Description

Build an amazing interactive video profile with Hanginout Pro, the easy and powerful video app that lets you receive questions and record video answers, instantly. Add links to video responses and create easy to navigate menus in minutes. Share your profile and video answers with the world and connect your audience.

Free with your Hanginout Pro subscription

- Answer your audiences question
- Easily add questions and record responses that you are commonly asked or would like to publish
 - Instantly respond to un-matched questions by recording new response clips

Embed it anywhere and Share

- Paste the embed code in any HTML page to publish your profile
- Use Facebook and Twitter to promote and share your url where your Hanginout Pro widget is embedded

(Currently, browsers require Flash Player to playback videos in HTML widget)

Add Links to your Responses

- Your video responses can each have their own custom links
- Add links that load another video responses to build a visual navigation tree
- Link to any URL to sell products or give users access to documents while your video plays

Amazing Insight and Analytics

- Stop guessing and start seeing what you users are asking
- See how many people are asking you questions form any custom time span

Create an engaging experience

- Record a "Welcome Clip" that plays first when your player loads
- Record multiple "Waiting Clips" that loop while the user is thinking of something to ask
- Record an "Un-Matched Clip" that plays when users ask a question you haven't answered yet
- Record an "Anti-Profanity Clip" that plays when user use profane language
