100. Samsung repeats and realleges the allegations in paragraphs 1-99 as though fully set forth herein.

101. The European Telecommunications Standards Institute and other 2G and 3G standards bodies in which Ericsson has been involved (collectively, "ETSI") are standards-setting bodies responsible for standardization of information and communication technologies for the benefit of ETSI members and third parties.

102. As a member of ETSI, and to comply with ETSI's Intellectual Property Rights ("IPR") Policy, Ericsson represented to ETSI, ETSI members, and third parties that it would grant irrevocable licenses to the purported Ericsson essential patents on fair, reasonable, and non-discriminatory ("FRAND") terms and conditions.

103. Ericsson's ETSI membership and activities, including the declarations it made to comply with ETSI's IPR Policy for the purported Ericsson essential patents, created an express and/or implied contract with ETSI and/or ETSI members including an agreement that Ericsson would license those patents on FRAND terms and conditions. Under ETSI's IPR Policy, third

parties that are not ETSI members also have the right to be granted licenses under those patents on FRAND terms and conditions.

104. Ericsson has refused to grant Samsung a license to the Ericsson Patents on FRAND terms and conditions.

105. Ericsson's refusal constitutes a breach of its contractual obligations to ETSI and/or ETSI members and deprives third parties of their right to be granted licenses under the Ericsson Patents.

109. Ericsson's ETSI membership and activities, including the declarations it made to comply with ETSI's IPR Policy for the purported Ericsson essential patents, created a false and misleading impression among ETSI, ETSI members (including Samsung), and/or third parties that Ericsson would license those patents on FRAND terms and conditions.

110. In reliance on Ericsson's representations, Samsung made substantial investments in the research, design, development, manufacture, and marketing of mobile handsets.

111. As a result, Samsung will be harmed materially if Ericsson is permitted to assert its alleged patent rights to prevent Samsung from importing and/or selling mobile handsets.

112. Pursuant to Rule 38 of the Federal Rules of Civil Procedure, Samsung demands a trial by jury on all issues so triable.

9. Ericsson be enjoined from further infringement of the Samsung Asserted Patents;
10. Ericsson be enjoined from seeking any royalties in this Court or any forum or otherwise for the purported Ericsson essential patents in excess of FRAND terms and conditions;

11. Ericsson be enjoined from seeking in this Court or in any forum any injunctive relief related to the purported Ericsson essential patents until it is determined that Ericsson has granted to Samsung and its affiliates a license for such Patents under FRAND terms and conditions;

12. Judgment be entered requiring Ericsson's specific performance under its contract with ETSI and/or ETSI members to grant a license to Samsung under the purported Ericsson essential patents on FRAND terms and conditions;

13. Judgment be entered that Ericsson is estopped from asserting the purported Ericsson essential patents against Samsung;

14. Judgment be entered awarding Samsung pre-judgment and post-judgment interest;
