## Millennial Media Reveals First View of U.S. Mobile Advertising Campaign Data for Brand Advertisers

**Baltimore, MD. (April 16, 2009)** – Millennial Media, the largest and fastest growing mobile advertising networks company in the world's largest advertising market, today announced the launch of a new monthly brand advertiser-focused Scorecard for Mobile Advertising Reach and Targeting (SMART). The SMART offers a view of key metrics observed via Millennial Media's ad networks. This monthly program details relevant insights about the U.S. mobile advertising market by focusing on reach, targeting, impressions and handset information. Millennial Media's SMART also changes the dialogue from publisher-focused industry sizing metrics like number of impressions, to advertiser and media-relevant metrics including reach and engagement. Additionally, the SMART provides analysis and recommendations for advertisers looking to better understand and excel in the mobile advertising market.

Reach and engagement are at the center of this new monthly metrics program, and two of the most critical factors in establishing an approach to buying mobile media. Other metrics included in the March SMART provide additional guidance for more specific campaign-related decisions.

The mobile advertising business is showing strong growth in a tough media market as is evidenced by Millennial Media's SMART. Set against the universe of brand impact studies completed by InsightExpress® for over a year, mobile provided 5X the lift (in brand metrics) than that of internet advertising campaigns, and many leading edge agencies are now making mobile a centerpiece of their media strategy.

"The mobile phone is an essential part of everyday life. At Moxie Interactive we don't think about target audiences", we think about engaging experiences. Whether the consumer is viewing media through an application, browser, or social networking experience, advertisers have a great opportunity to reach their consumers in a very impactful environment" said Joel Lernerfeld, Chief Innovation Officer, Moxie Interactive. "It is great to see Millennial Media release this data, which shows that advertisers are achieving results in mobile."

Highlights from Millennial Media's March SMART include:

- More than 10B U.S. impressions in Q1 2009 (January through March): 3.39B in March alone
- Reach of nearly 31M out of the 56M Nielsen identified mobile internet users
- The top 20 mobile handsets account for 43% of all mobile web traffic on Millennial Media's networks
- 58% of campaigns utilized some level of geo targeting
- 10 of the top 20 U.S. mobile DMAs by ad requests were in three states: California, Texas and Florida.
- 42% of campaigns utilized frequency capping
- 1.09 were the average number of ad requests per page view
- 42% of brands are utilizing other Third Party tracking capabilities, while 58% rely on Millennial Media for campaign tracking

"Mobile is real, has attractive reach, and is delivering the most cost-effective engagement in the digital advertising space," said Paul Palmieri, president and CEO, Millennial Media. "We are delighted to put a program in place to help advertisers understand the scale, value and growth of the mobile medium based on our observed network data."

Millennial Media's March SMART data was compiled from actual campaign and network traffic. The company's reach, campaign analysis and CPEUTM calculation methodology can be found within the March SMART. To register to receive Millennial Media's monthly Scorecard for Mobile Advertising Reach and Targeting, go to <http://www.millennialmedia.com/research>.

**ATTENTION EDITORS/REPORTERS: Copies of the charts and other visuals are available. Please contact Mack McKeivey at Millennial Media with any data requests.**

#### **About Millennial Media, Inc.**

Millennial Media is the industry's leading mobile media networks company – leveraging its quality advertising networks and extensive reach of the lucrative "millennial" audience to define the mobile advertising industry. PRESS ROOM  
OVERVIEW

**Millennial Media Reveals May U.S. Mobile Advertising Campaign Data for Brand Advertisers**

IN THE NEWS  
AWARDS  
CONFERENCES & EVENTS  
PRESS RELEASES  
CONTACT US

**BALTIMORE, MD, June 18, 2009** – Millennial Media, the largest and fastest-growing mobile advertising networks company in the U.S., today released its May brand advertiser-focused Scorecard for Mobile Advertising Reach and Targeting (SMART)<sup>™</sup>. Advertisers and media buyers can get a real insight into the results of mobile campaigns with Millennial Media's monthly SMART report – from determining the value of advertising, to which campaign elements delivered the best results, it's a great resource," said Becky Asplin, Channel Marketing, Bango.

