IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of:

ANDRE *et al.*

Appl. No.: 29/282,833

Filed: July 30, 2007

For: **Electronic Device**

Confirmation No.: 3463

Art Unit: 2916

Examiner: Eland, Bridget L.

Atty. Docket: 2607.0600001(P4984USC3)/TGD/AKS

Reply to Election Requirement and Amendment Under 37 C.F. R. § 1.115

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the Office Action dated July 21, 2008, Applicants submit the following Election, Amendment and Remarks. The Amendment is provided in the following format:

- (A) Each section begins on a separate sheet;
- (B) Starting on a separate sheet, amendments to the specification by presenting replacement paragraphs marked up to show changes made;
- (C) Starting on a separate sheet, the Remarks.

It is believed that extensions of time are not required, beyond those that may otherwise be provided for in accompanying documents. However, in the event that additional extensions of time are necessary to prevent abandonment of this application, then such extensions of time are hereby petitioned under 37 C.F.R. § 1.136(a), and any fees required therefor are hereby authorized to be charged to our Deposit Account No. 19-0036.

Election

In reply to the Office Action dated July 21, 2008, requesting an election of one invention to prosecute in the above-referenced patent application, Applicants hereby provisionally elect to prosecute the invention of Embodiment 12. This election is made with traverse, but without prejudice to or disclaimer of the other embodiments disclosed.

Applicants specifically traverse the groupings and submit that each embodiment is patentably distinct from the other embodiments because of the changes in appearance created by reducing certain design features to broken lines, as pointed out by the Examiner at page 3 of the Office Action dated July 21, 2008.

Amendments to the Specification

Please amend paragraphs [0009] and [0010], as follows:

[0009] Figure 7 is a left side view thereof; and

[0010] Figure 8 is a right side view thereof[[:]].

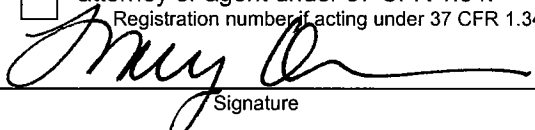

Please delete paragraphs [0011] through [0098].

Please renumber paragraphs [0099] and [0100] as follows:

~~[0099]~~ [0011] The features shown in broken lines in the various Figures are for illustrating environmental structure and form no part of the claimed design.

~~[0100]~~ [0012] ~~More generally, the invention pertains to an ornamental design for an article of manufacture. The article is not limited to the scale shown herein. of manufacture can vary widely. The design can also be scaled to different sizes depending on the article of manufacture. In one embodiment, as indicated above, As indicated in the title, the article of manufacture to which the ornamental design has been applied is an electronic device. Examples of an electronic device are a computer, a portable or hand-held electronic device, media player (e.g., music, video and/or game player), media storage device, a personal digital assistant, a communication device (e.g., cellular phone), a novelty item, toy and/or the like. In another embodiment, the article of manufacture is a novelty item or toy. The inventors anticipate that the invention can be any part, portion, element, or combination of elements of the depicted design.~~

Under the paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

Amendments to the Drawings

Please cancel Figures 1 through 88. Figures 89 through 96 are renumbered as Figures 1 through 8 in the attached Submission of Drawings.

These changes are believed to introduce no new matter, and their entry is respectfully requested.

Remarks

Reconsideration of this Application is respectfully requested.

Figures 1 through 88 have been cancelled. Figures 89 through 96 have been renumbered as Figures 1 through 8. The specification has also been amended to reflect these drawing changes. These changes are believed to introduce no new matter, and their entry is respectfully requested.

Conclusion

Applicants believe that a full and complete reply has been made to the outstanding Office Action and, as such, the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Prompt and favorable consideration of this Amendment and Response is respectfully requested.

Respectfully submitted,

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED OFFICE ACTION

This application is in condition for allowance except for the following formal matters:

The response and election filed on 9/19/2008 has been entered and the comments therein have been considered.

RESTRICTION ELECTION

Embodiments 1-11 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being for nonelected designs. Election was made with traverse in the reply filed on 9/19/2008 for Embodiment 12.

EXAMINER'S COMMENTS TO ELECTION WITH TRAVERSE

Applicant's election with traverse of Embodiment 12 only in the reply filed on 09/19/2008 is acknowledged. The traversal is on the ground that the groups should be further broken down to one embodiment per group because "the changes in appearance created by reducing certain features to broken lines" creates patentably distinct designs.

The traversal of the restriction requirement (normally used to argue that restriction is not necessary) was used herein to argue that the groups were not broken down enough. Applicant's position is that each individual embodiment should represent a separate Group.

