Preloaded Entertainment

Your Samsung Exhibit™ 4G is always ready to provide you with tons of entertainment. With the pre-loaded AllShare app you can wirelessly connect and play your media on another device. The Exhibit™ 4G comes with games already pre-loaded, and you'll have instant access to Samsung Media Hub where you can buy or rent tons of movies and shows. Enjoy your favorite programs anytime with T-Mobile TV, and your favorite tunes on Slacker Radio. With T-Mobile's 4G network, you don't have to worry about stalling or buffering.

Easy to Use Interface Android 2.3, Gingerbread

The Exhibit™ 4G runs on the Android™ 2.3, Gingerbread operating system for the utmost in speed and efficiency. It's extremely advanced, yet also very easy to use. You can customize your screen to fit your personality, and have access to over 200,000 apps on the Google Play™. Gingerbread is perfect for optimizing Google services such as Google Voice Search, Gmail, Google Maps and more. The Exhibit™ 4G also functions as a mobile hotspot to connect other devices wirelessly to the internet, and you can also make calls with Wi-Fi when needed.

Front-Facing Camera and Pre-Loaded Qik for Video Chat

Now you can look each other in the eye when you talk. Video chat makes for a more robust communication experience. The Exhibit comes pre-loaded with Qik, the app that makes video chat possible between similar devices.

Multiple Messaging

This smartphone can send and receive messages in multiple ways. You can keep track of personal email or your work email. The Exhibit comes with SWYPE, so you can type by simply dragging one finger from letter to letter. You can send text messages, instant messages or send a photo or video. It's perfect for quick updates to Facebook (which is pre-loaded) or any of your favorite social networks.

“Maybe not top of the line but a great midrange Phone!”

The Exhibit may not have a super amoled screen at 4 inches or a dual core processor but it is a great midrange android phone with some top features. The screen has great resolution with the 3.5 inch size and pixel density. The 1ghz processor handles most apps with a breeze. All the connection types ...[Read More >](#)