MILLENNIAL MEDIA ASSETS

Millennial Media monitored mobile user behavior throughout May and is reporting a first view of May vs. Memorial Day successes and opportunities that occurred on our networks. In the section entitled "Mobile Memorial Day: What Labor Day Advertisers Can Learn from Memorial Day," mobile reached and engaged vacationers/people on the go over the holiday. During the Memorial Day weekend, vacationers and travelers relied on their mobile devices to stay connected, search for information, and make buying decisions. Further key insights included:

- Wi-Fi usage over the Memorial Day holiday weekend dropped 10%, showing the "substitution effect" travelers used Wi-Fi less, while traffic on our network increased 11%
- Advertisers that increased spend in the two weeks prior to and leading into the Holiday Weekend reaped the benefits of mobile internet interactions:
- 12% overall interaction rate lift across key advertiser vertical categories
- 18% interaction rate lift in the auto vertical
- 19% interaction rate lift in the travel vertical

In response to advertiser request, Millennial Media also included deeper insights into mobile's targeting capabilities, and again showed its Cost Per Engaged User (CPEU)<sup>™</sup> across these different targeting methods.

Among the most salient highlights from Millennial Media's May SMART include:

#### Skweezer and JumpTap Partner to Enhance Mobile Search Experience

**22.12.08****Skweezer and JumpTap Partner to Enhance Mobile Search Experience*****Skweezer Technology to Provide Additional Mobile Web Content Optimization for JumpTap's Mobile Search Platform***

IRVINE, Calif., December 15, 2008—Skweezer, Inc., and JumpTap, the leading mobile search and advertising solutions provider today announced that Skweezer's mobile content optimization technology will be available with JumpTap's mobile search implementations for top-tier wireless carriers.

JumpTap's mobile search platform and Skweezer's content mobilization technology are a powerful combination that raises the bar for the mobile search experience. JumpTap is committed to providing the best mobile search experience and Skweezer will be used to accelerate and optimize PC Web pages accessed from the search results.

"We were looking for a white label, carrier grade solution that we could easily integrate into our platform," said Adam Soroca, Chief Product Officer at JumpTap. "Skweezer met our high standard requirements as well as provided broad handset support and high quality rendering across popular handsets."

Ex. O  
Page 80

"While companies are still figuring out how to discover new mobile content, JumpTap has long moved ahead of the pack to provide easy access to relevant content regardless of where it resides, including on deck, off deck, internet or mobile web," said Kevin Perkins, CEO of Skweezer. "By using the Skweezer technology JumpTap, can enhance the users' mobile search experience and generate more revenues for carriers."

JumpTap is using Skweezer Private Label, which is a carrier-grade solution that optimizes Web content for PDAs and cell phones. Skweezer is also available to the public by accessing the Skweezer portal at [www.skweezer.com](http://www.skweezer.com).

Skweezer has introduced many mobile browsing innovations and has won several awards in 2007, including a Gold Star in the Mobile Star Awards and Best Web Compression Service in the Smartphone and Pocket PC Magazine Best Software Awards. Skweezer is completely platform-independent and can be accessed from Pocket PC, Palm, MS Smartphone, Blackberry, iPhone, Symbian, PSP2, and WAP 2.0 compliant devices.

### **About JumpTap**

Reaching over 170 million mobile subscribers through partnerships with 18 mobile operators and numerous content publishers, JumpTap's comprehensive search and advertising solutions benefit the whole mobile Internet ecosystem: JumpTap enables carriers to maintain a strong, sustainable position in the mobile value chain, drives traffic and revenue opportunities to content publishers, and gives advertisers access to targeted customers. For more information, please visit [www.jumptap.com](http://www.jumptap.com).

### **About Skweezer, Inc**

Skweezer, Inc. has been a key innovator of mobile content optimization technologies since 2001, creating award-winning solutions that have accelerated mobile Web adoption and consistently raised the bar in terms of users' expectations and feature development. Skweezer Ads, launched in 2004, provides publishers and ad networks with desktop and mobile ads through a single ad feed and includes Skweezer's optimization technology that automatically mobilizes site content for mobile visitors. Skweezer's scalable, time-tested "carrier grade" content optimization and converged advertising products are relied upon by some of the largest wireless operators, search engines, ad networks, and enterprises in the world.

