NetQuote Insurance Frequently Asked Questions

Why is NetQuote Insurance better?
 NetQuote has provided over 21 million leads to agents.
 We are the oldest & largest provider of insurance leads in the industry.
 NetQuote incorporates a number of unique processes and filters that increase the quality of the leads and provide applicants that are ready to buy.
 We implement highly targeted advertising programs that drive consumers to our site.
 Continual reevaluation of lead filters ensures the best lead sets for conversion.

How do I integrate NetQuote Insurance into my business plan?
 Qualified leads save you money by eliminating cold calling and the need to purchase, you can stop other expensive marketing methods that may not earn a good return on your investment.
 You can now work more leads faster – you receive all the information you need to be able to contact the lead and produce a quote.
 As a NetQuote Insurance lead subscriber, you will have access to calculators that assist you in forecasting revenue and income.

Where do the leads come from?
 Our leads come from consumers actively looking for insurance. All our leads are generated from consumers completing a NetQuote Insurance application online.

How do I receive my leads?
 Leads are provided electronically to agents moments after the consumer completes the application.

How can I start to get NetQuote leads?
 Our Agent Service Center will get you started. Simply complete a Request for Information Form and a NetQuote representative will contact you to set up your account.

How much do leads cost?
 The cost of your leads will vary depending on the type of lead you are interested in. The average range is \$3 - \$9.

How will I be billed?
 All payments are automatically billed monthly to your debit or credit card and are processed

How do I integrate NetQuote Insurance into my business plan?

Qualified leads save you money by eliminating cold calling and the need to purchase, you can stop other expensive marketing methods that may not earn a good return on your investment.

You can now work more leads faster - you receive all the information you need to be able to contact the lead and produce a quote.

As a NetQuote Insurance lead subscriber, you will have access to calculators that assist you in forecasting revenue and income.

Where do the leads come from?

Our leads come from consumers actively looking for insurance. All our leads are generated from consumers completing a NetQuote Insurance application online.

How do I receive my leads?

Leads are provided electronically to agents moments after the consumer completes the application.

How can I start to get NetQuote leads?

Our Agent Service Center will get you started. Simply complete a Request for Information Form and a NetQuote representative will contact you to set up your account.

How much do leads cost?

The cost of your leads will vary depending on the type of lead you are interested in. The average range is \$3 - \$9.

How will I be billed?

All payments are automatically billed monthly to your debit or credit card and are processed through our system, Auto Pay. Charges will appear on your monthly statement.

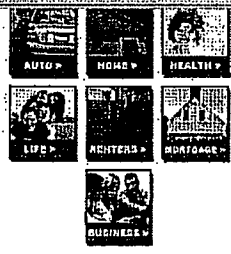

Is there a minimum or maximum amount of leads I purchase?

There is no minimum or maximum. It is up to the agent to determine the number of leads that best suits their business practices and portfolio objectives.

How do I manage my account?

NetQuote Insurance agents access their account information through Agent Central, a password-driven internet site. Agents can view account activity, lead and billing history, as well as change Auto Pay instructions. The agent site also contains valuable revenue forecasting and management tools.
