9 Attorneys for Respondent
 GOOGLE INC.

11 **UNITED STATES DISTRICT COURT**
 12 **NORTHERN DISTRICT OF CALIFORNIA**
 13 **SAN JOSE DIVISION**

15 ALBERTO R. GONZALEZ, in his official
 capacity as ATTORNEY GENERAL OF THE
 16 UNITED STATES,

CASE NO. 5:06-mc-80006-JW
 DECLARATION OF MARTY LEV

17 Movant,

18 v.

19 GOOGLE INC.,

20 Respondent.

22 MARTY LEV states as follows:

23 1. I am the Director of Safety and Security at Google Inc., and I report directly to the
 24 Chief Financial Officer. I have been employed by Google in this capacity since January 5, 2004.
 25 I have personal knowledge of the facts set forth below and, if called as a witness about those facts,
 26 could testify competently thereto.

1 2. Google employees, contractors, and temporary workers are issued photo
2 identification cards. These photo identification cards grant them certain access to Google's
3 facilities. Additionally, Google's facilities are protected by an access-control system consisting of
4 electronic access readers that grant entry by verifying appropriate privileges of the card holder.
5 While employees are granted 24-hour access to Google's buildings, contractors and temporary
6 employees are generally granted access to the buildings only from 7 a.m. to 7 p.m., Monday
7 through Friday. If service vendors need access during nonbusiness hours, they must use a keybox
8 requiring a Personal Identification Number to gain limited access.

9 3. Visitors are required to register at an electronic kiosk and sign a nondisclosure
10 agreement prior to entry into Google premises. Visitors wear distinctive badges without access
11 credentials and must be escorted at all times. Tour guidelines are posted online for employees
12 hosting visitors and specifically address the appropriate release of information to visitors.

13 4. Most Google workers do not have access to data rooms or other critical
14 infrastructure. Moreover, rooms such as data centers or other specialized areas have a room owner
15 or owners. The owners approve, by email or in person, a worker's need to access that room.

16 5 No photography is allowed inside Google premises without accompaniment of a
17 representative from Public Relations.

18 6. All wastepaper from Google facilities is shredded and recycled.

19 7. Google's facilities maintain video surveillance of entry and exit points, and the
20 video recordings are generally retained at least 30 days.

21 8. Security officers are onsite 24 hours a day, seven days a week at Google's facilities
22 in Mountain View, California, Santa Monica, California, and other critical locations. Google's
23 other facilities are monitored by security patrols and alarm response services. In addition, Google
24 operates a security operations center that monitors alarms and is equipped with telephone, email,
25 and fax communications so staff can report suspicious behavior or circumstances. This operations
26 center is staffed 24 hours a day, seven days a week.

9. Google's employees are reminded of Google's measures to maintain the physical security of its premises through training at New Hire Orientation sessions and in periodic emails.

I DECLARE UNDER PENALTY OF PERJURY that the foregoing is true and correct.

DATED at MtA View, CA, this 16 day of February, 2006.

MARTY LEV
