Beautiful Color and Sharpness

The Samsung Galaxy Tab™ 7.7 is the first tablet with a Super AMOLED™ Plus display. Colors are richer, contrast is deeper, and details are sharper than any competitor's display. That's what happens with the astounding 1280 X 800 pixel resolution. It makes videos, games and apps look more cinematic and lifelike. Whether you're reading an ebook or emails, your text is sharper and more legible to make reading easier on your eyes.

Your Personal Home Theatre Manager to Control Your Entire System

Your Samsung Galaxy Tab 7.7 has preloaded apps and features to seamlessly integrate with your home theater. The Smart Remote** helps find your favorite TV shows for you, and recommends shows you'll like, based on your preferences. The Tab 7.7 also has a built-in infrared blaster, so you can use it instead of your normal remote. It also controls your DVR, DVD player and your stereo, so now it can replace all those remotes!

Green guides show you the way

In an effort to provide our customers with the latest in technology and the best user-experience, we've provided a new environmental-friendly alternative to a printed paper guide. Virtual Guides provide a "one-stop" support experience with everything from User Guides, Support Videos, Commercials, and Simulations. Take the our next step in going green.
