centipoise \sentə,pōiz\ n -s [centi- + poise] : a unit of viscosity equal to 1/100 poise
centistoke \sentə,stōk, -tē- \ n -s [centi- + stoke] : a unit of kinematic viscosity equal to 1/100 stoke
centner \sentnə(r) əlsə 'tse- with reference to Germany \ n -s [prob. fr. LG; akin to MD centenaar, OHG centenāri; all fr. a prehistoric D-LG-HG word borrowed fr. L centenarius of a hundred — more at CENTENARY] : any of various units of weight: as a: a unit used in Germany and Scandinavia usu. equal to 110.23 pounds b: a unit used in the U.S.S.R. equal to 220.46 pounds : METRIC CENTNER
cento \sen-,tō-, -ntō\ n, pl centones \sen-'tō(n)ēz\ or centoes or centos \sen-,tōz-, -ntōz\ [L; akin to OHG hadara rag, Skt kanthā patched garment] 1 obs: a garment of patches 2: an often poetic patchwork composition of parts from other works
centonical \('sen-,tānkəl\ adj [L centon-, cento + E -ical] : of, like, or constituting a cento
centonism \sentə,nizəm\ also centonization \sentən-'zāshən \ n -s [L centon-, cento + E -ism or -ization] : the act or practice of composing centos
centro- or centro- comb form [Gk kentri-, kentro-, fr. kentrōn center, sharp point] 1: center (centroid) : central and (centrodorsal) 2: spiny (centrarchid) (centrosema)
centra pl of CENTRUM
centrad \sen-,trəd\ adv (or adj) [centr- + -ad] : toward the center (as of the body) (~ to the epidermis)
centradial \('n -s [centr- (fr. centi-) + radian] : a unit of angular measure equal to 1/100 of a radian or about 0.57 degrees
central \sen-'trəl\ adj, sometimes -ER/-EST [L centralis, fr. centrum center — more at CENTER] 1: containing or constituting a center : relevant or pertinent to a center (the sun having a ~ place in the solar system) (the ~ areas) 2: belonging to the center as most important part : BASIC, ESSENTIAL, PRINCIPAL, DOMINANT : not peripheral or incidental : cardinally related (these efforts have been marginal and not ~ —Max Lerner) (ethical values ~ to the democratic way of life —Sidney Hook) (the ~ virtues ... courage, honor, faithfulness, veracity, justice —Walter Lippmann) (a notion ~ to his beliefs) 3 a: situated at, in, or near the center : occupying a center : proceeding from a center (the ~ block of the city) (the ~ part of the state) b: placed at a center and accessible

