

On February 6, 2009, plaintiff Tokyo Electron Limited ("TEL") moved to proceed *ex parte* in their application for a right to attach order against Spansion, Inc. ("Spansion"). On February 10 the court denied the motion, finding that TEL had not showed that grievous harm or irreparable injury would occur if Spansion were given notice. On February 11, 2009, TEL moved again ex parte for an accelerated hearing. The court again denied the motion, finding no justification for permitting TEL to proceed ex parte. It now appears that Spansion has been properly served, though Spansion has yet to enter an appearance, and as of their last filing TEL states that they have not received any response from Spansion.

Spansion does appear to be having financial problems, and there is some indication that those problems are worsening. The court therefore grants TEL's motion to shorten time in which to hear the application for right to attach order. The parties shall appear for a hearing on the application at 9:00 a.m. on Friday, February 27, 2009. Spansion's shall file an opposition to the application for a right to attach order by Wednesday, February 25, 2009. TEL must serve Spansion with a copy of this order by Friday, February 20, 2009 by overnight mail at both of the following addresses:
