

DISTRICT COURT
ICT OF CALIFORNIA
E DIVISION
) Case No.: 11-CV-01846-LHK
ORDER REGARDING OBJECTIONS
)))))))))
,))

The Parties have filed multiple rounds of objections regarding the testimony of witnesses Bressler, Kare, Denison, and Schiller. See, e.g., ECF Nos. 1462, 1466. The Court has already ruled on several of these objections on July 30, 2012, and July 31, 2012. See, e.g., ECF Nos. 1511 and 1520. The parties filed additional objections to these same witnesses on July 31, 2012. See, e.g., ECF Nos. 1518, 1521, and 1526. The parties then filed yet a third round of objections on August 2, 2012, covering many of the same witnesses, as well as adding a new witness, Mr. Forstall. See ECF Nos. 1540, 1541. The parties then filed a fourth round of corrected objections on August 2, 2012, regarding the same witnesses. See ECF Nos. 1542, 1543.

In light of these multiple rounds of objections on the same four witnesses, the Court will assume that the objections filed on July 31, 2012 have been superceded by the corrected objections filed on August 2, 2012, at ECF Nos. 1542 and 1543, and will only rule on these objections.

In the future, the parties may only file one set of objections and responses to a witness's exhibits. Additionally, for all objections related to untimely disclosures, or exhibits that have previously been stricken by either this Court or Judge Grewal, the parties shall indicate the docket number and the page number of the controlling order, as well as the docket number and the page number of the controlling motion to strike or exclude. Finally, in the future, should the parties need to file corrected objections, the parties must refile attachments with the corrected objections.

IT IS SO ORDERED.
