Re: *Apple v. Samsung Elecs. Co. et al.*, Case No. 11-cv-1846 LHK (N.D. Cal.)

Dear Jason:

I write to follow up on several items which we have recently discussed.

First, on our meet and confer Wednesday, Nov. 2, you indicated that Apple would be producing the source code for Mac OS 10.0, a working computer loaded with Mac OS 10.0, and the source code for SuperClock. Please make these available no later than November 11, and let us know when we can expect them.

Second, Apple indicated on the same meet and confer that it would be producing documents previously produced in the 794 action in ND Cal by the end of last week. This has not yet been done. Please produce these documents by November 11.

Third, in your letter dated October 31, 2011, you indicated that Apple would be supplementing several interrogatories. Please supplement these interrogatories no later than November 11. In addition, please confirm that you do not intend to supplement any additional interrogatories, other than those in these supplements, at this time.
