CALCULATION OF ANNUAL HOURS BY ATTORNEY

Appendix 2 - Calculation of Annual Hours by Course

The following tables allocate the number of hours requested by the plaintiffs' counsel by the year in which they were incurred, in order to apply the correct hourly rate. Where blocks of time overlap more than one year, they are allocated as indicated on the table—generally by dividing the time by the number of months per year indicated in the block. In some instances, where only a small amount of time overlaps a particular year, it is counted in one year as indicated.

Note: Page references in the chart are to the page numbers indicated in the ECF generated header at the **top** of the declaration cited.
