

EXHIBIT A

1 declaration exhibits, expert report exhibits, and trial exhibits from the recent ITC hearing. No
2 matter how you look at it, this collection of documents cannot be considered one exhibit.

3 As another example, Exhibit 26, which Apple claims will be sponsored by its expert, Mr.
4 Musika, consists of an elaborate chart containing selective and biased quotations from--or
5 comments about--a total of 123 separate and unrelated documents. The total number of
6 documents quoted in this one exhibit almost exceeds the number of permitted exhibits. And
7 Exhibit 27 consists of a chart titled "Summary of Select Document Reflecting Comments on the
8 Smartphone and Tablet Marketplace." The chart consists of 40 separate line items and each line
9 item contains direct quotations from random third party and Samsung documents that bear no
10 relation to each other. Many of the documents being quoted from were marked as separate
11 exhibits during depositions taken in this matter. As these examples show, Apple's efforts to
12 shoehorn the content of a multitude of documents into a single exhibit is a clear violation of the
13 Court's order.

14 In the same vein, Apple's Exhibit 5 contains select quotations from nine press reports
15 followed by the reports themselves. Exhibit 6 contains quotations from 18 press reports followed
16 by the reports themselves, and Exhibit 17 contains quotations from 28 different news articles and
17 the articles themselves. Each of the reports and articles within these exhibits is a separate, free-
18 standing document and should count as *one* exhibit.

19 Apple has also engaged in egregious conduct with video compilations. Exhibit 12 consists
20 of 68 different video files, each containing a separate iPhone advertisement. Likewise, Exhibit 14
21 is comprised of 27 media clips regarding the iPad and iPhone. Once again, each video file is a
22 separate exhibit.

23 Apple has done the same thing with improper compilations of pictures and documents
24 related to alleged design alternatives. Exhibit 10, with a title of "Alternative Designs" on the first
25 page, is a 141-page exhibit consisting of numerous images of 13 different products. Exhibit 20 is
26 a 178-page exhibit with headings such as "Smartphone Alternative Designs," "Tablet Alternative
27 Designs" and "GUI Alternative Designs." It includes images and documents relating to 33
28 additional products. These alleged alternative designs are analogous to the prior art references that

1 Samsung included on its exhibit list individually with separate exhibit numbers because they are
2 separate products or other references. If Apple were playing by the rules like Samsung did, then
3 each alleged alternative product would be a separate exhibit.

4 None of these exhibits is permissible as a Federal Rule of Evidence 1006 summary.
5 Indeed, Apple appears to concede this point for all but one of its multi-document "compilations"
6 because Apple identified only Exhibit 123 as an "FRE 1006 summary" in its exhibit list. Federal
7 Rule of Evidence 1006 provides that a party may "use a summary, chart, or calculation to prove
8 the content of voluminous writings, recordings, or photographs that cannot be conveniently
9 examined in court." Fed. R. Evid. 1006. Federal Rule of Evidence 1006 does not apply to
10 documents that are straightforward and are not voluminous. *Highland Capital Mgmt., L.P. v.*
11 *Schneider*, 551 F. Supp. 2d 173, 190 (S.D.N.Y. 2008) (FRE 1006 summaries may only be used
12 when the underlying evidence is so voluminous that it cannot conveniently be examined by a jury
13 and cannot be used where the underlying evidence is "relatively straightforward"). It is typically
14 used to summarize "concrete, mathematical, objective information [that] is capable of accurate
15 presentation in chart or summary form." *U.S. v. Stone*, 2012 WL 441168, at *5 (E.D. Mich. Feb.
16 10, 2012); *see also United States v. Johnson*, 594 F.2d 1253, 1255 (9th Cir. 1979) ("The purpose
17 of Rule 1006 is to allow the use of summaries when the volume of documents being summarized
18 is so large as to make their use impractical or impossible.") To be sure, Exhibit 123 is no
19 exception to Apple's improper exhibit designations. The five freestanding documents contained in
20 Exhibit 123 are not voluminous, are straightforward, and can be "conveniently examined in court."
21 Accordingly, the Court should strike exhibits 1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 17, 18, 19, 20,
22 21, 22, 25, 26, 27, 28, 29, and 123 because Apple has violated the Court's order limiting the
23 number of exhibits for each side to 125. If the Court decides to permit any portion of these
24 exhibits, Samsung should not be disadvantaged because it played by the rules. Instead, Samsung
25 should be granted the right to include 498 additional exhibits on its exhibit list.
