**** IMPORTANT INFORMATION: 6 MONTH DEADLINE ****

You filed the trademark application identified below based upon a bona fide intention to use the mark in commerce. You must use the mark in commerce and file a Statement of Use (a.k.a. Allegation of Use) before the USPTO will register the mark. You have six (6) MONTHS from the ISSUE DATE of this Notice of Allowance (NOA) to file either a Statement of Use, or if you are not yet using the mark in commerce, a Request for Extension of Time to File a Statement of use ("Extension Request"). If you file an extension request, you must continue to file a new request every six months until the Statement of Use is filed. Applicant may file a total of five (5) extension requests. FAILURE TO FILE A REQUIRED DOCUMENT DURING THE APPROPRIATE TIME PERIOD WILL RESULT IN THE ABANDONMENT OF YOUR APPLICATION. Please note that both the "Statement of Use" and "Extension Request" have many legal requirements including fees. Therefore, we encourage use of the USPTO forms, available online at <http://www.uspto.gov/teas/index.html> (under "File a PRE-registration form"), to avoid the possible omission of important information. Please note that the Trademark Electronic Application System (TEAS) provides line-by-line help instructions for completing the Extension Request or Statement of Use forms online. If you do not have access to the Internet, you may call 1-800-786-9199 to request the printed form(s).

NOTICE AND REQUEST FOR CORRECTION OF ERROR
IN THE NOTICE OF ALLOWANCE

Sir:

Applicant, through its attorney, hereby notifies the Patent and Trademark Office of an error in the goods for classes 1 and 4 in the Notice of Allowance for Trademark Application for the above-referenced mark, a copy of which is attached.

Specifically, as shown in the copy of the Response to the Office Action filed on October 3, 2002 attached hereto, the error consists of the following:

The goods in the Notice of Allowance are identified as:
"Chemicals and petrochemicals for use in the manufacture of pharmaceuticals, cosmetics, detergents, packaging, wire and cable installation, cassette tapes, pipes, toys, films, floorings, synthetic rubber, paints and coatings, adhesives, fuel additives and lubricants, textiles, agriculture, electrical and electronic components, automotive parts, aerospace and aviation, building and construction materials, plastics, foods, and diagnostic equipment; chemical and petrochemical in the nature of methanol, ethylene, methyl tertiary butyl ether (MTBE), vinyl chloride monomer, polyvinyl chloride, polyethylene, polypropylene, propylene, ethyl benzene, and styrene monomer all for use in industrial, forestry, agricultural, horticultural, and scientific applications; photographic chemicals; artificial and synthetic resins for use in plastic extrusion operations; plastic molding compounds for use in the manufacture of fibers, polymers and coatings, and molding compounds; plastic molding compounds for use in the manufacture of molded plastic articles and plastic sheets and films; composts; manures; fertilizers for agricultural and domestic use; glue for industrial purposes, adhesives for general industrial use, contact cements; gases for heating, lighting, steam generating, cooking, refrigeration, drying and ventilating for industrial use in liquid and gaseous forms; oil dispersants; chemicals for separating oils; hydraulic fluids for general use; chemical additives for use in the manufacture of fuels, lubricants, gasoline and drilling lubricants; drilling muds for use in oil well drilling, coolants for vehicle engines, heat

transfer fluids for industrial use, hydraulic fluids for general use, acidulated water for recharging accumulators and batteries; chemical additives for use with internal combustion engines; chemical additives for fuel saving treatments, catalysts for use in the oil processing industry, oil for preservation of masonry” in International Class 1.

The goods should read:

“Chemicals and petrochemicals for use in the manufacture of pharmaceuticals, cosmetics, detergents, packaging, wire and cable installation, cassette tapes, pipes, toys, films, floorings, synthetic rubber, paints and coatings, adhesives, fuel additives and lubricants, textiles, agriculture, electrical and electronic components, automotive parts, aerospace and aviation, building and construction materials, plastics, foods, and diagnostic equipment; chemical and petrochemical in the nature of methanol, ethylene, methyl tertiary butyl ether (MTBE), vinyl chloride monomer, polyvinyl chloride, polyethylene, polypropylene, propylene, ethyl benzene, and styrene monomer all for use in industrial, forestry, agricultural, horticultural, and scientific applications; photographic chemicals; artificial and synthetic resins for use in the manufacture of fibers, polymers and coatings, and molding compounds; plastic molding compounds for use in plastic extrusion operations; plastic molding compounds for use in the manufacture of molded plastic articles and plastic sheets and films; composts; manures; fertilizers for agricultural and domestic use; glue for industrial purposes, adhesives for general industrial use, contact cements; gases for heating, lighting, steam generating, cooking, refrigeration, drying and ventilating for industrial use in liquid and gaseous forms; oil dispersants; chemicals for separating oils; hydraulic fluids for general use; chemical additives for use in the manufacture of fuels, lubricants, gasoline and drilling lubricants; drilling muds for use in oil well drilling, coolants for vehicle engines, heat transfer fluids for industrial use, hydraulic fluids for general use, acidulated water for recharging accumulators and batteries; chemical additives for use with internal combustion engines; chemical additives for fuel saving treatments, catalysts for use in the oil processing industry, oil for preservation of masonry” in International Class 1