The examiner, in framing a restriction requirement, must identify Embodiments and Groups. Embodiments define each individual design wherein any difference, no matter how small, is present. Groups are made up of patentably indistinct Embodiments. In reviewing the 12 Embodiments originally included herein, the examiner identified six Groups (i.e. six groupings of patentably indistinct designs). It remains the examiner's position that the differences in appearance between the Embodiments included within each of the six Groups are insufficient to define patentably distinct designs. Certainly if applicant had a patent on, for instance, the design of Embodiment 8 and someone else filed an application for the design of Embodiment 12; applicants would not consider the design of Embodiment 12 patentable over their Embodiment 8 Patent simply for adding, in full lines, the tiny capsule or oval-shaped feature. Since Embodiment 12 would not be considered patentable over Embodiment 8 in this scenario, it can not be said to be patentably distinct. This same analysis was applied to all of the embodiments when the groupings were made. Moreover, these features, for which patentable weight was not given, are found in the art and a designer skilled in the art would be charged with the knowledge thereof.

Therefore, applicants' argument that the restriction groupings are too encompassing, and should be further limited, is not found persuasive. For the purposes of defining the restriction, and setting forth what the examiner considers to be the patentably distinct

Art Unit: 2916

designs herein, the Groups set forth in the original Restriction Requirement of 07/21/2008 are being maintained.

The requirement is still deemed proper and is therefore made FINAL.

Applicants have limited the instant application to only Embodiment 12. While this is acceptable, it is noted that because the Restriction Requirement is made final, any later applications filed on embodiments 8-11 will each be considered to be a Continuation rather than a Divisional and therefore rejections for Obviousness Double Patenting will be applicable. If applicants do not wish to proceed in this way, either a complete Group must be elected or applicants must take other timely appropriate action (37 CFR 1.144).

OBJECTION TO DRAWING

As a result of the provisional election, FIGS 1-88 have been cancelled from the drawing and FIGS. 89-96 have been respectively renumbered FIGS. 1-8. FIGS 1-8 as filed on 9/19/2008 now represent the subject matter claimed herein. (If applicants opt to elect an entire Group from the examiner's restriction, then all of the figures elected must be consecutively renumbered starting with Fig. 1.)

Correction of the drawing is required for poor line quality.

The present drawing set is objected to because the line quality is rough and jagged. The lines are also blending together. Details of the design are lost when double lines blend together into one thick black line and when lines are not high quality, clear, and crisp. The quality of the drawings must be such that all details in the drawings are reproducible in the printed patent. See MPEP § 1.84 (I).

A new, formal, and mutually consistent drawing wherein the lines are sharp and well defined, is now required.

When preparing new drawings in compliance with the requirement therefor, care must be exercised to avoid introduction of anything which could be construed to be new matter prohibited by 35 U.S.C. 132 and 37 CFR 1.121.

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. If all the figures on a drawing sheet are canceled, a replacement sheet is not required. A marked-up copy of the drawing sheet (labeled as "Annotated Sheet") including an annotation showing that all the figures on that drawing sheet have been canceled must be presented in the amendment or remarks section that explains the change to the drawings. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either

Art Unit: 2916

“Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

AMENDMENT TO SPECIFICATION

The amendment to the specification filed on 9/19/2008 has been received and entered.

AMENDMENT TO FIGURE DESCRIPTION

As a result of the election, the amendment properly acts to cancel the figure descriptions for FIGS 9-96.

AMENDMENT TO BROKEN LINE STATEMENT

As a result of the election, the amendment also properly acts to renumber the broken line statement appearing after the figure descriptions. However, additional changes are required in the Objection to Specification section below.

AMENDMENT TO SPECIAL DESCRIPTION

The amendment also acts to change the special description appearing after the broken line statement. However, after further review additional changes are deemed necessary and are required in the Objection to Specification section below.

OBJECTION TO SPECIFICATION

OBJECTION TO DOMESTIC INCORPORATION BY REFERENCE

The following must be added to the specification, at the end of the first paragraph, after “thereto.”:

--All of the material from the 29/270,880 application which is essential to the claimed design is included herein. Any material in the 29/270,880 application which is not present herein forms no part of the claimed design.--

OBJECTION TO BROKEN LINE STATEMENT

In order to more clearly describe what is shown by the broken lines and as set forth by the MPEP § 1503.02 subsection III, the original broken line description must be cancelled and the following must be substituted therefor:

--The broken lines showing the remainder of the electronic device are directed to environment while the broken line circle in FIGS 1 and 3 is superimposed on a continuous surface; the broken lines are for illustrative purposes only and form no part of the claimed design.--

Art Unit: 2916

OBJECTION TO SPECIAL DESCRIPTION

In a telephone conversation with the office of Tracy-Gene G. Durkin on 11/14/2008 it was agreed that the special description must be cancelled and the following substituted therefor:

--The article is not limited to the scale shown herein. As indicated in the title, the article of manufacture to which the ornamental design has been applied is an electronic device. Examples of an electronic device are a computer, a portable or hand-held electronic device, media player (e.g., music, video and/or game player), media storage device, a personal digital assistant, and/or a communication device (e.g., cellular phone).--

CONCLUSION & CONTACT INFORMATION

The claimed design is patentable over the references cited. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. If applicant's response to the requirements set forth above is incomplete or includes new matter, the examiner may hold the response non compliant.

