David Rockwell for Maya Romanoff Collection

The first David Rockwell for Maya Romanoff Collection has emerged from a collaborative exploration of theater set design, painting techniques and natural materials. *Stitched Inspired*, by Weathered Walls highlights the beauty of craftsmanship and the traditional art of paper-making. Hand-dyed paper that resembles fine lacquered leather forms the backdrop for rows of stitching, resulting in a stunning covering that is rich in dimension, both visual and textural. It is offered in 30" x 9' rolls, in ten different colors and three patterns of stitching.

iPhone

iPhone combines three products: a mobile phone, a widescreen iPod and the internet. iPhone also introduces an entirely new user interface based on a revolutionary 3.5-inch multi-touch display that allows users to control it with just a tap, flick or pinch of their fingers. The display is made of optical-quality glass for superior scratch resistance and clarity. Changes to volume, muting the ringer and putting an incoming call through to voicemail can be done using discreet buttons on the top and side of iPhone. iPhone comes with 8GB of flash memory.