**Grilling the Metrics Vendors: When Will Mobile Numbers Add Up for Media Planners?**

4:15 PM

Mobile metrics remain are a gaping hole for many marketers and advertisers, and it's no longer enough to talk about app download numbers and call it a day. The major third party measurement players have very different methodologies for sizing a fragmented WAP market and they haven't cracked the code at all on app usage. The panels have helped substantiate mobile as a growing marketing sector, but are they really useful as media planning metrics? Who is measuring what and how are they planning to evolve their services for the era when mobile devices overtake the PC for web access. Now that mobile is more than just an experimental buy, how can marketers use available metrics to integrate mobile into their media plans? We hear from the leading mobile metrics vendors along with agency pros to determine what we have now, how to use it and what we need for the future.

**Moderator** - Kathryn Koegel, Marketing Lead, Primary Impact

GroupM Search gets together with industry partners and peers to share with the audience 10 important topics facing mobile marketers. Issued covered will be the challenges and opportunities facing clients, platform developers, mobile search strategists, search engines, telecom providers and advertisers as they pertain to mobile marketing -- from campaign development to strategy and execution. How can all parties deliver compelling opportunities for brands and the ultimate mobile experience for consumers?

**Moderator:** Chris Copeland, CEO, GroupM Search, The Americas

**Roundtable Panelists:**

- Doug McMillen, National Mobile Search Specialist, Microsoft
- Michael Collins, CEO, Joule

- Paran Johar, Chief Marketing Officer, JumpTap
- Tim Lagrone, Mobile Search Tactical Lead, Outrider
- Marc Freed-Finnegan, New Business Development, Google

### **Oh, No. Not Again! Will Mobile Ad Networks Make or Break Mobile Content?**

Here we go again. Just as they do online, major media are starting to complain that the mobile ad networks are depressing CPMs, commoditizing ad inventory, and making it impossible for publishers to generate the revenue they need to create robust mobilized content. And yet, few sales staffs on the publisher side have the expertise or the incentive to sell mobile on their own. Publishers remain dependent on the mobile nets to rep the sites and fill the inventory. Is the mobile ad environment evolving any differently than it has online? Will the revenue from this channel be enough to finance standalone content operations or will publishers have to migrate away from the ad network model in order to monetize mobile fully?

Moderator: Kevin Ryan, CMO, WebVisible

#### Panelists

- David Gwozdz, CEO, Mojiva
- Paran Johar, CMO, JumpTap
- Jeff Litvack, GM, Mobile & Emerging Products, The Associated Press
- Tony Nethercutt, VP of Sales, AdMob
- Josh Schoenberg, Director of Business Development, The Weather Channel Interactive

**Location:** Ashford Club, Atlanta Georgia

**Date(s):** 17.9.09

WTF General Meeting, Thursday, September 17, 6-8 pm,  
Ashford Club

**Topic:** Where is the Money in Mobile Content?

**Description:** There is a ton of content that is delivered to mobile devices such as ring tones, ring back tones, mobile music, photos, text, news, weather, sports and financial information. A number of companies have made arrangements with content publishers to deliver content to mobile users. Most typically, these mobile content companies install servers inside the wireless operator that, in turn, deliver the content to the user based on a subscriber request. This WTF meeting will have a keynote by Motricity, one of the largest providers of mobile content. This will be followed by a panel of other providers of mobile content.

**Moderator:** J. Gerry Purdy, Ph. D., VP & Chief Analyst,  
Mobile & Wireless, Frost & Sullivan

**Keynote:** Jim Ryan, Chief Strategy Officer, Motricity

**Panelists:**

- D.P. Venkatas, CEO, mPortal
- McPhail Hunt, JumpTap
- Cameron Clayton, VP of Mobile, The Weather Channel
- Ed Pimentl, Gpro, ws
- Jim Ryan, CSO, Motricity

900,678,473 shares of Common Stock Issued and Outstanding as of October 16, 2009

DOCUMENTS INCORPORATED BY REFERENCE

(1) Portions of the registrant's definitive Proxy Statement relating to its 2010 Annual Meeting of Shareholders are incorporated by reference into Part III of this Annual Report on Form 10-K where indicated. Such Proxy Statement will be filed with the U.S. Securities and Exchange Commission within 120 days after the end of the fiscal year to which this report relates.

