## Harness Hyperspeed

At your command: a 1GHz processor and a 4G LTE network that puts all others to shame. Download. Upload. Stream. Browse. Droid Charge makes you a wait-time-vanquishing velociraptor, an electromagnet of media — willing it all into the palm of your hand almost as fast as you can say “You’re mine.”

## The Eyes Have It

Fire up a 720p HD video capture array that lets you grab hold of all you behold. Witness a 4.3" Super AMOLED Plus display so sharp, so brilliant, it'll recalibrate your retinas. Plug in with HDMI media sharing that shows the big screens how it's done.

## Ultimate Movie/TV Watching

Become a walking megaplex with a vast and vivid screen. Pound your brain's pleasure center with non-stop movie magic and TV intensity, downloading and streaming at speeds that make your entertainment have to keep up with you for a change.

## Tap Into The Apps

Bulldoze boredom and become a paragon of productivity with an arsenal of Android Market and V-CAST Apps for Droid Charge — news, sports, work, games — everything you're into. Go to the VZW Media Store to learn more about V-CAST Apps. Go to the Android Market to learn more about Android Apps and download over the air.
