Product Description

Your eyes have never seen such rich, luscious color. And at 1280x800, the resolution is well above normal HD standards. Of course, everything about the Tab is above normal. The dual-core 1.5 GHz processor and AndroidTM 3.2, Honeycomb platform are the ultimate team when it comes to speed. And just wait until you hear about the network they run on. Better buckle up. There are lots of tablets on the market that can't run Flash. But "can't!" is word rarely associated with the Tab. Your Tab is Flash-enabled, so you can enjoy all 175 million websites and games that are off limits without Flash. Features: Brilliant 8.9" HD Widescreen (1280x800) Display Slim and lightweight at 15.9 ounces light and 8.6mm thin Fast Multi-tasking and Browsing with Dual Core Processor and 4G LTE Speed Customize with AndroidTM 3.2, Honeycomb and TouchWiz® UX

★☆☆☆☆ **Rip-Off Alert** April 25, 2012

By Brett J. Wade

Amazon Verified Purchase

This item is clearly labeled as a 4G tablet, but is actually a Wi-Fi only tablet. I've had a nightmare of a time trying to get my money back for this and the company (Worldwide Distributors) persist in telling me I should have read the fine print and they can't accept returns despite the fact that nowhere do they indicate it is not compatible with ANY 4G network and is Wi-Fi only. If you are looking for a 4G tablet you can use with your local carrier, this isn't it. It is Wi-Fi only.

★★★★★ **Great Tablet! Very fast connection!** January 20, 2012

By iDroidz

I originally had iPad 2 and it was okay, but really hated the fact that it did not have flash. Now this one I must say its quite impressive and now that they have a sale going on at AT&T even more. Its fast, has beautiful display and has flash player, also love the customization(though it take a little to get use too). Really recommend. Or just keep waiting for a few months Im sure 2012 has many new gadgets under its sleeve.