*Parts of this Amendment No. 1 to the Annual Report on Form 10-K contain forward-looking statements that involve risks and uncertainties. Many of the forward-looking statements are located in "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Forward-looking statements can also be identified by words such as "anticipates," "believes," "estimates," "expects," "intends," "plans," "predicts," and similar terms. Forward-looking statements are not guarantees of future performance and the Company's actual results may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such differences include, but are not limited to, those discussed in the subsection entitled "Risk Factors" under Part I, Item 1A of the Form 10-K for the year ended September 26, 2009 that was filed with the Securities and Exchange Commission on October 27, 2009. All information presented herein is based on the Company's fiscal calendar. Unless otherwise stated, references in this report to particular years or quarters refer to the Company's fiscal years ended in September and the associated quarters of those fiscal years. The Company assumes no obligation to revise or update any forward-looking statements for any reason, except as required by law.*

#### **Explanatory Note**

Apple Inc. (the "Company") is filing this Amendment No. 1 to the Annual Report on Form 10-K (the "Form 10-K/A") to amend its Annual Report on Form 10-K for the year ended September 26, 2009, which was filed with the Securities and Exchange Commission ("SEC") on October 27, 2009 (the "Original Filing" and together with the Form 10-K/A, the "Form 10-K"). As amended by this Form 10-K/A, the Form 10-K reflects the Company's retrospective adoption of the Financial Accounting Standards Board's ("FASB") amended accounting standards related to revenue recognition for arrangements with multiple deliverables and arrangements that include software elements ("new accounting principles"). The new accounting principles permit prospective or retrospective adoption, and the Company elected retrospective adoption. The Company adopted the new accounting principles during the first quarter of 2010, as reflected in the Company's financial statements included in its Quarterly Report on Form 10-Q for the quarter ended December 26, 2009, which was filed with the SEC on January 25, 2010. The new accounting principles significantly change how the Company accounts for certain revenue arrangements that include both hardware and software elements as described further below.

Under the historical accounting principles, the Company was required to account for sales of both iPhone and Apple TV using subscription accounting because the Company indicated it might from time-to-time provide future unspecified software upgrades and features for those products free of charge. Under subscription accounting, revenue and associated product cost of sales for iPhone and Apple TV were deferred at the time of sale and recognized on a straight-line basis over each product's estimated economic life. This resulted in the deferral of significant amounts of revenue and cost of sales related to iPhone and Apple TV. Costs incurred by the Company for engineering, sales, marketing and warranty were expensed as incurred. As of September 26, 2009, based on the historical accounting principles, total accumulated deferred revenue and deferred costs associated with past iPhone and Apple TV sales were \$12.1 billion and \$5.2 billion, respectively.

The new accounting principles generally require the Company to account for the sale of both iPhone and Apple TV as two deliverables. The first deliverable is the hardware and software delivered at the time of sale, and the second deliverable is the right included with the purchase of iPhone and Apple TV to receive on a when-and-if-available basis future unspecified software upgrades and features relating to the product's software. The new accounting principles result in the recognition of substantially all of the revenue and product costs from sales of iPhone and Apple TV at the time of sale. Additionally, the Company is required to estimate a standalone selling price for the unspecified software upgrade right included with the sale of iPhone and Apple TV and recognizes that amount ratably over the 24-month estimated life of the related hardware device. For all periods presented, the Company's estimated selling price for the software upgrade right included with each iPhone and Apple TV sold is \$25 and \$10, respectively. The adoption of the new accounting principles increased the Company's net sales by \$6.4 billion, \$5.0 billion and \$572 million for 2009, 2008 and 2007, respectively. As of

September 26, 2009, the revised total accumulated deferred revenue associated with iPhone and Apple TV sales to date was \$483 million; revised accumulated deferred costs for such sales were zero.

The Company had the option of adopting the new accounting principles on a prospective or retrospective basis. Prospective adoption would have required the Company to apply the new accounting principles to sales beginning in fiscal year 2010 without reflecting the impact of the new accounting principles on iPhone and Apple TV sales made prior to September 2009. Accordingly, the Company's financial results for the two years following adoption would have included the impact of amortizing the significant amounts of deferred revenue and cost of sales related to historical iPhone and Apple TV sales. The Company believes prospective adoption would have resulted in financial information that was not comparable between financial periods because of the significant amount of past iPhone sales; therefore, the Company elected retrospective adoption. Retrospective adoption required the Company to revise its previously issued financial statements as if the new accounting principles had always been applied. The Company believes retrospective adoption provides the most comparable and useful financial information for financial statement users, is more consistent with the information the Company's management uses to evaluate its business, and better reflects the underlying economic performance of the Company. Accordingly, the Company has revised its financial statements for 2009, 2008 and 2007 in this Form 10-K/A to reflect the retrospective adoption of the new accounting principles. There was no impact from the retrospective adoption of the new accounting principles for 2006 and 2005. Those years predated the Company's introduction of iPhone and Apple TV.

