“ Got this phone less than a week ago and already returned it. i work in a casino and get very little reception there with this phone. Cant make phone calls and can never get connected to internet. 4g 3g keeps shutting down. my 4 yr old htc hero always got a connection and never did i have problems making calls. this phone sounded good. maybe i got the bad phone but i could not take it any longer. guess its apple time. ”

SKINNY5766 ★☆☆☆☆

“ I'm a firefighter and was concerned about how the phone would hold up. After the first week it has performed flawlessly and is durable. Battery life seems to be dependant on how much you play with it. Normal usage will last all day. I really like the features and the availability of apps. ”
