11 Plaintiff has filed a motion for continuance and represents
12 that Defendant supports its request for extension of the dates for
13 expert disclosures and discovery cut-off. These dates could be
14 continued by stipulation, but the briefing and hearing schedule
15 for claim construction and dispositive motions may not be
16 continued without continuing the trial date, and the trial date
17 Plaintiff requests is unavailable. The next available date for an
18 eight day jury trial is September 29, 2014. Alternatively, the
19 parties could stipulate to a magistrate judge for trial on August
20 5, 2014. Plaintiff's motion is denied without prejudice.
