Product Description

ORIGINAL UNLOCKED RELEASE 3G IPHONE. NO CARRIER LOGO OR BRANDING

With fast 3G wireless technology, GPS mapping, support for enterprise features like Microsoft Exchange, and the new App Store, Apple iPhone Black 8GB mobile phone 3G puts even more features at your fingertips. Like the original iPhone, a combination of three products in one revolutionary phone, a widescreen iPod, and a breakthrough Internet device with rich HTML email and a desktop-class web browser. The Apple iPhone 8GB mobile phone 3G. It redefines what a mobile phone can do again. The 2.0 software is, in many ways, the most important feature of the iPhone 3G. And it's excellent. The extra width also makes typing on the iPhone with two thumbs slightly more comfortable by giving the thumbs a bit more room on which to roam. As this Apple iPhone Black 8GB mobile phone is sim free even after any iTunes or updates this phone will NEVER Lock unlike many others on the market.

Amazon Verified Purchase ([What's this?](#))

This review is from: Apple iPhone 3G 8GB - Black - Unlocked

When I originally purchased for the phone, I opted for expedited shipping. Well that didn't happen because it took almost two weeks to get here instead of the 3-5 days that was promised with expedited shipping. After I had finally gotten the phone I connected it to my PC. It did a search and needed to be updated to the latest version, which had been accessible for quite a while. While I was running the update, the phone froze and was not doing anything. I took it to the nearest apple store for them to tell me that the software was screwed up on the phone and that the battery doesn't hold a charge at all. I had the phone to charge for more than five hours, and it was getting ready to die after only two. I then had to purchase a new phone with the store instead. Poor poor purchase.

not the best, March 25, 2011

By [T. Hartmannsson](#) - [See all my reviews](#)

Amazon Verified Purchase ([What's this?](#))

This review is from: Apple iPhone 3G 8GB - Black - Unlocked

I had two issues after receiving the iphone, one the center or home button was hard to push, after only one day of use - the screen displayed the itunes logo and a usb cable, i tried turning on/off several times and tried reloading thru itunes-failed due to iphone being unlock, this according to vendor i purchased the phone from. The vendor seemd kind and concerned about addressing my two issues, so I sent back the iphone for him to fix at my own expense, he reloaded software and stated in a letter I got with the repaired phone to NEVER update your iphone on itunes, and as far as the center button or home key, the vendor stated it seems to be ok, thus, no it was not fixed, so after spending several hundred dollars for this used iphone that was advertised as in great shape,was in my opinion not, buyer beware- software is one big issue with unlocked phones and performance or buttons are another, I used the iphone for another week and got a pineapple on the screen, so long story short, I ended up just buying buying a iphone thru Apple store.

Buy from this seller

I was sceptical about buying this from 3rd party and not at&t. Didn't want their hefty plans. Meant to use it with t-mobile. I bought a 3G version first. [Read more](#)

Product was locked

I bought this product because it was advertised as unlocked. In fact it was locked. That was cheating and I did not expect from a company that does business with Amazon.com. [Read more](#)