Part II, Item 8 under Note 2, "Retrospective Adoption of New Accounting Principles" in Notes to Consolidated Financial Statements of this Form 10-K/A provides a discussion of the full effects of the retrospective adoption of the new accounting principles to the Company's previously reported Consolidated Balance Sheets and Consolidated Statements of Operations. This Form 10-K/A amends the following items in the Company's Original Filing to reflect the retrospective adoption of the new accounting principles;

Part II, Item 6, Selected Financial Data

Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations

Part II, Item 8, Financial Statements and Supplementary Data

Part IV, Item 15, Exhibits, Financial Statement Schedules

This Form 10-K/A includes only items amended due to the retrospective adoption of the new accounting principles. This Form 10-K/A does not attempt to modify or update the disclosures in any other items set forth in the Original Filing. This Form 10-K/A speaks as of September 26, 2009, unless otherwise noted. The Original Filing sets forth the annual disclosures that are unaffected by the retrospective adoption of the new accounting principles. Accordingly, this Form 10-K/A should be read in conjunction with the Original Filing and all filings made with the SEC subsequent to the date of the Original Filing.

## PART II

### Item 6. Selected Financial Data

The Consolidated Balance Sheets as of September 26, 2009 and September 27, 2008, and the Consolidated Statements of Operations for the years ended September 26, 2009, September 27, 2008, and September 29, 2007 have been amended to reflect the impact of the retrospective adoption of the new accounting principles, which has been reflected in the following table. There was no impact from the retrospective adoption of the new accounting principles for the years ended September 30, 2006 and September 24, 2005. Those years predated the Company's introduction of iPhone and Apple TV.

The information set forth below for the five years ended September 26, 2009, is not necessarily indicative of results of future operations, and should be read in conjunction with Part II, Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements and related notes thereto included in Part II, Item 8 of this Form 10-K to fully understand factors that may affect the comparability of the information presented below (in millions, except share amounts which are reflected in thousands and per share amounts).

**MILLENNIAL MEDIA TRIPLES REVENUE IN 2010; RAISES ADDITIONAL \$27.5M TO ACCELERATE GROWTH**

**Market Position Solidifies in 2010 as the Independent Leader in Mobile Advertising**

**LAS VEGAS, NV and BALTIMORE, MD, January 5, 2011**— After tripling revenues in 2010, Millennial Media, the independent leader in mobile advertising, today announced that it has raised an additional \$27.5M in growth equity funding, with Bessemer Venture Partners, Columbia Capital, Charles River Ventures (CRV), and New Enterprise Associates (NEA) participating. This new investment brings the company's equity funding to more than \$65M and will be used to fund an acceleration of the company's 2011 global growth plan.

Millennial Media plans to use the growth investment in part to build on its successful 2010 acquisition of TapMetrics, a mobile analytics company, with additional acquisitions in 2011. Additional investments will be made in the company's international and platform lines of business.

"Millennial Media continues to be one of our best-performing portfolio companies, and has achieved profitable results. The company has exceeded its revenue and EBITDA projections for ten consecutive quarters," said Patrick Kerins, General Partner, NEA. "As part of our growth equity strategy, we target companies like Millennial Media, as it has the seasoned management team, operational excellence and long-term vision to dominate the mobile advertising market."

"The mobile model continues to expand beyond the phone, and is becoming the new, device based internet via apps on everything from refrigerators to tablets to televisions," said Paul Palmieri, president and CEO, Millennial Media. "Our market position, proposition to the mobile and app economies, and ability to show exceptional results is already solidifying our central role in the digital advertising business."

Launched more than four years ago, Millennial Media has been an undisputed force in the mobile display advertising industry. The company's U.S. mobile ad network business reaches more than 85% of U.S. mobile web users, serves more than 17B mobile ad impressions each month, and counts 18 of the top 25 Ad Age advertisers among its clients. Millennial Media's global operations reach mobile consumers in more than 250 countries. Additionally, the company's technology platform powers mobile advertising programs operated by its partners, including leading media companies, OEMs, and mobile application developers.