A shortened statutory period for reply to this action is set to expire TWO MONTHS from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRIDGET L. ELAND whose telephone number is (571)272-4675. The examiner can normally be reached Monday - Friday from 7:30 AM to 4:30 PM EDT.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ian Simmons, can be reached on (571) 272-2658. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Chinese Fake Super Brands

You have to give it to the chinese, they are the most rampant when comes to fake brands. Some would use the original brands and copy them exactly and others would copy the design and have their brands "renamed" but somehow you will get the idea of the new "renamed" brand.

Foreign companies have frequently complained of trademark violation and only recently USA has filed another official complaints to the WTO. China recently has also cracked down on fake brands by closing down business retailers in order to build a better positive image to outsiders. Check out some of the fake "renamed" brands below.

benefits of rolling out their 3G service. Deployment of 3.5G technologies such as HSDPA and EV-DO Rev A (and B) are also gaining momentum. Networks are getting deployed and market is being seeded with some of the early handsets.

- In terms of applications, messaging accounts for lion-share of data revenues. However, other services such as Mobile Music, Mobile TV and video streaming, Mobile Games, IMS, LBS, Mobile advertising, and others have captured industry's imagination. Though not much talked about, enterprise applications are also being adopted widely esp. in North America as more workers become mobile and corporations seek efficiencies in their operations and supply-chain.

- China Mobile overtook Vodafone as the most valued telecom operator in the world which in turn was surpassed by AT&T though China Mobile is likely to get its title back within a few quarters.

Interview Summary	Application No. 29/282,833	Applicant(s) ANDRE ET AL.	
	Examiner BRIDGET L. ELAND	Art Unit 2916	

All participants (applicant, applicant's representative, PTO personnel):

- (1) BRIDGET L. ELAND. (3)_____.
- (2) Tracy-Gene G. Durkin. (4)_____.

Date of Interview: 14 January 2009.

Type: a) Telephonic b) Video Conference
c) Personal [copy given to: 1) applicant 2) applicant's representative]

Exhibit shown or demonstration conducted: d) Yes e) No.
If Yes, brief description: _____.

Claim(s) discussed: single design claim.

Identification of prior art discussed: N/A.

Agreement with respect to the claims f) was reached. g) was not reached. h) N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: The restriction requirement set forth in the office action dated 6/9/2008 was discussed. As a result of the discussion, the restriction requirement has been changed to include two groups; Group I including all the embodiments for the complete handset and Group II including all of the embodiments of the front portion. Counsel for applicant then elected Group II, drawn to the front face of the handset. This interview summary, which sets forth applicant's election of Group II, acts as a response to the outstanding office action. The new restriction requirement, along with any additional requirements, will be formally set forth in the examiner's forthcoming office action.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN A NON-EXTENDABLE PERIOD OF THE LONGER OF ONE MONTH OR THIRTY DAYS FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

앰피쓰리 플레이어

디자인의 설명

1. 재질은 플라스틱 및 금속임.
2. 앰피쓰리형식의 음악파일을 자체 메모리에 저장하여 필요에 따라 재생시키는 음향재생기구로서, 라디오 기능과 녹음 기능 등이 부설된 것임.
3. 참고도1을 참조하여, 물품 전면을 덮는 판상의 부재는 투명 또는 색채등이 가미된 반투명의 재질로 구성되는 것이어서, 그 이면에 배설된 디스플레이부에 나타나는 내용을 확인할 수 있는 것이며, 동시에 그 자체로서 텍 스위치(Tack Switch) 기능을 갖는 것이어서, 선풍 및 플레이와 같은 조작을 할 수 있도록 된 것임.

디자인 창작 내용의 요점

본원 애플피쓰리 플레이어 의장은, 전술한 바와 같이 조작스위치기능을 갖는 전면창에 대하여 일체의 모양이나 장식을 배제함으로써 심플한 이미지를 형성하는 한편, 물품의 측면을 따라 기능키들을 적소에 배설하여 사용편의를 배려한 것으로서, 기능미와 조형미를 조화시켜 컴팩트한 외형으로 구현한 물품디자인을 의장 창작내용의 요점으로 함.

对于LG的新品DMB MP3——FM35，我们以前早有报道：DMB战火愈演愈烈 LG新推FM35、MP3+DMB LG FM35，而今天要给大家展示的是韩国网站pmpinside和minivian为FM35拍摄的精美图片，很凑巧的是这两个网站拍摄的分别是一黑一白两款机器，倒是更加充分的展示FM35的魅力所在。
