged  
4 admin fee. Registrant should receive notice of the  
5 complaint from complainant's representative within  
6 the next few days." Do you see that?

7 A. Yes.

8 Q. Do you know if Go Daddy had any  
9 communication with the registrant of  
10 petronastower.net after it received the notification  
11 referred to in this document?

12 A. I don't know.

13 Q. Do you see to the left of this entry  
14 there's a name there. It's Christopher Patterson?

15 A. Yes.

16 Q. Who's Christopher Patterson?

17 A. He's disputes representative.

18 Q. Was he responsible for handling the  
19 dispute regarding petronastower.net?

20 A. He would have been the one that set it up  
21 when we received the claim -- or when we received the  
22 dispute, he would have set up the claim.

23 Q. Okay. Now, do you know if the registrant  
24 of the domain name petronastower.net ever disputed  
25 Petronas' allegations that it was committing

1 trademark infringement?

2 A. I don't know.

3 Q. Okay. Now, if you could turn to the page  
4 bearing Bates number GD-00298. And a little bit  
5 above, halfway down the page there's another entry.  
6 It says, "Domain services tracking." And sort of  
7 towards the bottom of that entry it says, "Action  
8 taken. Transferred domain per court order." Do you  
9 see that?

10 A. Yes.

11 Q. So what does that refer to?

12 A. If we receive a court order to implement  
13 a decision to or a temporary restraining order.  
14 Sometimes we'll be ordered to move a domain name to  
15 the control of the complaining party.

16 Q. Okay. Now, it says there in the next  
17 row, it says, "Canceling petronastower.net order ID  
18 one row ID one name space forwarding resource ID."  
19 Do you see that?

20 A. Yes.

21 Q. What does that refer to?

22 A. When the domain name was moved out of the  
23 account, the forwarding would have been automatically  
24 canceled.

25 Q. Okay. Now, after the domain name was

1           A.     We could not have canceled the domain  
2 names because we are subject to the UDRP. So we  
3 would have had to have either an arbitration decision  
4 or a court order to transfer the domain names or  
5 cancel them.

6           Q.     Uh-huh. But is there anything in the  
7 Universal Terms of Service agreement or any other  
8 agreement between Go Daddy and the registrant that  
9 would have prevented Go Daddy from suspending those  
10 domain names in response to the complaints from  
11 Petronas?

12                   MR. LANSKY: Object to the form.

13                   THE WITNESS: I don't -- I don't know.

14 BY MR. CLARK:

15           Q.     Is there anything in any of the  
16 agreements between Go Daddy and the registrant of the  
17 domain names petronastower.net and petronastowers.net  
18 that would have prevented it from stopping its domain  
19 name forwarding service for those domain names?

20                   MR. LANSKY: Object to the form.

21                   THE WITNESS: I don't know.

22 BY MR. CLARK:

23           Q.     Do you know if Go Daddy ever received any  
24 complaint or any communication from the registrant of  
25 those domain names when Go Daddy stopped providing

1 its domain name forwarding service?

2 A. I don't know.

3 Q. Okay.

4 (DEPOSITION EXHIBIT 13 WAS MARKED.)

5 BY MR. CLARK:

6 Q. I'm now handing the witness a document  
7 that has been marked as Exhibit 13, and it has  
8 production numbers PET GD000216 to 272. And can you  
9 tell me what Exhibit 13 is?

10 A. It appears to be the May 2001 version of  
11 the Registrar Accreditation Agreement.

12 Q. And do you know if this is the Registrar  
13 Accreditation Agreement that was in effect in 2010?

14 A. I don't know.

15 Q. Okay. Now, is there anything in this  
16 Registrar Accreditation Agreement that would have  
17 prevented Go Daddy from discontinuing its domain name  
18 forwarding service for the domain names Petronas  
19 Tower and petronastower.net?

20 A. I don't know.

21 Q. Do you know why Go Daddy did not  
22 discontinue its domain name forwarding service for  
23 the domain name petronastower.net after it received  
24 Petronas' notification of trademark infringement  
25 related to that domain name?

Attorneys for Defendant  
GoDaddy.com, Inc.

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA

Petroliam Nasional Berhad,

Plaintiff,

vs.

GoDaddy.com, Inc.

Defendant.

CASE NO.: 09-CV-5939 PJH

**DECLARATION OF KELLY LEWIS**

DATE: December 23, 2009

TIME: 9:00 a.m.

JUDGE: Hon. Phyllis J. Hamilton

I, Kelly Lewis, declare as follows:

1. I am the Deputy General Counsel at Go Daddy.com, Inc. ("Go Daddy"), and in such capacity, I am responsible for overseeing the company's litigation, among other duties. I have personal knowledge of the facts set forth herein and, if called as a witness, I could and would testify competently thereto.

2. Go Daddy is the world's largest domain name registrar, with over 37 million domain names registered by customers around the world. A registrar provides registration services to customers who wish to register a domain name. Customers who register domain names through Go Daddy or other accredited registrars are referred to as "registrants." Go Daddy is accredited by the Internet Corporation for Assigned Names and Numbers ("ICANN").

3. Registrants who register specific domain names through Go Daddy or other domain name registrars typically do so via an automated online portal.

4. Go Daddy maintains a commercial website, <http://www.godaddy.com>. This website is located and operated on servers that are housed at a Go Daddy facility in Maricopa County, Arizona. Go Daddy's website enables individuals to obtain information about Go Daddy's domain registration and other services, and to purchase these services. Go Daddy does not sell any of its services at physical retail store locations. All customers agree to forum selection in Arizona.

5. Substantially all of Go Daddy's sales and service activities are conducted in Maricopa County, Arizona. None are conducted in California. Go Daddy manages its commercial website from Arizona. All equipment required to process customers' domain registrations are located in Arizona. All sales and sales inquiries regarding Go Daddy's services are handled on the website or by Go Daddy employees in Arizona. Go Daddy maintains all of its corporate records in Arizona. More than 90% of Go Daddy's employees are located in Arizona.

6. Go Daddy is the registrar for the specific Internet domain name <petronastower.net> (the subject of this lawsuit), but does not offer any ancillary services such as content hosting services or privacy services, in connection with this domain name.

7. Go Daddy provides its registrant-customers with an online "dashboard," allowing them to manage their domain names, including pointing their domain names to their websites, if they have one, or forwarding users who click on the domain name to another website. I have reviewed Go Daddy's records for the domain name <petronastower.net> and determined that:

(a) this domain name was transferred by the registrant from another registrar to Go Daddy on or about April 1, 2007; and

(b) on or about May 2, 2009 the registrant, through his online dashboard, implemented a forwarding option, directing anyone clicking on <[www.petronastower.net](http://www.petronastower.net)> to be forwarded to a website that is not hosted by Go Daddy.

8. As of December 18, 2009, when Go Daddy first received a copy of the Complaint in this action, Go Daddy “locked” the domain name <petronastower.net>, barring the registrant from transferring it to a different registrant or registrar.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed December 22, 2009 in Scottsdale, Arizona.

*Kelly W Lewis*

### What is Hosting?

[Hosting](#) (also known as Web site hosting or Web hosting) is the business of housing, serving and maintaining files for one or more Web sites, and providing Internet access (bandwidth). Hosting provides individuals or organizations with the systems to store information, images, video, or other content accessible to users of the Web. In a sense, you rent space on a computer to hold your Web site. Your host, the computer where your Web site files are stored, assigns an address (DNS) for your files to your domain name so that anyone can find your Web site on the Internet by typing your domain name.

GoDaddy.com is rated the World's largest [Hosting Provider](#) according to Netcraft. Whether you choose **Windows Hosting** or **Linux Hosting**, our world-class **Web Hosting** services also include email, databases, FREE applications, FREE access to the exclusive Go Daddy Hosting Connection community and much more.

Unlike many competing [Web Hosting Companies](#), we own, operate and support our hosting services and pass the savings on to you. Our [Affordable Web Hosting](#) is fine for most personal and small business sites. We also offer [Business Hosting](#) packages that offer discounted bundles with all the products you need to build, optimize and promote your Web site.

While our hosting plans are ideal for most individuals and small businesses, our [Dedicated Servers](#) and [Virtual Dedicated Servers](#) are perfect for hosting multiple traffic-intensive Web sites on one server, running enterprise or gaming applications, or operating development environments. You always have the option of purchasing a preconfigured dedicated or virtual dedicated server plan or the flexibility to build your own server.

And if conventional hosting plans can't keep up with your demands, Grid Hosting from Go Daddy puts the power of multiple servers to work for you. With elastic scalability, 99.9% uptime and no need for site migration during growth spurts, Grid Hosting is always at the ready.

# Redirect URLs with Your Hosting Account

Print this Article

Comment on this Article

Last Updated: September 12, 2011 9:26 AM

A redirect automatically sends your website's visitors to a chosen destination, either a different location within the same site or a new site entirely. For example, you can redirect visitors from your domain root to a content sub-directory, such as a blog.

Content (files and folders) under the redirect path can be redirected to the destination domain root or the same path on the destination domain or not redirected at all.

**NOTE:** Only our Linux hosting account offer this URL Redirect feature.

## To Redirect URLs with Your Hosting Account

1. Log in to your [Account Manager](#).
2. From the **My Products** section, click **Web Hosting**.
3. Next to the hosting account you want to use, click **Launch**.
4. From the **Content** menu, select **URL Redirects**.
5. Click the **New Redirect** button. The New Redirect window displays.
6. Enter the domain you want to redirect. If you want to redirect all of the domains in your hosting account, check the **All domains on this account**. Otherwise, enter the directories containing the sites you want to redirect in the Path field.
7. Select whether or not you want all instances of your site with or without .www to be redirected. When you're finished, click **Next**. The To window displays.
8. Select if the destination site is http or https and enter the domain name you want to redirect to, as well as the path, if applicable. If the path box is left blank, it will redirect to the root of the domain you entered. Click **Next**. The Type window appears.
9. Select which kind of redirect you want to use.

**NOTE:** Redirects can be permanent (a 301 redirect) or temporary (a 302 redirect). Redirect type is communicated to browsers and search engines through the redirecting site's HTTP response. Search engines treat 301 and 302 redirects differently. For more information on redirect pages see [What are 301 and 302 redirect pages?](#).

10. Select your content redirect option. This option decides the behavior of your Site Redirect when a visitor goes to a content path of your domain name, such as <http://coolexample.com/path>.
  - **Match path** redirects visitors to the same content path of the target domain name. For example, when a visitor goes to <http://coolexample.com/path>, they are redirected to <http://mycoolestdomains.com/path>.
  - **Root redirect** redirects visitors to the root of the target domain name, ignoring the content path. For example, when a visitor goes to <http://coolexample.com/path>, they are redirected to <http://mycoolestdomains.com>.

- **No redirect** does not redirect visitors when they go to a content path. For example, when a visitor goes to *http://coolexample.com/path*, they are not redirected and load *http://coolexample.com/path*.

Your domain will now be redirected with the options you selected. The redirect can take up to 24 hours to be completed. If you want to change or delete your redirect, simply select the redirect and click **Edit** or **Delete** in the toolbar.