Millennial Media is headquartered in Baltimore, Maryland, has offices in New York, London, and San Francisco, with sales offices in Detroit, Los Angeles, Chicago, Dallas, and Atlanta.

**About Millennial Media, Inc.**

Millennial Media is the proven leader in mobile advertising. With the largest mobile media audience in the U.S., Millennial Media uniquely offers brand advertisers the only set of specific, scalable audiences. Our ability to reach, target and engage consumers is unparalleled. As an innovative technology leader, our mobile decisioning, serving, and mediation platforms are powering some of the largest companies in the media business today. The company is committed to growing the mobile advertising marketplace by becoming the preferred partner to all advertisers seeking to reach mobile consumers, all publishers and developers seeking to maximize ad revenue, and all mobile operators seeking to further monetize their networks. In 2010, the company received numerous industry awards including the 2010 OnMedia Top Private Company in Digital Media, the 2010 Stevie for the Most Innovative Company, and Paul Palmieri, president and CEO, was named the Ernst & Young Entrepreneur of the Year for Technology in Maryland. # George Bell Explains Why He Left The Cushy VC Life To Become CEO Of Jumptap

Dan Frommer | Sep. 27, 2010, 4:07 PM | 1,421 | 4

AAA

General Catalyst managing director George Bell just left the cushy VC life to become CEO of a mobile advertising company, Jumptap.

Earlier, we reported some industry scuttlebutt about Jumptap -- that their head of sales recently left, and that Bell would have "massive execution challenges" ahead.

We just got off the phone with Bell, who obviously painted a much brighter picture.

In general, he thinks mobile advertising is going to be a huge business, and that it's still very early, so Jumptap could be a big, meaningful player.

Here are some notes from our call:

Bell confirmed that he's recruiting for a new head of sales. We had reported earlier that sales boss Evan Krauss was no longer with the company.

But he said that our source's revenue estimate for Jumptap -- around \$25 million for the year -- is low. In George's words, that number is "off in a pretty significant fashion."

Jumptap pointed us to IDC's recent report saying that Jumptap represents about 13% of the \$500 million U.S. mobile ad market, which suggests \$65 million in sales, not including any international business.

Jumptap is growing revenue 33% quarter-over-quarter, it says. It's doing about 6 billion to 8 billion impressions per month right now. And it's serving ads to about 63 million unique visitors. (Sounds like roughly 100 impressions per unique, per month.)

Jumptap's board thinks that mobile advertising is more of a media business than people thought, and that Bell's background -- both Internet and media -- would be a good fit. "I love being back, operating something again." (And because he's already based in Cambridge, Mass., he doesn't have to move.)

Mobile the largest platform in the world and getting larger. "I don't know of a consumer that doesn't carry a portable device," Bell says.

Publishers and advertisers both want independence. Neither set "would be naive enough" to think that Google and Apple -- among the mobile advertising leaders, thus far -- don't have their own agendas. If Jumptap can provide the best yields and most revenue to publishers, it has a chance to compete against anyone.

Wants to do more with data, targeting, and optimization.

Jumptap is not raising money right now. And it's not recapitalizing, as one industry source had suggested.

The company has around 100 employees and is growing.

Marketing boss Parag Johar says he is not leaving, as we had heard.

Johar may say he's staying, but talk to the people with open jobs he's interviewed with and the recruiters he's been seen with. You'd get another story.

I don't believe their revenue numbers are more than \$15M. This company has been around for a lo-n-g time. It is not longer a start-up. Some times you need to know when to shoot a company.

True story. So I'm in a meeting with George Bell and someone else in attendance introduces himself as "Rich."

A minute or so later, George Bell asks a question of Rich, but mistakingly refers to him as "Mitch."

Instead of answering the question first, Rich initially responds with "My name is Rich."

George immediately hits back: "Rich...Mitch...Bitch.....whatever"

Jaws dropped...

This is clearly a temporary assignment to dig General Catalyst out of a major issue with one of the big portfolio companies. George will be back to the cushy life soon. 3-6 month up-beat RA RA / Fire-Sale is my bet...
