¹ In its supplemental brief in support of the motions to seal, ChriMar refers to Docket No. 292 for the exhibits submitted in support of its opening motion for leave to amend. The same is true with the parties' references to Docket No. 314, the Cisco Defendants' opposition, and to ChriMar's references to Docket No. 322, its reply brief. However, because the un-redacted versions of the documents sought to be sealed are located at Docket Nos. 293, 316, and 323, respectively, the Court has referred to those docket entries in this Order.

Docket No. 323-4, ChriMar Reply Brief ²	12:1-3 (up to citations to record) 12:4-7 (after “However” and up to citations to record) 12:8-10 (after “one hand” and up to “as it” 12:17-18 (after “that” on line 17 and up to “that” on line 18) 12:21-25 13:3 (after “patent” and up to citations to record)

² In its supplemental submission, ChriMar has included its reply brief and supporting evidence in its chart. It states that certain portions do not contain ChriMar confidential material, but cites to declarations previously submitted the Cisco Defendants, which were submitted in support of sealing that material. (*See generally* Docket No. 332, ChriMar Supplemental Brief at 6:3-26.) The Court found the prior declarations were insufficient to support the motions to seal. Because the Cisco Defendants have not addressed any portion of ChriMar’s reply brief or the supporting evidence in their supplemental chart, the Court will only seal those portions that ChriMar contends contains its confidential information or which are adequately supported by the Cisco Defendants’ supplemental submission.