centipede

central \sen-'trəl\ n, usu cap 1st C&A : a native or inhabitant of Central America
central american cedar n, usu cap 1st C&A : SPANISH CEDAR
central apparatus n : the centrosome or centrosomes including usu. a surrounding area of differentiated cytoplasm — called also cyto-centrum; compare MICROCENTRUM
central bank n : a bank that deals mainly with other banks and the government and assumes broad responsibilities in the interests of the national economy apart from the earning of profits (as by regulating the volume, character, and cost of outstanding bank credit)
central basin adj, usu cap C&B [prob. so called fr. sites in the Illinois river valley in central Illinois] : of or relating to a phase of Woodland culture preceding and related to Hopewell and characterized by small habitation sites, flexed burials, and incised and stamped grit-tempered pottery
central body n 1 : CENTROSOME 1 2 : the colorless inner portion of the protoplasm in the cells of blue-green algae and of certain bacteria that is assumed by some to be a primitive nucleus lacking nucleoli and nuclear membrane — called also centropiasm; compare CHROMATOPLASM
central canal n : a minute canal running through the gray matter of the whole length of the spinal cord and continuous anteriorly with the ventricles of the brain
central cell n 1 : CHIEF CELL 1 2 : the cell in the venter of the archegonium whose division produces the egg and usu. also the ventral canal cell (as in cecyads)
central convolution n : any of the gyri bordering the central sulcus in the brain
central cylinder n : STEELE
centralia \sen-'trā(ə)li-, -al(ə)li-, -i(ə)li\ n, pl centralia \-li-, -li\ [NL, fr. L neut. of centralis central] : a bone in the carpus or tarsus situated between the proximal and distal rows of bones, in man that of the carpus usu. fusing with the navicular and that of the tarsus being replaced by the navicular
central eclipse n 1 : a solar eclipse at the point when the centers of the sun and moon are in line with the observer 2 : a lunar eclipse in which the moon passes through the center of the earth's shadow
centrales \sen-'trā(ə)li-z\ n pl, cap [NL, fr. L centrum center + NL -ales] : an order of diatoms having cylindrical disklike or even-angular cells always lacking a raphe or pseudoraphe and having radial markings and often spines — compare PENNALES
central-fire var of CENTER-FIRE
central force n : a force of attraction toward or of repulsion from a fixed or moving definite point
central-Indian \sen-'trəl-əd-, -līd\ n -s usu cap [central + -id] : an early American Indian of a physical type characterized by broad high- vaulted head and relatively broad face and found primarily in southwestern U.S. and the northern Mississippi valley — compare PACIFIC, SYLVIA
central-ism \sen-'trə,līzəm\ n -s : CENTRALIZATION : disposition to centralize : a system marked by centralization esp. in government
centralist \-ləst\ n -s [Sp centralista, fr. central (fr. L centralis) + -ista -ist, fr. L — more at CENTRAL] : an advocate of centralization esp. in government
centralist \(' adj : advocating centralization — cen-tral-ist-ic \-səl-istik-, -tēk\ adj
central-ite \-līt\ n -s [fr. Centralite, a trademark] : a dialkyl derivative of carbanilide (as diethyl-diphenyl-urea) used as a stabilizer for smokeless powder
central-ity \sen-'trəl-əd-ē-, -ətē-, -i\ n -ES : the quality or state of being central : tendency to remain in or at the center
central-ization \sen-'trəl-ə-'zāshən-, -līz-ə\ n -s [F central-isation, fr. centraliser + -ation] 1 : the act or process of centralizing : the state of being centralized 2 a : concentration of the powers and agencies of government in the central or national organization b : concentration of authority and power in the hands of a few (he believed in strong ~ — the concentration of power in a few hands, the strict regimentation —H.L. Mencken)
central-ize \sen-'trə,līz\ vb -ED- /-ING/ -S see -ize in Explan Notes [F centraliser, fr. central + -iser -ize] vt : to form a center : to cluster around a center (a tendency of the whirling particles to ~) ~ vt 1 : to serve as center for : draw to a central point : gather about a center (the post office centralizing the town) 2 : to concentrate by placing power and authority in a center or central organization (I urge upon the Congress the desirability of centralizing these functions in a single agency —H.S. Truman)
central-izer \-zə(r)\ n -s 1 : an advocate or agent of centralization 2 : one that centralizes
central-lasite \sen-'trəl-ə'sīt\ n -s [centr- + Gk allassein to change + E -ite] : a mineral composed of a hydrous silicate of calcium, probably Ca₂Si₂O₁₅·5H₂O
central lobe n : ISLAND OF REIL
central-ly \sen-'trəl-ē-, -lī\ adv [3 central + -ly] : in a central position : at, near, or toward a center : according to a central role or function
central nervous system n : the part of the nervous system which in vertebrates consists of brain and spinal cord, to which sensory impulses are transmitted and from which motor impulses pass out, and which supervises and coordinates the activity of the entire nervous system — compare AUTONOMIC NERVOUS SYSTEM
central-ness n -ES : CENTRALITY
central quadric n : a second-degree surface possessing a center about which there is a symmetrical figure (as an ellipsoid, 1-sheeted or 2-sheeted hyperboloid, or cone)
central reserve city n : a major financial center in which banks are usu. subject to higher legal reserve requirements than those in other cities — compare COUNTRY BANK, RESERVE CITY
centrals pl of CENTRAL
central school n : CONSOLIDATED SCHOOL
central staging n : ARENA THEATER
central station n 1 : a central electric-power-generating plant 2 : a communications center esp. on a warship
central sudanic n, cap C&S : a branch of the Chari-Nile language family including Bagirmi, Efe, Lendu, Lugbara, Moru, Madi, and Mangbetu that is spoken in northeastern Zaire, northern Uganda, southern Republic of Sudan, and westward toward Lake Chad
central sulcus n : the sulcus separating the frontal lobe of the cerebral cortex from the parietal — called also fissure of Rolando

