Subject: Re: MoTv1 Account Suspended

Hi Cliff

They need to file a DMCA counter-notice with us, which we send on to the party that sent the takedown (Viacom). I found an email from them and will respond to it with the requirements for that counter-notice right away. The information is also on our website at http://youtube.com/t/dmca_policy under "Counter-Notification." You can tell them that we can't legally reinstate the video unless they go through that process or the takedown is retracted. If they have a relationship with Viacom or any of its subsidiaries, it would be great if they harassed Viacom about this. I will also separately be sending a request to our friend over at BayTSP to review the takedown of that url. Please do not communicate that to them.

Sorry about all this

-jacob
