### Here's something you'll find entertaining.

The Galaxy Tab™ 7.0 Plus provides a galaxy full of quality, all-star entertainment. The pre-loaded Samsung Media Hub gives you instant access to thousands of movies and TV shows. You also get the Samsung Social Hub, which gives you live updates from all your favorite social sites. Surf the internet just like on a PC, and get the full enjoyment of Adobe® Flash® Player compatible sites, games, and videos.

Even when you're watching your home big screen, you'll be enjoying your Tab. With a built-in IR blaster and the very intuitive, very handy Smart Remote powered by Peel, it could quickly become your favorite – and maybe your only – remote control. Smart Remote allows you to instantly find and watch your favorite TV shows and discover new shows based on your preferences, all with the tap of a screen. Peel allows users to control any home entertainment system, no hardware or cables required.

### Android with a touch of TouchWiz®.

Galaxy Tab 7.0 Plus runs on Android™ 3.2, Honeycomb, with access to over 250K apps on Android Market™. And it's running along with the latest version of Samsung's own TouchWiz. That means you'll have even more ways to customize your Tab and get to your favorite content. TouchWiz Live Panels gives you the live content you want right on your magazine-like home screen, including email, Websites and your social networks. The Mini Apps Tray keeps your everyday features close-at-hand and very handy. And the Notification Panel keeps you completely up-to-date.

### Our latest hardware, our greatest performance.

The Galaxy Tab 7.0 Plus is the result of generations of Samsung engineering and design. It's only .39 inches thin, with a 7" display. And that's just for starters. It also boasts a 1.2GHz dual core processor for blazing speed, a 4000mAh battery for more time between charges and an elegant, world-class design. Yes, this Tab was built to fit in your hand and fit all your computing needs. But it was also built to make you look good using it.

### “Love the Size”

★★★★★

I bought the Samsung Galaxy Tab 7.0 Plus for the size. I opted for the WiFi only version to save money and I am very happy with my purchase. I use it to connect to conduct my personal home based business while I am out an about. The color is good, the features are good - it functions similar to my a... [Read More »](#)

### “Perfect”

★★★★★

I bought this for school as an easier way to access documents and make quick edits. instead of hauling my laptop everywhere with me. I love this product I use it everyday. From checking emails, editing documents, reading books, checking calendar, paying bills. Best tablet I could have bought!... [Read More »](#)

### “WOW! SMALL AND PACKED with POWER!!!!”

★★★★★

I have the iPad 2 and like to carry it around but it's too big and bulky. I wanted something I could put in my pocket. I had an iPod but wanted something a little bigger. I tried the Samsung Galaxy 5.0 Player and I'm not sure if I got a lemon or what but the wifi kept disconnecting intermittently an...[Read More »](#)
