#### What does it mean to "Like" a piece of content that's been posted?

Clicking "Like" under something you or a friend posts on Facebook is an easy way to let someone know that you enjoy it, without leaving a comment. Just like a comment though, the fact that you liked it is noted beneath the item.

For example, if you click a Like link beneath a friend's video:

- It'll be noted beneath the video that you liked it
- A story will be posted to your Wall that you liked your friend's video
- Your friend will get a notification that you liked his or her video
