8 DIGITAL REG OF TEXAS, LLC,

No. C 12-1971 CW

9 Plaintiff,

ORDER GRANTING
PLAINTIFF'S

10 v.

RENEWED

11 ADOBE SYSTEMS INCORPORATED, et
12 al.,

ADMINISTRATIVE
MOTION TO SEAL
(Docket No. 425)

13 Defendants.
14

15 _____/

16 On August 8, 2013, the Court denied without prejudice
17 Plaintiff's and Defendants' administrative motions to file under
18 seal, finding, among other things, that the justification for
19 filing the Patent License and Settlement Agreement (License)
20 between Plaintiff and Microsoft was "not sufficient to file the
21 entire document under seal." Docket No. 422. In its order, the
22 Court directed Plaintiff to file a renewed motion to file the
23 unredacted License under seal and prepare a redacted version of
24 the License for the public record.

25 Plaintiff has filed a renewed motion to file the unredacted
26 License under seal, indicating that only the sealable portions of
27 the License have been redacted from the version prepared for the
28 public record. Plaintiff has submitted a declaration supporting a
finding that disclosure of the redacted portions of the License

1 (1) could put Plaintiff and non-party Microsoft at a competitive
2 disadvantage in future negotiations and (2) would disclose
3 confidential information regarding Plaintiff's bank account.

4 Plaintiff's renewed motion to file the License under seal is
5 GRANTED.
