1 in its entirety and it is different from  
2 first, second and third portions.

3 Q. What if we exceed the threshold?

4 A. If we exceed the threshold, then we don't  
5 get the bounce-back effect. There is no  
6 reversing of the direction or different  
7 direction, which is all the claim calls for,  
8 but bounce-back typically has this notion of  
9 the opposite direction. You are simply going  
10 to scroll the file so that most of it and  
11 eventually all of it becomes this gray no  
12 man's land.

13 Q. In which case there is no snap-back, correct?

14 A. There is no snap-back in any of the prior  
15 art, or I believe the patent itself and its  
16 specification if you go beyond a certain  
17 threshold.

18 Q. Looking at the blue button with the blue  
19 bar --

20 A. That's the chrome I was referring to  
21 earlier.

22 Q. That chrome is adjustable on the 1950,  
23 correct?

24 A. It is. Some of it is. In particular, in  
25 the E-mail application, I can move it up and

1 follow-up, there is follow-up. But I  
2 appreciate your time, Dr. van Dam. And we  
3 are happy to close the deposition now.

4 MR. BRIGGS: Great. Thanks.

5 THE WITNESS: Very good. Thank  
6 you.

7 THE VIDEOGRAPHER: It is 6 p.m.,  
8 we are off the record. This concludes the  
9 videotaped deposition of Andries van Dam on  
10 September 14, 2011.
