

# EXHIBIT B

1                    **Exhibit B - Samsung's General Objections to Apple's Proposed "Joint" Exhibit List**

2                    Samsung generally objects to Apple's Exhibit List for all the reasons discussed in  
3 Samsung's motions *in limine*, filed on July 5, 2012. Samsung also reserves the right to raise  
4 additional objections during the proceedings, depending on the manner in which an exhibit is  
5 offered into evidence.

6                    **Samsung's Objection To Apple's Failure To Submit A True Joint Exhibit List**

7                    The July 9, 2012 Minute Order and Case Management Order recognizes that the parties  
8 "agree to joint stipulated exhibits, such as accused devices and file histories, that shall not exceed  
9 60 exhibits total." Despite this directive, Apple served a proposed joint exhibit list that contains  
10 physical exhibits selected by Apple (7 Apple products and 32 accused Samsung products),  
11 certified copies of Apple's asserted patents and file histories for Apple's asserted patents, but does  
12 not include any of Samsung's asserted patents or the file histories for those patents. Even though  
13 the Court stated at the June 29, 2012 hearing that prior art could be placed on the joint list, Apple's  
14 proposed joint exhibit list also does not include a single one of the prior art references that  
15 Samsung asked Apple to include on the joint exhibit list. Apple's inclusion in its "joint" list of  
16 only exhibits it wishes to use at trial and its refusal to include exhibits requested by Samsung is  
17 contrary to the Court's intent that the joint exhibit list contain stipulated exhibits and benefit both  
18 parties equally. In contrast to Samsung's proposed joint exhibit list, there is nothing joint about  
19 Apple's list and it should be stricken for this reason.
