COURT CLERK: Jackie Garcia COURT REPORTER: Lee-Anne Shortridge

PROCEEDINGS

MANUFACTURER'S MOTIONS FOR SEPARATE TRIALS, AND/OR TO SEVER, AND/OR TO STAY
ORDER AFTER HEARING

Hearing Held. The Court heard oral argument from counsel. The Court offers the following proposal for
comment: 1) A consolidated trial on infringement and invalidity with respect to DDR2 SDRAM and following
products as scheduled in January. Rambus's claims on SDRAM and DDR SDRAM against Nanya and
Samsung can be pursued later. 2) If necessary, the same jury then tries willfulness on an individual basis
starting with Nanya, then Micron, then Samsung, then Hynix. 3) If necessary, a separate jury would then
hear damages (any any other individual defenses like Micron's license) as to each Manufacturer on an
individual basis. The Court request follow-up written comments from counsel due by 9/19 and a follow-up
hearing on 9/24 @ 2:30 PM.
