## About Us

LocalInsurance.com, Inc. was designed and created by a team of enthusiastic insurance professionals with over 15 years experience in the insurance industry. After many years working as insurance agents, we felt a strong need to open our own agency and focus on great customer service. The company we started has grown and done very well. We are now eager to share great service with many more customers.

The rapid expansion and popularity of the Internet has brought both great potential and confusion to many customers. With these advancements in technology, many companies are trying to build their businesses by themselves over the Internet. This has created numerous "quote" services and related insurance sites.

Access over the Internet to the many different insurance companies has become enormous... overwhelming in fact. The age-old question of "where do I start?" has never been bigger. Everyone is saying that they have the best rates. Who's right? The fact is, no single company has the best rates for absolutely every situation.

Each company tends to target a different type of customer. Some companies want very low risk customers, while others specialize in higher risks or cater to niche markets. What to do?

The best way to determine if you are getting the very best rates for your situation is to shop various insurance companies... the more the better. This can be a very exhausting and frustrating process.

LocalInsurance has made this process secure, easy, convenient, fast, accurate and extremely comprehensive. At your convenience, fill out our quick and easy insurance questionnaire. Within minutes of you submitting it, your questionnaire will be hand rated by literally hundreds of insurance companies with local insurance professionals in your area.

Independent insurance agents have access to the largest selection of insurance companies found anywhere! Many insurance companies that sell directly to the public, through the mail, over the phone or on the Internet also make their products available to you through independent insurance agents. There are also many quality insurance companies that do not sell directly to the public, through the mail, over the phone or on the Internet but do market their products exclusively through the independent insurance agent. Therefore, independent insurance agents have at their fingertips the largest selection of insurance companies.

Shopping is a great idea, but now you can do this through LocalInsurance. We send your information to a number of independent insurance agents in your area. They shop through all of their companies and give you one of their best quotes through our service. Now, you have access to the largest array of insurance companies anywhere, anytime, through LocalInsurance.
