Product Features   See All Features

Windows® 8 OS

Whether you're using your mouse, your keyboard or
your fingertip, Windows 8 lets you see and navigate
your world in brand new – and very convenient – ways.
Your desktop features live tiles and snap-together apps
to give you the enhanced Windows PC experience
you've been waiting for. Want to open an app? Just tap
or click. Want to multitask? Just put two apps side-by-
side. The Samsung ATIV Smart PC (with the optional
removable keyboard) takes advantage of all these
advantages like no other device.

Built for Productivity

Since the ATIV Smart PC is a tablet with an
optional laptop-like keyboard, it lets you be as
productive as you like. There's support for
Microsoft® Office applications, for starters. With
email, Bluetooth Technology and VPN access, as
well as compatibility with your existing Windows
laptop or desktop. And all that productivity is
powered by a very powerful 1.8 GHz dual-core
processor.

Rich Entertainment Options

The ATIV Smart PC is also a very entertaining PC.
It comes with a variety of rich, preloaded apps that
will keep you entertained right out of the box –
Kindle™, YouTube™, Xbox LIVE®, Slacker®
Radio and more. Plus, you'll have access to all the
books, movies, games, music and videos from the
Windows® and Xbox stores. Whatever you choose,
it will always look and sound its best, thanks to
Samsung's beautiful display and ear-grabbing
audio capabilities. For even more viewing/listening
options, Samsung's AllShare® Play lets you play
DRM-free videos, music and photos stored on your
tablet on any compatible HDTV or computer.

Product Features   See All Features

Fast Streaming and Downloads

The hardware is fast. The software is fast. And the network is superfast. This Samsung takes full advantage of AT&T's 4G LTE network to bring you fast downloads and smooth video streaming and gaming. Remember waiting to see your content? Well, you can forget about all that – fast.

Superb Viewing Experience

Go large! (And deep and rich and beautiful!) The Samsung Focus® 2 has a big, bright Samsung display that makes everything you do look better, even in direct sunlight. Movies pop. The web startles. Xbox LIVE® games burst off the screen.

With the integrated front- and rear-facing cameras, you can enjoy your own vibrant photos and video – even during a video chat.

The World of Windows Phone

The World of Windows is the world you want to be in. The People Hub lets you immerse yourself in the fully integrated social networking world of Facebook®, Twitter®, LinkedIn® and more.

The Music + Videos Hub turns your Samsung Focus® 2 into a full-function media player, connecting you with your music, video and podcast library through Zune®.

Local Scout recommends nearby restaurants, shopping and activities, wherever you are. And Bing® brings you the rest of the world, with relevant, organized search results, whether you're exploring the Internet or a new city.

Windows Phone **8S** by htc

The smartphone to match your life at work and play. Our unique design immediately sets you apart in a sea of smartphones with playful, brightly colored devices that look as if they've been dipped in a bucket of paint. Even better...enjoy a strong, long-lasting battery via the powerful dual-core performance.

Screen	WVGA resolution
CPU Speed	Qualcomm® S4 1 GHz, Dual-core
Platform Windows	Windows® Phone 8
SIM Card Type	MicroSIM
Memory[1]	

	Total storage: 4 GB, available capacity varies[1] Expansion SD card slot supports micro™ SD memory card for additional storage (card not included) RAM 512 MB
Network[2]	**GSM/GPRS/EDGE:** 850/900/1800/1900 MHz[2] **HSPA/WCDMA:** Europe/Asia: 900/2100 MHz
GPS	Internal GPS antenna with GLONASS
Sensors	G-Sensor Proximity sensor Ambient light sensor
Connectivity	3.5 mm stereo audio jack Bluetooth® 3.1 Wi-Fi®: IEEE 802.11 b/g/n
Sound Enhancement	Studio-quality sound with Beats Audio™ built in
Camera	5 megapixel camera with auto focus LED flash F2.8 aperture and 35mm lens 720p video recording
Multimedia	**Audio supported formats:** **Playback:** Playback: .aac, .amr, .m4a, .mp3, .wav, .asf, .wma (verison 9 and 10) **Recording:** .wav(w/OneNote) **Video supported formats:** **Playback:** .3gp, .3g2, .mp4, m4v, asf, .wmv (version 9 and 10) **Recording:** .mp4
Battery[3]	Embeded & rechargeable Li-ion Polymer battery Capacity: 1700 mAh
AC Adapter	Voltage range/frequency: 100 ~ 240 V AC, 50/60 Hz DC output: 5 V and 1 A

1. Available storage is less due to phone software.

2. Network bands in regions other than Europe and Asia Pacific may be different, depending on the mobile operator and your location. Upload and download speeds also depend on the mobile operator.

3. Battery times (talk time, standby time, and more) are subject to network and phone usage.

   A Standby time specification ("specification") is an industry standard that is only intended to allow comparison of different mobile devices under the same circumstances. Power consumption in a standby state is strongly dependent on factors including but not limited to network, settings, location, movement, signal strength and cell traffic . Comparisons of different mobile devices using such a specification can therefore only be done in a controlled laboratory environment . When using any mobile device in real life circumstances for which the mobile device is intended, the standby time could be considerably lower and will be strongly dependent on the factors as mentioned above.

   Note: Specifications are subject to change without prior notice
