A faster phone on a 4G network

The fastest, state-of-the-art networks are 4G, so naturally, the Epic™ 4G Touch is designed for speed. With 4G, every download, upload, app, game, connection and feature runs almost as fast as you can push the button.

The brightest, most colorful screen

The Epic™ 4G Touch has a spacious 4.52" Super AMOLED™ Plus Screen that's preferred 2 to 1 in side by side tests with the current leading smartphone†. Notice we said "current," because when you see the deeper, richer color with unmatched detail and contrast, you're going to want your very own Epic™ 4G Touch. The secret is that the Super AMOLED™ Plus has the ability to deliver brilliant colors with the most contrast, providing a vivid and crisp viewing experience. It's a visual treat you won't get from other screens. You don't even have to be directly in front of it to see a perfect image, thanks to its superior viewing angle. It's the best. That's right. We said it. It's the best.

Watch Video >>

A faster phone with a 1.2 GHz dual core processor

We've virtually eliminated waiting and disruptions by installing a 1.2 GHz dual core processor. And with the 4G network, movies don't stall, websites don't drag and time never stands still.

Entertaining with movies and TV shows

With Samsung Media Hub, thousands of hit movies and TV shows are under your control and ready to watch. And of course, they look awesome on our big, beautiful screen. So now you have the power to demand the kind of entertainment you want at the moment. Thanks to progressive download optimized for mobile phones, you can begin watching movies in seconds. If you love gaming, Media Hub also offers console like gaming experience* with a wide selection of the most popular games – even those based on Adobe® Flash® Technology.

Shoot super sharp photos and videos

The rear facing camera is an amazing 8 MP

Specifications

- Widgets, TouchWiz 3.0, Social Hub, Accelerometer, Supported Languages: Spanish

1080p camera for shooting super sharp photos and videos. With a cable, you can output your games, videos and Media Hub movies to your HD TV for another level entertainment. As for video chat, real communication is nonverbal. Expressions and gestures tell you more than just the voice alone. The Epic™ 4G Touch has a 2 MP front facing camera so you can look the person directly in the eye.

Check out our camera tips and tricks and start enjoying dazzling, detail-rich photos in a snap.

Sync and share digital content with AllShare™

Transform your digital living experience by enjoying your content on multiple screens, anytime, anywhere. You can wirelessly stream your movies, music and photos from your smartphone, or tablet to your Smart TV, PC and to other DLNA Certified® devices. Samsung AllShare™ seamlessly puts your music, memories and videos in harmony.

Optimized for business

Epic 4G Touch supports Exchange ActiveSync® for push email, contacts, and calendars, along with features like global address lookup (GAL), HTML email view, and the ability to create and respond to meeting requests. And if you need to send or request documents while you're out of the office, Galaxy S II can handle that with Polaris™ Office, which lets you view, edit, and create Microsoft®-compatible documents, spreadsheets, and presentations.

This device also offers Security and IT departmental control via device management, on-device encryption and remote lock and wipe. Another handy travel feature is the Sprint Hotspot, which lets you wirelessly share your internet connection during a meeting or a workshop with up to eight other devices.