centromere \sen-'trɒm-ē-, -rēk\ adj [Gk k. kentron center, sharp point] 1 : LOCAL TRAIL (a ~ point) 2 a : having a center around or directed to a center (a ~ cluster around a center : marked by thing as of central importance (~ i to a nerve center) 4 a of leaves : CYI or concerning the order Centrales the surface markings radially arranged order Centrales) 5 [trans. of G zen a texture (as oolitic, ocellar) in wh grouped about a center 6 : possess tromere 7 of dental occlusion : invol such that all teeth of both jaws mt and forces exerted by the lower on th distributed in the dental arch
-centric \sen-'trik-, -rēk\ adj [Gk k. concentrik concentric], fr. ML -ce concentric, eccentrick eccentric) - : having (such) a center or (such or s centric) (homocentric) (polycentric specified) as its center (anthropocentric) cen-tri-cae \sen-'trə,sē\ n pl, cap [L centric, fr. Gk kentrikos] in some Clt diatoms equivalent to the order Cent
centri-cal \sen-'trə-kəl\ adj : CENTRAL (of town) — cen-tri-cal-ly \-rēk(ə)lē cen-tri-cally \-rēk(ə)lē

from all outlying points without undue or disproportionate difficulty (a new theater in a ~ location) 4 a : centrally (~ heating) (~ offices) b : controlling or directing local or branch activities : constituting a governing or administrative center (decided by the ~ committee) 5 : holding to a middle 6 a : of or concerning the centrum of a vertebra b : of, re- ing the brain and spinal cord — distinguished from periph- 7 of a vowel : articulated at a point in the oral passage between

central \-n s I sometimes cap a : a telephone exchange cancel the call) 2 : CENTRALE 3 : a central office or bureau (usu. controlling or dominating others (~ ran the various guage family including Bantu, Ekoi, Ibibio, and Tiv

central \-n, m pl centrals \-lz\ or centra-les \-š(i)lās\ [AmerSp, fr. Sp central, adj., fr. L centralis] in sugar out of cane Spanish America & the Philippines : a mill for making raw

central african n, cap C & A : a native or inhabitant of the Central African Republic — central african adj, usu cap C & A

central algonquian n, usu cap C&A : a subdivision of the Algonquian language stock including Cree, Ojibwa, Fox, Menomini, Potawatomi, Illinois, and Shawnee

central american \-n, m pl centras \-lz\ or centra-les \-š(i)lās\ [AmerSp, fr. Sp central, adj., fr. L centralis] in sugar out of cane Spanish America & the Philippines : a mill for making raw

central american cedar n, usu cap 1st C&A : SPANISH CEDAR central apparatus n : the centrosome or centrosomes including usu. a surrounding area of differentiated cytoplasm — called also cytocentrum; compare MICROCENTRUM

central bank n : a bank that deals mainly with other banks and the government and assumes broad responsibilities in the interests of the national economy apart from the earning of profits (as by regulating the volume, character, and cost of outstanding bank credit)

central basin adj, usu cap C&B [prob. so called fr. sites in the Illinois river valley in central Illinois] : of or relating to a phase of Woodland culture preceding and related to Hopewell and characterized by small habitation sites, flexed burials, and incised and stamped grit-tempered pottery

central body n 1 : CENTROSOME 2 : the colorless inner portion of the protoplasm in the cells of blue-green algae and of certain bacteria that is assumed by some to be a primitive nucleus lacking nucleoli and nuclear membrane — called also centrosplasm; compare CHROMATOPLASM

central canal n : a minute canal running through the gray matter of the whole length of the spinal cord and continuous anteriorly with the ventricles of the brain

central cell n 1 : CHIEF CELL 2 : the cell in the venter of the archeogonium whose division produces the egg and usu. also the ventral canal cell (as in cycads)

central convolution n : any of the gyri bordering the central sulcus in the brain

central cylinder n : STELE

central-ia \-trā(\jē, -āl)(ē, -ā)(\ē\ n, pl centra- lia \-lēs\ [NL, fr. L, neut. of centralis central] : a bone in the carpus or tarsus situated between the proximal and distal rows of bones, in man that of the carpus usu. fusing with the navicular and that of the tarsus being replaced by the navicular

central eclipse n 1 : a solar eclipse at the point when the centers of the sun and moon are in line with the observer 2 : a lunar eclipse in which the moon passes through the center of the earth's shadow

central-les \-trā(\jēz\ n pl, cap [NL, fr. L centrum center + NL -ales] : an order of diatoms having cylindrical disklike or even-angular cells always lacking a raphe or pseudoraphe and having radial markings and often spines — compare PENNALES

central-fire var of CENTER-FIRE

central force n : a force of attraction toward or of repulsion from a fixed or moving definite point

central-id \-trā(\jēz\ n s usu cap [central + -id] : an early American Indian of a physical type characterized by broad high-vaulted head and relatively broad face and found primarily in southwestern U.S. and the northern Mississippi valley — compare PACIFIC, SYLVID

central-ism \-trā(\jēz\ n s : CENTRALIZATION : dis- position to centralize : a system marked by centralization esp. in government

central-ist \-lōst\ n s [Sp centralista, fr. central (fr. L centralis) + -ista -ist, fr. L — more at CENTRAL] : an advocate of centralization esp. in government

central-istic \-lōst\ adj : advocating centralization — cen- tral- ite \-lit\ n s [fr. Centralista, a trademark] : a dialkyl derivative of carbanilide (as diethyl-diphenyl-urea) used as a stabilizer for smokeless powder

central-ity \-trā(\jēz\ n s : tendency to remain in or at the center of being central : tendency to remain in or at the center

central-iza-tion \-trā(\jēz\ n s : the act or process of centralizing; the state of being centralized 2 a : concentra- tion of the powers and agencies of government in the central or national organization b : concentration of authority and power in the hands of a few (he believed in strong ~ — the concentration of power in a few hands, the strict regimentation —H.L. Mencken)

central-ize \-trā(\jēz\ vb -ED/-ING/-S see -ize in Explan Notes [F centraliser, fr. central + -iser -ize] vt : to form a center : to cluster around a center (a tendency of the whirling particles to ~) ~ vt 1 : to serve as center for : draw to a central point : gather about a center (the post office central- izing the town) 2 : to concentrate by placing power and au- thority in a center or central organization (I urge upon the Congress the desirability of centralizing these functions in a single agency —H.S. Truman)

central symmetry n, math : symmetry with respect to a point

central tendency n : the degree of clustering of the values of a statistical distribution that is usu. measured by the arithmetic mean, mode, or median

central time or central standard time n, often cap C : the time of the 6th time zone west of Greenwich that is based on the 90th meridian, is used in east central Canada, central U.S., Mexico, and Central America, and is one hour slower than eastern time — abbr. CT, CST

cent-ran-th \-sen,tran(\th\ n s [NL Centranthus (genus name), fr. centr- + -anthus] : a plant of a genus (Centranthus) of the family Valerianaceae; esp : RED VALERIAN

cent-trar-chid \-sen,'trärkäd, -äk-, -kid\ n s [NL Centrarchidae] : a fish of the family Centrarchidae

cent-trar-chi-dae \-kä,dē\ n pl, cap [NL, fr. centrarchus, type genus (fr. Gk kentron sharp point + archos rectum) + -idae — more at CENTER] : a family of No. American carnivorous percid freshwater fishes containing the sunfishes, crappies, black basses, and others valuable as food and game — cen-trar-choid \-kōid\ adj or n

