Theresa:

Following up on our call this afternoon regarding Leprino's Response to DCI's Request to Produce, Leprino has previously produced documents relating to both Mayfield Welding and work orders on the crystallizers. As I mentioned in the call Leprino has previously produced documents for both categories.

With regards to the work orders relating to the crystallizers, please see the following documents relating to Leprino's CMMS and SAP system (all designations are of course to Leprino's bates numbers):

CMMS work orders: 6818-7281

SAP work orders: 6699-6817;  
7282-7345;  
13269

Also see certain spreadsheets which I believe are related to work orders for the crystallizers: 4509, 7346, 7347, 7348, 7351

With regards to Mayfield Welding, see the following bates numbered documents relating to work performed by Mayfield. There may be other documents discussing Mayfield's work, but this is what we were able to locate today:

5811-5816;  
5830  
5832  
5850  
5852  
6711  
6721  
6796

Please feel free to contact me with any questions or concerns you may have. Have a good weekend.

Bill
