U.S. DISTRICT COURT
NEW HAVEN, CT

Robin D. Tabora, Clerk

It was the courts lack of action that caused the laps in time for this case, since it was originally filed on August 6th 2012.

This is a simple case where the female officer totally ignored a male victim and a second witness/victim and sided with the other party, a female and her witness. The officer was not there to witness any of the events.

I originally filed in Hartford Federal court but the paperwork generated is coming from New Haven. I need to know where I am to reply to these requests.

If this case is dismissed then I would expect my \$400.00 filing fee be returned for lack of action.

Sincerely,

Richard M. Hiller