cen-tra-tion \-sen,'trāshən\ n s [centr- + -ation] : the act of centering

cen-trax-o-nia \-sen,trak'sōnēə\ n pl, cap [NL, fr. centr- + axonia] biol : organisms having a median axis regarded as a group — cen-trax-o-ni-al \-sē,-'nēəl\ adj

cen-tre \-sentr(\r\ chiefly Brit var of CENTER

cen-trech-i-noi-da \-(i)sen,'trek'nōidə\ n pl, cap [NL, fr. Centretichinus + -oida] : a large order of sea urchins having peristomial gills, sphaeridia, and an apically located anus — compare Cidaroida, EXOCYCLOIDA

cen-tre-ghi-nus \-sen,'trē'kīnas\ n, cap [NL, fr. centr- + black sea urchins having slender poisonous spines

cen-tred \-sentr(\r)d\ chiefly Brit var of CENTERED

cen-tre-man \-tə(r)(i)m-\ n, pl centremen Brit : CENTER 5b center- comb form [NL, fr. L CENTRUM] : center (centrifugal)

cen-tric \-sen,'trik-, -rēk\ adj [Gk kentrikos of the center, fr. kentrōn center, sharp point] 1 : located in or at a center : CENTRAL (a ~ point) 2 a : having a center : having parts grouped around or directed to a center (a ~ activity) b : tending to cluster around a center : marked by concentration on something as of central importance (~ ideas) 3 : of or relating to a nerve center 4 a of leaves : CYLINDRICAL, TERETE b : of or concerning the order Centrales c of a diatom : having the surface markings radially arranged (as in members of the order Centrales) 5 [trans. of G zentrich] of a rock : having a texture (as oolitic, ocellar) in which the constituents are grouped about a center 6 : possessing or relating to a cen- such that all teeth of both jaws meet in a normal manner and forces exerted by the lower on the upper jaw are perfectly distributed in the dental arch

cen-tric \-sen,'trik-, -rēk\ adj comb form [ME -sentrik (in consentrik concentric), fr. ML -centricus (in concentricus concentric, eccentricus eccentric) — more at ECCENTRIC] : having (such) a center or (such or so many) centers (hetero- centric) (homocentric) (polycentric) : having (something specified) as its center (anthropocentric) (heliocentric)

cen-tri-cae \-sen,'trāsē\ n pl, cap [NL, fem. pl. of centricus centric, fr. Gk kentrikos] in some classifications : a group of diatoms equivalent to the order Centrales

cen-tri-cal \-sen,'trākəl\ adj : CENTRAL, CENTRIC (in the ~ part of town) — cen-tri-cal-ly \-'rāk(ə)\ē\ adv

cen-tri-i-ty \-sen,'trīsəd-, -ətē, -i\ n -ES [centric + -ity (as in eccentricity)] : the quality or state of being centric (the ~ of the family in Western values)

centries pl of CENTRY

cen-trif- u-gal \-(i)sen,'trifygəl, -fəlg-, -fēlg-, -k-, Brit also 'sen- trā,'fyūg-\ adj [NL centrifugus (fr. centri- + fugus, fr. L fugere to flee) + E -al — more at FUGITIVE] 1 : moving, proceed- ing, or acting in a direction away from a center or axis — opposed to centripetal (~acceleration of a body) 2 a : using or acted by centrifugal force (a ~ compressor) b : separated or freed from (as liquid) by centrifugal force (~ flotation of solids from liquids) 3 a : developing and expanding suc- cessively outward and downward from the center or summit — used of the flowers of an inflorescence b : having the radicle turned toward the sides of the fruit 4 : passing out- ward (as from a nerve center to a muscle or gland) 5 : tending away from centralization : SEPARATIST (must soon discover that a system ~ in tendency and decentralizing in spirit, unless closely restrained, was certain to lead them far from the Canaan of their hopes —V.L. Parrington)

2 centrifugal \-n s 1 a : CENTRIFUGAL MACHINE b : a drum in such a machine 2 : CENTRIFUGAL SUGAR — often used in pl.

