

# **EXHIBIT 17**

Congratulations, you and your MacBook  
were made for each other.

**Built-in microphone**

Capture sounds with the microphone (located to the left of the iSight camera) or talk with friends live over broadband using the included iChat AV application.

**Built-in iSight camera and camera indicator light**

Videoconference with others using iChat AV, take pictures with Photo Booth, or capture video with iMovie. The indicator light glows when the iSight camera is operating.

**Built-in stereo speakers**

Listen to music, movies, games, and multimedia files.

**Battery**

Run the MacBook using battery power when you are away from a power outlet.

Removing the battery gives you access to the memory in your MacBook.

**Trackpad and trackpad button**

Move the pointer with one finger on the trackpad, or scroll with two fingers. Tap the trackpad to click or double-click a selection.

**Sleep indicator light**

A white light pulses when the MacBook is in sleep.

**Infrared (IR) receiver**

Use an optional Apple Remote (sold separately at [www.apple.com/store](http://www.apple.com/store)) with the IR receiver to control Front Row and Keynote on your MacBook from up to 30 feet (9.1 meters) away.

**Slot-loading SuperDrive**

Your optical drive can read and write to standard-size CD and DVD discs.

**Power button**

Turn your MacBook on or off, or put it to sleep. Hold down to restart your MacBook during troubleshooting.

## Using the Trackpad and Keyboard

Use the trackpad to move the pointer and to scroll, tap, double-tap, and drag. How far the pointer moves onscreen is affected by how quickly you move your finger across the trackpad. To move the pointer a short distance, move your finger slowly across the trackpad; the faster you move your finger, the farther the pointer moves. To fine-tune the tracking speed in System Preferences, choose Apple (mac) > System Preferences, click Keyboard & Mouse, and then click Trackpad.

Here are some useful trackpad and keyboard tips and shortcuts:

- *Secondary clicking or "right-clicking"* lets you access shortcut menu commands.

To set this option, select "Place two fingers on trackpad and click button for secondary click" in the Trackpad pane of Keyboard & Mouse preferences.

You can also secondary click by holding down the Control (ctrl) key while you click.

- *Two-finger scrolling* lets you drag two fingers to scroll quickly up, down, or sideways in the active window.

To set this option, select "Use two fingers to scroll" and "Allow horizontal scrolling" in the Trackpad pane of Keyboard & Mouse preferences.

- *Forward deleting* deletes characters to the right of the insertion point. Pressing the Delete key deletes characters to the left of the insertion point.
- To forward delete, hold down the Function (fn) key while you press the Delete key.