and

“Transmission fluids, cutting oil for industrial metalworking, Crude oil, natural gasoline, fuel oil and general purpose greases, all purpose lubricants; gasoline; fuel gas; fuel oils; fuel alcohol; diesel fuel; gas; gasoline as lubricant; kerosene; unleaded fuel; oil gas; paraffin; petroleum; petroleum ether, fuels in liquid, gaseous and solid form, dust lying and absorbing compositions for use on unpaved roads; non-chemical additives for oils and fuels; petroleum jelly for industrial purposes, tallow, automatic transmission fluids; methanol petrochemicals for use in fuel, petroleum based dust suppressing compositions for use in manufacture” in International Class 4

The goods should read:

“Transmission fluid, cutting oil for industrial metalworking, crude oil, natural gasoline, fuel oil and general purpose greases, all purpose lubricants; gasoline; fuel gas; fuel oils; fuel alcohol; diesel fuel; gas; gasoline as lubricant; kerosene, unleaded fuel; oil gas; paraffin; petroleum; petroleum ether, fuels in liquid, gaseous and solid form, dust lying and absorbing compositions for use on unpaved roads; non-chemical additives for oils and fuels; petroleum jelly for industrial purposes, tallow, automatic transmission fluids; methanol petrochemicals for use in fuel, petroleum based dust suppressing compositions for use in manufacture” in International Class 4.

Applicant therefore requests that the Notice of Allowance be corrected pursuant to 15 U.S.C. 1063(b)(2) and that the corrected Notice of Allowance be sent to the undersigned.

To the Commissioner of Trademarks
2900 Crystal Drive/ BOX RESPONSE FEE
Arlington, Virginia 22202-3513

RESPONSE

This is Applicant's timely and complete response to the April 10, 2002 first Office action wherein the application has initially been refused on procedural grounds. The Examiner has required the Applicant to file a declaration under 37 C.F.R. Section 2.20 for the electronically filed application, file certified copies of the country of origin registration, amend the identification of goods and add the appropriate additional classes and pay the filing fees for those additional classes, and translate the mark if it is a foreign language. To comply therewith the Applicant attaches a signed and dated declaration under 37 C.F.R. Section 2.20.

AMENDMENT

Please delete the word "STREET" from the address of the Applicant in the records of the U.S. Patent and Trademark Office. The Applicant requests entry of two additional country of origin registrations that support the Section 44 basis. They are Malaysian Registration No. 93007564, dated 25 September 1993; and Malaysian Registration No. 93007565, dated 25 September 1993. Please note that these two additional registrations could not be claimed in the electronic application since the field would accept only numbers for one country of origin registration and that field was filled. The Applicant attaches to this response certified copies of Malaysian Registration No. 93007563, dated 25 September 1993; and Malaysian Registration No. 93007564, dated

25 September 1993; and Malaysian Registration No. 93007565, dated 25 September 1993 to comply with the requirement raised by the Examiner.

Please amend the identification of goods to delete the phrase “petroleum products” that the Examiner hold to be indefinite. The Applicant notes that while the goods originally filed may not be added to, they may be clarified and narrowed to identify the common commercial names of the goods. With this in mind, the Applicant has a number of clarifying amendments to the original identification of goods.

Please delete “petrochemicals; liquefied natural gas; oils and greases; lubricants; liquid, gaseous and solid fuels; dust laying and absorbing compositions; wax for use in manufacture; non-chemical additives for oils and fuels; oil for the preservation of masonry;” and substitute therein the following:

chemicals and petrochemicals for use in the manufacture of pharmaceuticals, cosmetics, detergents, packaging, wire and cable installation, cassette tapes, pipes, toys, films, floorings, synthetic rubber, paints and coatings, adhesives, fuel additives and lubricants, textiles, agriculture, electrical and electronic components, automotive parts, aerospace and aviation, building and construction materials, plastics, foods, and diagnostic equipment; chemical and petrochemical in the nature of methanol, ethylene, methyl tertiary butyl ether (MTBE), vinyl chloride monomer, polyvinyl chloride, polyethylene, polypropylene, propylene, ethyl benzene, and styrene monomer all for use in industrial, forestry, agricultural, horticultural, and scientific applications; photographic chemicals; artificial and synthetic resins for use in the manufacture of fibers, polymers and coatings, and molding compounds; plastic molding compounds for use in plastic extrusion operations; plastic molding compounds for use in the manufacture of molded plastic articles and plastic sheets and films; composts; manures; fertilizers for agricultural and domestic use; glue for industrial purposes, adhesives for general industrial use, contact cements; gases for heating, lighting, steam generating, cooking, refrigeration, drying and ventilating for industrial use in liquid and gaseous forms; oil dispersants; chemicals for separating oils; hydraulic fluids for general use; chemical

additives for use in the manufacture of fuels, lubricants, gasoline and drilling lubricants; drilling muds for use in oil well drilling, coolants for vehicle engines, heat transfer fluids for industrial use, hydraulic fluids for general use, acidulated water for recharging accumulators and batteries; chemical additives for use with internal combustion engines; chemical additives for fuel saving treatments, catalysts for use in the oil processing industry, oil for preservation of masonry, in International Class 1.

Please add International Class 1 to this application and charge the \$325 filing fee for this class to deposit account 19-0733.

Please strike the remainder of the original identification of goods and substitute therein the following:

Transmission fluid, cutting oil for industrial metalworking, crude oil, natural gasoline, fuel oil and general purpose greases, all purpose lubricants; gasoline; fuel gas; fuel oils; fuel alcohol; diesel fuel; gas; gasoline as lubricant: kerosene, unleaded fuel; oil gas; paraffin; petroleum; petroleum ether, fuels in liquid, gaseous and solid form, dust lying and absorbing compositions for use on unpaved roads; non-chemical additives for oils and fuels; petroleum jelly for industrial purposes, tallow, automatic transmission fluids; methanol petrochemicals for use in fuel, petroleum based dust suppressing compositions for use in manufacture, in International Class 4.

Air conditioners, water distillation units, flares, gas and petrol burners for industrial purposes; gas regulators, heat exchangers, heat pumps, pasteurizers for use in food & beverage industry; electric radiators not for motors or engines, solar collectors for heating solar furnaces, water filters, in International Class 11.

Please add International Class 11 to this application and charge the \$325 filing fee for this class to deposit account 19-0733.

To comply with the Examiner's inquiry regarding the translation of the mark, please note that the word mark "PETRONAS" is an invented word coined from

combining the prefix "PETRO" (from the first word in the Applicant's name) and the prefix "NAS" (from the second word in the Applicant's name).

CONCLUSION

Having complied with all outstanding requirements but for the submission of the certified copies of the country of origin registrations and English translations, Applicant concludes that all outstanding issues have been resolved and requests that this application be forwarded for publication without delay. The Applicant wishes to thank the Examiner in this case for his helpful and constructive comments made during the telephone conference of April 26, 2002.

Respectfully Submitted,

Manufactured housing, namely, mobile homes, in International Class 19.

The wording "petroleum products, wax for use in manufacture, anti-dazzle devices for automobiles, cooling and freezing apparatus, regulating and safety accessories for gas apparatus, regulating and safety accessories for water, gas or oil apparatus and pipes, caravans" in the identification of goods is unacceptable as indefinite. The applicant must amend the identification to specify the commercial name of the goods. If there is no common commercial name for the product, the applicant must describe the product and its intended uses. TMEP §1402.01.

Air conditioning and air filters installation, in International Class 37.

Storage of gas, public utility services in the nature of water distribution, public utility services in the nature of natural gas distribution, in International Class 39.

Gas production services, namely, ethylene; propylene, mtbe, polyethylene, ethyl benzene, styrene monor, and liquid natural gas, in International Class 40.

The wording "installations and apparatus for lighting, heating, cooking, refrigerating, drying, ventilating and air conditioning, chilled water supply and sanitary purposes, gas separation" in the

recitation of services is unacceptable as indefinite. The applicant must amend the recitation to specify the common commercial name of the services or to indicate their nature. TMEP §1402.11.

The applicant may wish to consult the on-line identification manual on the PTO homepage for acceptable common names of goods and services.

[http://www.uspto.gov/web/offices/tac/doc/gsmannual/](http://www.uspto.gov/web/offices/tac/doc/gsmmanual/)

Please note that, while an application may be amended to clarify or limit the identification, additions to the identification are not permitted. 37 C.F.R. Section 2.71(a); TMEP section 804.09. Therefore, the applicant may not amend to include any goods or services that are not within the scope of goods or services set forth in the present identification.

