MINUTE ORDER

---

Entered by Magistrate Judge Michael J. Watanabe

It is hereby ORDERED that the plaintiff's Motion for Turkish Translators in the Court Presentation (Docket No. 49) is denied. This is a civil, not a criminal, action, and the court is thus not required to provide an interpreter for the plaintiff to prosecute his case. The court further notes that in his motion, plaintiff claims he cannot speak English very well, but the court was able to understand the voice mail message plaintiff previously left for the court in which he requested an interpreter for the upcoming Status Conference.
