Just as a follow up on this, I wanted to alert you all to the fact that this is related to the old sex.com case. Please ensure that you make no changes to the anything related to these folks as there is still an on-going legal battle. I will list the IP addresses in questions below, as well as some of the names to look out for. Please let me know if you have any questions.  
 Thanks.

Leslie

There may be org and ISP network request templates submitted to hostmaster this week that include me as a carbon copy addressee. If you see one of these messages please do not respond to it without first speaking to me.

Thanks :)
