has requested leave to file those portions under seal; or

is not usable for another reason – The request for judicial notice, which is approximately four inches thick, is fastened with a brad-type fastener that is long enough to fasten only approximately two inches of the document. The addition of a rubber band around the entire document (half of which consists of loose pages) does not make the document usable by the court.

The paper used for the above-described chambers copy has been recycled by the court. No later than November 1, 2012, defendants shall submit a chambers copy in a format that is usable by the court.

IT IS SO ORDERED.
