Re: Toschi v. County of San Mateo, et al.  
USDC – Northern District, Case No. C-07-3625

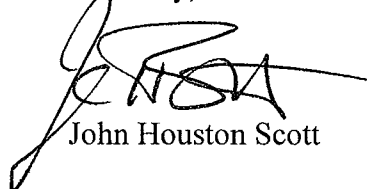

Dear Mr. Swope:

I was hoping to be able to talk to you regarding the following issues. Since those efforts have failed I am writing to address the following issues:

1. Is there an outside copy service that your office uses? If so, we would like to make arrangements to have the 10,000 documents copied at that location. If you do not have an outside copy service that you rely upon, we would like to have the records copied at a local copy service which is mutually agreeable.
2. We previously proposed that you reconvene the depositions of the plaintiffs on October 8, 2008. It appears that that option was not acceptable. Please propose another date to reconvene their depositions since you have noticed other depositions for October 8<sup>th</sup>.
3. We intend to provide you with amended supplemental answers by the end of the day on Monday, September 29. I propose that you wait to receive our responses before bringing a motion. I am primarily working on the amended responses and other commitments have caused a delay in getting this completed.

I look forward to talking to you regarding the above sometime later today.

Sincerely,

John Houston Scott
