Brett,

Apple will produce the 035 CAD in pdf form to you by ftp this weekend as soon as possible.

We are working on getting the file to open at the escrow facility in native form. We should have it worked out by Tuesday.

Jason

Jason,

Please respond to my emails below. After several reviews, we are still unable to find the CAD files of the 035 model that Apple has indicated were added to the review computer at the escrow facility. This is now the fourth time we're asking for this basic information, and we have yet to receive any response. As I'm sure you can appreciate, we do not want to continue wasting time travelling to the review site and hunting for these documents.

Regards,  
Brett

Hi Jason,

I don't believe we've received a response from you yet. Can you please provide guidance on the questions below? We've been unable to locate certain files you've indicated are at the escrow facility. Thank you.

Best regards,  
Brett

Jason,

Can you please advise as soon as possible regarding my questions below? Thank you.

Best regards,  
Brett

How many pages of each kind of paper are you requesting? We can send a messenger shortly.

I will need to have Jason follow-up with you regarding the specific location of the new 035 files and the Alias program.

Hi Mia,

Can you please arrange for more paper to be delivered to the escrow facility as soon as possible? There appear to be thousands of files added to the computer, but there are only about 30 sheets of the Outside Counsel Only paper, and 80 sheets of AEO paper.

Also, can you please confirm which directory contains the new 035 model files? The Dec. 21 folder appears to contain just the announced products and the Dec. 23 folder only has two files that are visible in the directory, neither of which will open:

q63\_tabletB\_1024.igs  
tab\_30pin\_1024.2

Are those two folders the only two new directories?

Also, the Alias program is consistently crashing. Please advise if there is a solution for this.

Regards,  
Brett

Hi Mia,  
Do you know how many additional CAD files we should expect to see?  
Thanks,  
Brett