Multiple Class Requirements

If the applicant prosecutes this application as a combined, or multiple-class, application, the applicant must comply with each of the following.

- (1) The applicant must list the goods and services by international class with the classes listed in ascending numerical order. TMEP section 1113.01.
- (2) The applicant must submit a filing fee for each international class of goods and services not covered by the fee already paid. 37 C.F.R. Sections 2.6(a)(1) and 2.86(b); TMEP sections 810.01 and 1113.01. Effective January 10, 2000, the fee for filing a trademark application is \$325 for each class. This applies to classes added to pending applications as well as to new applications filed on or after that date.

1(b) and 44(e) – Basis for Filing

The applicant has filed relying on its claim of a bona fide intention to use the mark in commerce under Trademark Act Section 1(b), 15 U.S.C. Section 1051(b), and on a foreign registration under Section 44(e), 15 U.S.C. Section 1126(e). The foreign registration alone may serve as the basis for obtaining a U.S. registration resulting from this application. The applicant must advise the examining attorney, however, if the applicant intends to rely solely on the foreign registration as the basis for registration.

Unless the applicant indicates otherwise, this Office will presume that the applicant wishes to rely on Section 1(b) as well as on Section 44(e) as the bases for registration. In this case, although the application may be approved for publication, the mark will not be registered until an acceptable allegation of use has been filed.

Improperly Signed Electronic Application

The application must be signed, and verified or supported by a declaration under 37 C.F.R. Section 2.20. 37 C.F.R. Section 2.33. No signed verification or declaration was provided. This electronically transmitted application does not comply with the signature rules set forth in 37 C.F.R. §2.33, reproduced in relevant part below. Therefore, the applicant must provide a signed verification or signed declaration attesting to the facts set forth in the application, *and attesting that the mark is in use in commerce and was in use in commerce on or in connection with the goods or services listed in the application as of the application filing date.* 37 C.F.R. Section 2.34(a)(1)(i).

2.33

(d) Where an electronically transmitted filing is permitted, the person who signs the verified statement must either:

- (1) *Place a symbol comprised of numbers and/or letters between two forward slash marks in the signature block on the electronic submission* (emphasis added); and print, sign and date in permanent ink, and maintain a paper copy of the electronic submission; or
- (2) Sign the verified statement using some other form of electronic signature specified by the Commissioner.

The following is a properly worded declaration under 37 C.F.R. Section 2.20. At the end of the response, the applicant should insert the declaration signed by someone authorized to sign under 37 C.F.R. Section 2.33(a)¹.

The undersigned, being hereby warned that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application or any resulting registration, declares that he/she is properly authorized to execute this application on behalf of the applicant; he/she believes the applicant to be the owner of the trademark/service mark sought to be registered, *that the mark is in use in commerce and was in use in commerce on or in connection with the goods or services listed in application as of the application filing date*; that to the best of his/her knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such near resemblance thereto as to be likely, when used on or in connection with the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive; and that all statements made of his/her own knowledge are true and all statements made on information and belief are believed to be true.

(Signature)

(Print or Type Name and Position)

(Date)

¹ Persons who may sign

A person who is properly authorized to sign on behalf of the applicant is: (1) a person with legal authority to bind the applicant; or (2) a person with firsthand knowledge of the facts and actual or implied authority to act on behalf of the applicant; or (3) an attorney as defined in 37 C.F.R. Section 10.1(c) who has an actual or implied written or verbal power of attorney from the applicant. 37 C.F.R. Section 2.33.

CERTIFICATE OF REGISTRATON

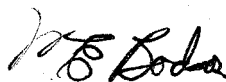

An application under Trademark Act Section 44(e), 15 U.S.C. §1126(e), must include a certification or certified copy of a foreign registration from the applicant's country of origin. The applicant's country of origin must either be a party to a convention or treaty relating to trademarks to which the United States is also a party, or must extend reciprocal registration rights to nationals of the United States by law. *See* TMEP §§1002.01 and 1004.

The application does not contain the certified copy. Therefore, the applicant must submit a certification or certified copy of the foreign registration. If the foreign certificate of registration is not written in English, the applicant must provide an English translation. The translator should sign the translation. *See* TMEP §§1004.01 and 1004.01(b).

MEANING/TRANSLATION

The applicant must submit an English translation of all foreign wording in the mark. 37 C.F.R. §2.61(b); TMEP §809.

If the applicant has any questions or needs assistance in responding to this Office action, please telephone the assigned examining attorney.