centrifugal blower n : a blower that operates on the principle of a centrifugal pump

centrifugal casting n : the casting of metal in a rapidly re- volving mold — used esp. of the casting of pipe in which a rotating tube serves as mold

centrifugal clutch n : an automatic friction clutch in which contact between driving and driven parts is established and maintained through centrifugal force commonly against the action of springs that break the contact when the driving part slows down

centrifugal compressor n : an air or gas compressor utilizing a centrifugal pump

centrifugal field n : a space in which centrifugal forces may be detected (as in a rotating centrifuge or in a vehicle rounding a curve)

centrifugal force n : the force that a material particle moving along a curve exerts on the body constraining the motion and that is directed outwardly along the radius of the curve : the reaction to the centripetal force (a stone whirled about on the end of a string exerts centrifugal force on the string) — compare CENTRIPETAL FORCE

centrifugal governor n : a governor (sense 4a) operated by centrifugal force

cen-trif-u-gal-i-za-tion \-(i)sen,'trifizāshən, -lī'z-\ n s : the process of being centrifuged or otherwise submitted to cen- trifugal force

A GENUINE MERRIAM-WEBSTER

The name *Webster* alone is no guarantee of excellence. It is used by a number of publishers and may serve mainly to mislead an unwary buyer.

Merriam-Webster™ is the name you should look for when you consider the purchase of dictionaries or other fine reference books. It carries the reputation of a company that has been publishing since 1831 and is your assurance of quality and authority.

the purchaser —*U.S. Code*) c : a dramatic production or per-
formance (a theatrical ~) d (1) : a usu. formal and serious
statement (as of facts, reasons, or arguments) made against
something or to effect a change (the colonial secretary made ~s
on behalf of the Uitlanders —Ethel Drus) (2) : a usu. formal
protest : EXPOSTULATION, REMONSTRANCE (the tenants had de-
cided not to pay the increase until they had made ~s to the
Native Affairs Department —H.S. Warner) e (1) : an image
or idea formed by the mind (2) : an idea that is the direct ob-
ject of thought and the mental counterpart or transcript of the
object known by means of it 2 : the act or action of repre-
senting or the state of being represented : as a : the action of
representing (as by portrayal or delineation) in a visible image
or form (a strict ~ of nature would require that it curve
—Hunter Mead) (entrance of light rays into the eye and their
final ~ in the brain —F.A. Geldard) (an exponent of ~ rather
than abstraction in art) b : the action of setting forth or plac-
ing before another (as by a statement, account, or discourse)
esp. with a view to affecting action (the ~ of student opinion
to the administration —*Seton Hall Univ. Bull.*) (yielding to the
artful ~ of ambitious hypocrites —Sir Walter Scott) c (1) : the
action or fact of one person standing for another so as to have
a greater or less extent the rights and obligations of the per-
son represented; *specif* : the relation of an heir to his predeces-
sor when both the rights and obligations of the predecessor
devolve upon the heir (as in Roman and Scots law) (2) : the
substitution of an individual or class of individuals in place of
a person (as when a child or children take the share of an
estate that would have fallen to a deceased parent) d (1) : the
action of representing or the fact of being represented in a
legislative body (~ of territory . . . rather than of population
—G.A. Graham) (raise the issue of Chinese ~ —*New States-*
& Nation) (the ancient world knew nothing of the device
of ~ —Woodrow Wilson) (2) : the action or fact of being
represented in some other grouping, body, or aggregation (in
... such universities and colleges there is no ~ of any non-
West European culture —*Amer. Council of Learned Soc. News-*
letter) (~ of classic issues in the collection) e (1) : the action
or process by which the mind forms an image or idea of an ob-
ject (2) : recurrent as opposed to simple presentation 3 : the
whole body of persons representing a constituency (when
vacancies happen in the ~ of any state in the Senate —*U. S.*
Constitution) (chosen head of the U. S. ~ —*Current Biog.*)
(small ~s from the Baltic states —Henry Giniger)
