Galaxy S with Android™ 2.1 OS

Do you want the whole world in your hands? How about the whole universe? Tens of thousands of apps populate Google Play™— everything from popular games to productivity tools to constellation maps. Powered by the latest Android platform (and upgradeable to 2.2), this phone fully integrates with Google Mobile Services. You're now at one with your Gmail account, Google Maps, YouTube videos and more.

Ultra-slim Design

It's amazing how much technical wizardry fits into such a sleek package, less than half an inch thick.

4.0" Super AMOLED Touch Screen Display

This brilliant screen gives you sharp, cinema quality images, even in bright sunlight. It eliminates the need to find a dark place to read your screen. And it's super sensitive to the slightest touch of your finger.
